St. Lucie West Services District

FINAL BUDGET FOR FISCAL YEAR ENDED SEPTEMBER 30 , 2014

August 22, 2013

Honorable Harvey Cutler, Chairman and Members of the Board of Supervisors St. Lucie West Services District 450 SW Utility Drive Port St. Lucie, FL 34986

RE: St. Lucie West Service District FY 2013-2014 Proposed Annual Budget and FY 2014-2018 Capital Improvement Plan

Dear Honorable Chairman and Supervisors:

I am pleased to present the annual budget for FY 2013-2014 and the FY 2014-2018 Capital Improvement Plan.

The attached budget addresses the operations and maintenance, debt service and capital improvement requirements for both the Utility operations, General, Capital Project and Debt Service Funds of the District.

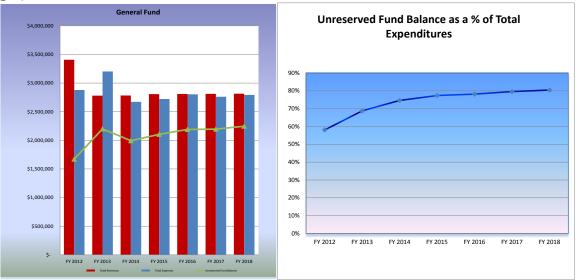

Many improvements were accomplished or encumbered in Fiscal Year 2012-2013 and some of the major projects that were completed in FY 2013 were:

- New Equipment Storage Building for the General Fund and Utility Fund.
- Several lift stations were rehabilitated with fencing and driveways and one lift station electrical panel replaced in FY 2013. The lift station restoration project effort will be continued throughout the next several years to ensure that all lift stations are upgraded.
- The Storm Water Gate Improvement Project was complete in 2013 and operating as designed, we received over a \$1,000,000 from FEMA for this project.
- The Water Reverse Osmosis Treatment Plant Expansion Project was awarded in 2013.
- The Wastewater Treatment Plant Expansion will be awarded in 2014.

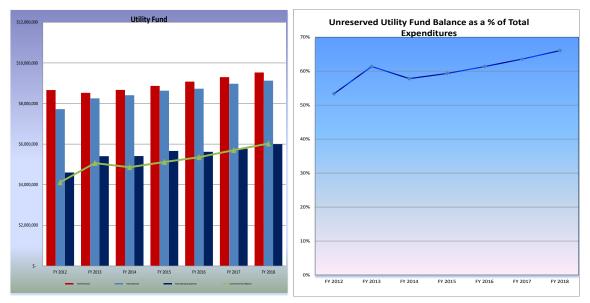

Fiscal Year 2013-2014 reflects positive account activity trends and the recent Refunding of Bonds have placed the District in a better financial position. District

Staff through efficient budgeting and innovative cost saving measures have enabled the District to keep rates the same since the 2009-10 FY. The budget for FY 2013-2014 continues with the five year forecasting of the District's financial needs. Looking out over five years, rather than just the upcoming budget year, shows the impact of the immediate operating budget and the effect on the District's future fiscal health. Immediate decisions, such as whether to spend from our fund balance to pay for a project, can now be aided by a longer-term perspective.

Trends in the General Fund revenues, expenditures and reserves are depicted in the left graph, while Unreserved Fund Balance, as a percentage, is depicted in the right graph.

Trends in the Utility Fund revenues, expenditures and reserves are depicted in the left graph, while Unreserved Fund Balance, as a percentage, is depicted in the right graph.

The District has a five year Utility and General Fund Capital Improvement Plan (CIP). By planning for capital needs over a five-year period the District will be able to see what the upcoming needs are, and what resources will be available to meet those needs. The Capital Improvement Plan (CIP) is broken down into four categories; the General Fund Renewal and Replacement Fund, Utility Renewal and Replacement Fund, Water Connection Fee Fund, and Wastewater Connection Fee Fund during the five-year period. You will find a brief description, cost breakdown and source of funding for each of the projects identified in the FY 2014-2018 CIP Plan. The CIP worksheets contain projects that have been identified by the District office and Utility plant management teams. A significant number of these projects and related dollars have been identified as Utility Renewal & Replacement projects (approximately \$1,000,110). According to the Bond indenture, 5% of the previous year's revenues are required to be transferred to the R&R fund from the Revenue (operating) Fund to be spent for this purpose. Ultimately the additional requested funds come out of the Utilities Revenue Fund. The Utility Renewal and Replacement Fund reflect a fund balance over \$500.000 for FY 2014.

We are currently in the process of completing a Revenue Sufficiency Analysis. This study is very important to aid in the adoption of rate increases in the upcoming years. In order to be able to continue with the CIP effort, the District's Utility system may need to provide additional revenues to fund future projects.

I believe the Department Heads and Staff have tried to address the concerns of the Board and have been diligent in keeping expenditures down while providing quality service to the residents throughout the year. I would like to thank the Staff for all their hard work in addressing these major issues.

We respectfully submit the FY 2013-2014 budget for your review and consideration.

Sincerely,

Dennis M. Pickle

Dennis M. Pickle District Manager

ST. LUCIE WEST SERVICES DISTRICT GENERAL FUND BUDGET OVERVIEW

Budget Discussion

The budget is an annual process that involves the Board of Supervisors, the District Manager and staff, operations and billing personnel, engineers and others. This process must first consider anticipated revenues we will receive from operations so as to determine the resources available to be budgeted. First claim on the resources will be the essential costs necessary for the proper operation and maintenance of the general fund operations. Any remaining funds may then be utilized for the capital improvement program and remaining needs.

In the Governmental Funds, separate accounting funds are set up for the bonded debt service and proceeds from bond issues. There are three such funds at St. Lucie West Services District. These three funds are shown on the last three pages of this budget. Separate assessments on the District property owners are assigned exclusively for the Water Management Benefit Series 2013 and the Cascades Series 2010 Debt Service Funds. The proceeds of these assessments can be used for no other purpose than the debt service of these two bond issues. The District recently refunded the Water Management Benefit Series 2010 bond at a savings of \$24.00 per ERU per year through 2025.

We have divided the general fund budget into two parts: the operating budget and the capital budget.

The capital budget is for infrastructure improvements, system expansion to handle customer growth, renewal and replacements, service extensions, additions, or extraordinary repairs. The addition of a Renewal and Replacement Fund will be utilized to fund these projects.

We anticipate finishing the current fiscal year with a deficit and are budgeting for a surplus in FY 2014. The deficit in FY 2013 was funded from the unrestricted fund balance which remains above 50% of total expenses. The General Fund for both FY 2013 and 2014 will have a fund balance exceeding a million dollars. This also means that the District will have sufficient cash flow to carry operating costs until the General Fund starts receiving revenue from the maintenance assessments in November and the Storm Water Fees from the City of Port St. Lucie in January.

Certain decisions, especially in the capital improvement program, made during the budget process have an impact which extends to multiple fiscal years and not only the year for which the budget is approved. In order to demonstrate this impact, five (5) year forecasts have been developed for each system for both the operating and capital budgets.

Assumptions Used in Preparing the Budget

Inflation – The following inflationary rates are utilized; for the management contract line item the rate 1.6% for FY 2014 is based upon the change in the U.S. Bureau of Labor Statistics Consumer Price Index - All Urban Customers, U.S. City Average, Services, for most other line items, where applicable, a general inflationary rate of 2% is utilized. There are some exceptions such as health insurance 10% this year, and liability insurance 5% this year for which national projections call for continuing increases. Energy costs are expected to grow at an inflation rate of 10% as well.

Rate Adjustment – The Special Assessment rate of \$111.00 per ERU proposed within this year's budget for FY 2014 reflects no increase and reflects the reimbursement of \$2.00 per ERU due to the prior year assessment error.

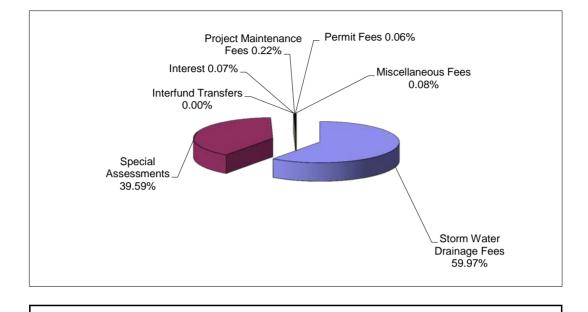

The ERU numbers are expected to remain the same in FY 2014. We expect revenues in most categories to remain the same per year for each of the next five years. Fiscal years 2015, 2016, 2017 and 2018 reflect no increase in assessments at this time.

Capital Improvement Program

The capital improvement program has several items for your review. In a continuation of the previous years funding practices for capital items, we are proposing to pay for the capital items directly rather than financing the purchase over a number of years. The typical interest rates charged for lease financing are significant, and therefore the District can save a significant amount by purchasing the items. All equipment purchase will be paid for outright at the time of purchase.

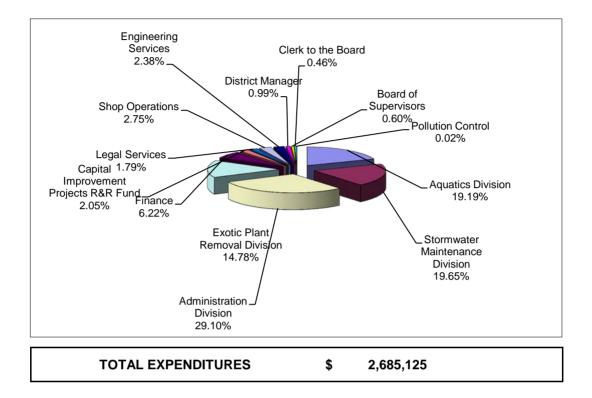

A summary of the funding sources for all system capital projects budgeted in FY 2014 are as follows: The Aquatics Division is requesting One boat replacement, and construction of a chemical storage building; The Storm Water Division is requesting one 17 foot Woods Mower replacement; The Exotic Plant Removal Division is requesting a F-150 4x4 truck replacement, a Kubota RTVF 500 replacement, and construction of a chemical storage building shared with the Aquatics Division. The General Fund Renewal and Replacement Fund Projects are for emergency storm water projects in the amount of \$110,000 and \$200,000 is budgeted for the street to pond stormwater repairs in the POA's. The list of capital items total \$397,500 in the General Fund for FY 2014.

REVENUE SOURCES

St Lucie West Services District receives approximately 92% of their operating Revenues for the General Fund from the special assessment they levy on property owners and the transfer of storm drainage fees from the City of Port St Lucie.

General Fund Revenues

Permit Fees

Revenue received by the District Engineer for the review of preconstruction approval plans and specifications for facilities that are to become a part of the surface water management system owned and operated by the District.

Grant Revenue

Revenue received from Federal or State agencies for Grants. This revenue is circumstantial and must be applied for. In recent years the District has received Grant monies from such agencies such as FEMA which offered money for hurricane related expenses.

Miscellaneous Fees

This is a contingency line for any miscellaneous revenues received during the course of the year. This would include revenue received for the out-sourcing of the video ray system, vacon truck as well as the aquatic harvester.

Storm Water Drainage Fees

Revenue received from the City of Port St. Lucie for the assessment placed on property owners for the maintenance of the Storm Water Drainage system. Presently the District receives 75% of the total amount assessed on property owners of the District. District will receive additional funding from any increase that the City levies for additional funding. Currently at \$153.00 per ERU.

Project Maintenance Fees

Revenue received from the Water & Sewer fund for the landscaping maintenance on the property owned by the Water & Sewer fund.

Interest Revenue

This account reflects all interest earnings in all non-restricted cash accounts that belong to the General Fund.

Special Assessments

Non-advalorem tax revenue received from the property owners of the District for the maintenance and operational costs of the District. The special assessment fee is projected to remain at \$111.00 per ERU due to the increased maintenance area.

Interfund Transfers

In previous years this was revenue from excess funds that are being held in the Water Management Benefit Series 1999 A & B Revenue account. With the refinancing of the 1999A and 1999B bonds in 2010 no interfund –transfers are slated for the future.

ST. LUCIE WEST SERVICES DISTRICT WATER AND SEWER FUND BUDGET OVERVIEW

Budget Discussion

The budget is an annual process that involves the Board of Supervisors, District Manager and staff, operations and billing personnel, engineers, rate consultant and others. This process must first consider anticipated revenues we will receive from operations so as to determine the resources available to be budgeted. First claim on the resources will be the essential costs necessary for the proper operation and maintenance of the utility operations. The next priority must be to fund those areas necessary to satisfy the requirements of the revenue bonds issued to build and improve the water and sewer systems. Any remaining funds may then be utilized for the capital improvement program and remaining needs.

We have divided the budget into two parts: the operating budget, which includes the Debt Service Requirements and the capital improvement budget. The operating budget includes routine operating expenditures. The capital budget is for infrastructure improvements, system expansion to handle customer growth, renewal and replacements, service extensions and additions or extraordinary repairs.

Certain decisions, especially in the capital improvement program, made during the budget process have an impact that extends to multiple fiscal years and not only the year in which the Board approves the budget. In order to demonstrate this impact, we have developed five (5) year forecasts for both the operating and capital budgets.

We anticipate finishing FY 2013 with a lower surplus than budgeted. This is due to the 2013 Bond issue for the WWTF expansion project. The Proposed Budget for FY 2014 recommended a Rate Increase of 1.6% but the proposed budget reflects no increase for FY 2014, we anticipate a surplus over \$200,000 in the FY 2014 budget year.

Assumptions Used in Preparing the Budget

Inflation – The following inflationary rates are utilized; for the management contract line item the rate 1.6% for FY 2014 is based upon the change in the U.S. Bureau of Labor Statistics Consumer Price Index - All Urban Customers, U.S. City Average, Services, for most other line items, where applicable, a general inflationary rate of 2% is utilized; and a 2% inflationary rate for FY 2014 thru 2018. There are some exceptions such as health insurance (10%), and liability insurance (5%) for which national projections call for continuing increases. Energy costs are expected to grow at an inflation rate of 10% as well.

<u>Rate Adjustment</u> – There is no rate adjustment for FY 2014 in this budget based on the fact the operating budget reflects a surplus and the Unreserved Fund balance is over 50% of expenses.

Operating Improvements

This budget includes a few small dollar cost improvements. We are continuing the funding of the water conservation effort with customers by providing rebate on items such as low flow toilets and low flow shower heads. This program will be funded at an annual amount of \$5,000 and is designed to encourage water conservation.

We are also taking efforts to improve customer service and billing for the utility, an item in the District's Strategic Plan. The District will continue to conduct training sessions for customer service.

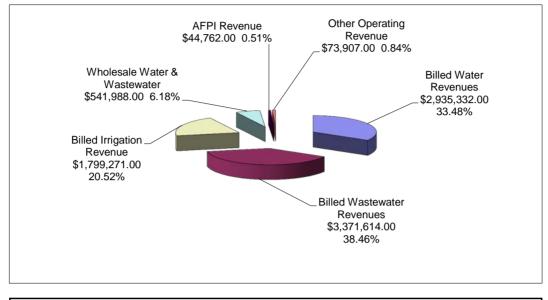

Capital Improvement Program

The capital improvement program has several items for your review, a total cost in FY 2014 of \$5,463,426. In a continuation of a change started in FY 2006, we are proposing to continue to pay for the

capital items directly rather than financing the purchase over a number of years. The typical interest rates charged for lease financing are significant, and therefore the District can save a significant amount by purchasing these items rather than leasing them. The Renewal and Replacement Fund Budget is \$1,000,110; the Water Connection Fee Budget is \$376,600, the Wastewater Connection Fee Budget is \$3,267,000 and the Capital Outlay Budget is \$49,716 for FY 2014.

Major capital projects contained in the capital budget for FY 2014 include the continuation of the Lift Station Renewal and Replacement project at \$182,106, Emergency Renewal and Replacement Projects at \$167,306, and Reuse irrigation pump station repairs at \$205,000 (FY 2014). The Water Connection Fee Fund has one major project for planned FY2014 the high service pump expansion project estimated at \$335,000. The Wastewater Connection Fee Fund has one major project planned FY2014 which was moved from FY2013 the WWTF Expansion Project estimated at \$8,775,000.

UNDERGROUND UTILITIES DIVISION

Underground Utilities Division - Personnel

Regular Salaries

Includes Underground Utilities Division employee's basic salaries. The total budget is estimated using a tabulation of all approved positions, applying the appropriate increases and allowing a factor for unfilled vacancies. We are proposing one new service worker in 2014 and one new service worker in 2015 due to new state requirements and proposed irrigation transmission main take over. This year we are proposing to give a 1.6% increase to all employees. This also reflects \$6,000 for license or certifications.

Overtime: FICA: Retirement Contributions: Travel & Per Diem; Uniforms: Subscriptions & Dues: Training, Cont. Education & Licensing The above categories are the same as described in the Administration Budget

Underground Utilities Division - Operating
