

ST LUCIE WEST SERVICES DISTRICT TIPS TO CHECK FOR LEAKS

The following is information captioned from a Water Operating Manual. This may help you understand the significant rise in your monthly bill should a leak be detected.

Water loss as a result of a leak only ¼” (0.63 cm.diameter) can mean a loss of 14,952 gallons a day. Should this leak continue for a period of 34 days over ½ million gallons can be lost.

The following image will demonstrate loss of water per size of pipe leak.

GALLONS LOST		
<u>PIPE LEAK SIZE</u>	<u>PER DAY</u>	<u>PER MONTH</u>
•	360	11,160
●	3,096	95,976
●	8,424	261,144
●	14,952	463,512
