(Please note: This is not verbatim. A CD recording of the Workshop Meeting is available on file.)

#### **Board Members Present**

Vincent D'Amico – Chairman – in-person Gregg Ney – Vice Chairman – via phone John Doughney, Secretary – in-person Dominick Graci, Supervisor – in-person Viorel Mocuta, Supervisor – in-person

#### **Staff Present**

Bill Hayden, District Manager, St. Lucie West Services District ("SLWSD") – in-person Maddie Maldonado, Director of Office Administration, SLWSD – in-person Josh Miller, Utilities Director/Assistant District Manager, SLWSD – in-person Gerard Rouse, Assistant Public Works Director, SLWSD – in-person Lisa-Marie Beans, Executive Assistant, SLWSD – in-person Jason Pierman, Secretary/Treasurer, Special District Services, Inc. ("SDS") – in-person

Laura Archer, Recording Secretary, SDS – via phone

#### **Guests Present (Sign-In Sheet Attached)**

#### A. Call to Order

Chairman D'Amico called the Workshop Meeting to order at 9:00 a.m.

- B. Pledge of Allegiance
- C. Roll Call

It was noted that all 5 Supervisors were in attendance.

- D. Approval of Minutes
  - 1. April 4, 2022, Workshop
  - 2. April 5, 2022, Regular Board Meeting

There were no revisions to either set of minutes.

#### E. Public Comment

There was no public comment.

# F. District Attorney DA 1 – Status Report/Updates

Mr. Hayden was not aware of any updates from Mr. Harrell.

#### G. District Engineer

DE 1 – Consider Work Authorization No. 7BN3-13-0322-SU between the District and 500 Stadium Business Center, LLC

Mr. Hayden presented the item, indicating that it was an application for the construction of a 3.36-acre commercial development on the northwest corner of NW Peacock Boulevard and NW Stadium Drive, which is currently undeveloped and covered heavily with trees and vegetation.

Mr. Hayden continued that the applicant proposes to construct two commercial buildings with associated driveways and parking spaces. The project site will utilize and connect to the existing water, sewer and reuse lines adjacent to the lost. He also indicated that staff recommends approval of the work authorization with the following 2 special conditions:

- 1.) All water, sewer and reuse improvements past the points of service shown on the plans shall be the responsibility of the applicant or subsequent owner; and
- 2.) All on-site drainage facilities including the proposed control structure shall remain in private ownership and must be the maintenance responsibility of the applicant or subsequent owner.

There was no discussion regarding this item.

# H. District Manager Action Items

DM 1 – Consider Request to Advertise Public Hearings to Consider (1) Adopting a Revised Employee Job Descriptions; and (2) Amending Chapter A-III, Rules of the District Regarding Positions, Qualifications, Compensation, Employment and Termination of District Employees

Mr. Hayden presented the item, indicating that the request was for 2 Public Hearings:

1.) Public Hearing 1 – adopting revised employee job descriptions, including the deletion of certain existing job descriptions and the addition of descriptions for certain new positions. It was noted that the pay grade ranges for certain job descriptions may change following completion of the wage and salary study currently in the process; and

2.) Public Hearing 2 – adopting an amendment to Chapter A-III, Rules of the District Regarding Positions, Qualifications, Compensation, Employment and Termination of District Employees, to add the position of Assistant Director of Office Administration – Human Resources to the list of "high ranking employees" as defined in Section 1 (a).

The Board had several questions which were addressed.

# DM 2 - Consider Change Order #1 from Lawrence Lee Construction Services, Inc. for the WWTF Filter #2 Replacement Project

Mr. Miller presented the item, indicating that Lawrence Lee Construction Services, Inc. was hired by the District for the WWTF Filter #2 Replacement Project. He further indicated that this change order was being requested by the company for the relocation of the proposed electrical control panels in order to allow for better accessibility of the new filter controls. Mr. Miller noted that this change order would increase the contract from \$998,000 to the not to exceed amount of \$1,001,908.

A brief discussion ensued regarding the details of the change.

#### DM 3 – Other Updates

Mr. Miller advised of his receipt of the 2021 Annual Drinking Water Quality Report, indicating that there were no changes from last year's report. He noted that it would go out with the May billing and will also be posted on the District's website.

Supervisor Graci provided information regarding the Presidents' Council Meetings, indicating that their primary goal is to restart the communication process between HOAs, the community and city and county leaders. Discussion ensued regarding decisions that needed to be made regarding the details of these meetings and a start date.

Mr. Hayden advised of the Candidate Qualifying Period for election runs from noon on June 13, 2022, through noon on June 17, 2022. He suggested contacting the St. Lucie County Supervisor of Elections' Office for more information.

Mr. Hayden then distributed the Fiscal Year 2022/2023 Proposed Budget. There was a Board consensus to discuss the budget at the next meeting in June.

That concluded Mr. Hayden's updates.

#### I. Consent Agenda

- CA 1 Monthly Report on Public Works Department
- CA 2 Monthly Report on Utilities Operations
- **CA 3 Monthly Report on Capital Improvement Projects**

#### **CA 4 – Monthly Report on Billing and Customer Service**

#### CA 5 – Financial Statements for March, 2022

# CA 6 – Consider Approval to Transfer Funds for the R&R Account, WCF Account and WWCF Account

There was no discussion regarding Consent Agenda items CA 1 through CA 6.

#### J. Supervisor Requests

Vice Chairman Ney requested a moment of silence for Jimmy Mobley who had recently passed away.

That concluded Supervisor Requests.

#### K. Adjournment

There being no further items to be addressed, the Workshop Meeting was adjourned at 9:23 a.m. There were no objections.

(Please note: This is not verbatim. A CD recording of the Regular Board Meeting is available on file.)

#### **Board Members Present**

Vincent D'Amico – Chairman – in-person Gregg Ney – Vice Chairman – in-person John Doughney, Secretary – in-person Dominick Graci, Supervisor – in-person Viorel Mocuta, Supervisor – in-person

#### **Staff Present**

Bill Hayden, District Manager, St. Lucie West Services District ("SLWSD") – in-person Maddie Maldonado, Director of Office Administration, SLWSD – in-person Josh Miller, Utilities Director/Assistant District Manager, SLWSD – in-person Gerard Rouse, Assistant Public Works Director, SLWSD – in-person Thomas Bayer, Assistant Utilities Director, SLWSD – in-person Lisa-Marie Beans, Executive Assistant, SLWSD – in-person Dan Harrell, District Counsel, Gonano & Harrell – in-person Clayton McCormick, District Engineer, Infrastructure Solution Services. – in-person Jason Pierman, Secretary/Treasurer, Special District Services, Inc. ("SDS") – via phone

Laura Archer, Recording Secretary, SDS – in-person

#### **Guests Present (Sign-In Sheet Attached)**

#### A. Call to Order

Chairman D'Amico called the Regular Board Meeting to order at 9:00 a.m.

#### B. Pledge of Allegiance

Chairman D'Amico asked for a moment of silence for Jimmy Mobley who had recently passed away.

#### C. Roll Call

It was noted that all 5 Supervisors were in attendance.

#### D. Approval of Minutes

- 1. April 4, 2022, Workshop
- 2. April 5, 2022, Regular Board Meeting

The minutes of the April 4, 2022, Workshop and the April 5, 2022, Regular Board Meeting were presented for consideration.

A **MOTION** was made by Supervisor Graci, seconded by Secretary Doughney and unanimously passed, approving the minutes of the April 4, 2022, Workshop and the April 5, 2022, Regular Board Meeting, as presented.

#### E. Public Comment

There was no public comment.

# F. District Attorney DA 1 – Status Report/Updates

Mr. Harrell had no updates at this time.

#### G. District Engineer

DE 1 – Consider Work Authorization No. 7BN3-13-0322-SU between the District and 500 Stadium Business Center, LLC

Mr. McCormick presented the item, asking if there were any questions.

A brief discussion ensued regarding the 2 special conditions.

A **MOTION** was then made by Vice Chairman Ney, seconded by Secretary Doughney and passed unanimously approving Work Authorization No. 7BN3-13-0322-SU between the District and 500 Stadium Business Center, LLC, as presented.

# H. District Manager Action Items

DM 1 – Consider Request to Advertise Public Hearings to Consider (1) Adopting a Revised Employee Job Descriptions; and (2) Amending Chapter A-III, Rules of the District Regarding Positions, Qualifications, Compensation, Employment and Termination of District Employees

Mr. Hayden presented the item and distributed a revised org chart.

A brief discussion ensued regarding the position titles.

A **MOTION** was made by Secretary Doughney, seconded by Supervisor Graci and passed unanimously approving the advertisement of two Public Hearings to consider (1) Adopting a Revised Employee Job Description; and (2) Amending Chapter A-III,

Rules of the District Regarding Positions, Qualifications, Compensation, Employment and Termination of District Employees for July 12, 2022, as presented

# DM 2 – Consider Change Order #1 from Lawrence Lee Construction Services, Inc. for the WWTF Filter #2 Replacement Project

Mr. Miller presented the item for Board consideration.

A brief discussion ensued regarding the location of the control panels.

A **MOTION** was then made by Secretary Doughney, seconded by Vice Chairman Ney approving Change Order #1 to Lawrence Lee Construction Services, Inc. in the amount of \$3,908 for the WWTF Filter #2 Replacement Project, as presented. The Utility Fund Available Project Budget being \$102,000; This Project Cost being \$3,908; leaving a Utility Fund Available Balance After the Project of \$98,092.

#### **DM 3 – Other Updates**

Mr. Miller advised that the 2021 Annual Drinking Water Quality Report was ready to go to the public.

A discussion ensued regarding testing for micro plastics to which Mr. Miller advised that he believed at some point other reports would require to be tested for them.

The Board was requested to accept the 2021 Annual Drinking Water Quality Report.

A **MOTION** was made by Secretary Doughney, seconded by Supervisor Graci and passed unanimously accepting the 2021 Annual Drinking Quality Report, as presented.

Supervisor Graci then brought up the Presidents' Council Meetings and the questioned raised regarding the details. He noted that either Mr. Hayden or Mr. Miller should be contacted by e-mail about the meetings.

A discussion then ensued regarding a start date for the meetings and potential speakers and topics.

It was ultimately decided that the first meeting would be scheduled for June 15, 2022, at 9:00 a.m. and the District would provide refreshments for this first meeting. Refreshment for subsequent meetings would fall on the "host."

It was decided that Supervisor Graci would Chair the Committee for the Presidents' Council Meeting and organize the meeting dates and locations and Secretary Doughney would Co-Chair and make arrangements for speakers.

The Candidate Qualifying Period was reiterated, noting that the notice had been published in the *St. Lucie News Tribune* on May 9, 2022, and that the following seats were expiring in November 2022:

Seat 1 – Gregg Ney;

Seat 2 – Dominick R. Graci; and

Seat 3 - Vince D'Amico

#### I. Consent Agenda

Consent Agenda items CA 1 through CA 6 were presented for consideration.

- **CA 1 Monthly Report on Public Works Department**
- **CA 2 Monthly Report on Utilities Operations**
- **CA 3 Monthly Report on Capital Improvement Projects**
- CA 4 Monthly Report on Billing and Customer Service
- CA 5 Financial Statements for March, 2022

# CA 6 – Consider Approval to Transfer Funds for the R&R Account, WCF Account and WWCF Account

A **MOTION** was made by Secretary Doughney, seconded by Supervisor Graci approving Consent Agenda items CA 1 through CA 6, as presented.

#### J. Supervisor Requests

A brief discussion ensued regarding the District picking up yard waste and what a great job they did.

Secretary Doughney expressed his condolences to Jimmy Mobley's family and praised his 26 years of service to the District.

That concluded Supervisor Requests.

#### M. Adjournment

There being no further items to be addressed, the Regular Board Meeting was adjourned at 9:27 a.m. There were no objections.

#### **EMERGENCY MANAGEMENT GUIDELINES OPERATIONS PLAN**

**Severe Weather or Hurricane** 

2022

#### <u>Introduction</u>

The following is a guide to be used by the St Lucie West Services District employees to assist the City crews throughout St. Lucie West during emergency operations. As a special purpose unit of local government, the St Lucie West Services District is responsible for storm water management as well as water and sewer operations within the boundaries of St. Lucie West. Additionally, the District will assist with roadway clearing or closings, debris removal, etc., to provide reasonable accessibility throughout St. Lucie West during critical times.

Various contractors, District equipment and facilities, will be used to accomplish the above tasks. Local weather monitoring system includes direct information from the National Weather Service, as well as the National Hurricane Center. Available information includes severe weather tracking charts, wind/flood advisories and severe weather forecasts.

# <u>General Operating Procedures</u>

#### **PRIOR TO EVENT**

#### **72 Hours:**

- Put District Employees & Contractors on Alert Status (extended work & 24 hr, Call).
- Mark all catch basins with appropriate markers for later locations.
- Prepare at plant to house necessary essential employees.
- Service pumps & move to utility plant.
- Check & fill utility plant generator tanks.

#### DRAINAGE - Gerard Rouse

- 1. Operation of External Operational Control Facilities
  - Two (2) step process as follows:
    - A. Collection of data
      - 1. Lake elevations within all basins
      - 2. Receiving system (turnpike and 108 Canals) elevations
      - 3. Operational record of internal and external structures
      - 4. Rainfall data for St. Lucie West
    - B. Decision to operate facilities
      - 1. Anticipated rain fall
      - 2. Basin stages
      - 3. Effectiveness of internal operable facilities to relieve local inundation.
- 2. Notification and Implementation:
  - A. Receive approval from The City of Port St. Lucie Engineering (John Dunton)
  - B. Receive approval from the So. FL. Water Management Dist. (SFWMD Guy Boisclare)
  - C. Preparation for discontinuation of use upon request from The City of P.S.L., F.D.O.T., or the SFWMD.
- 3. Operable Structures:

Structures allow the weirs within the basins served to be lowered **(up to 2 foot)** below the permitted control elevation to manage water within the internal surface water management system. They are proposed to be utilized under the following three (3) Scenarios:

#### <u>Emergency Management Guidelines</u> Continuation of General Operating Procedures

#### **Pre- Storm Discharge**

#### Scenario #1

- Basin Stages higher than 0.5 foot above control elevation.
- Anticipated rain fall: 1-3 inches
- Stages downstream of external control structures below 18.50 NGVD
- Operation of external and internal control gates: open external gate; open subsequent upstream internal structures. Close upstream gates in reverse order as basin stages are brought back to within 0.5 ft control.

#### Scenario # 2

- Basin Stages above control elevation
- Anticipated rainfall greater that 3 inches
- Stages downstream of external control structures below 18.50 NGVD
- Operation of external and internal control gates: open external gate; open subsequent upstream internal structures. Close upstream gates in reverse order as basin stages are returned to basin control elevation.

#### Scenario # 3

- Basins stages above road crown elevations
- Communication with the City of PSL indicates that the stages in the downstream basin of outfall canals are below road flood stages.
- Stages downstream of external control structure are below 18.50 NVGD.
- Operation of external and internal control gates: open external gate; open subsequent upstream internal structures. Close upstream gates in reverse order as basin stages are brought back to within 0.5 ft control.

#### 48 Hours:

- Receive appropriate barricades & store at utility plant.
- Mobilize appropriate contractor equipment needed for St. Lucie West and stage at District Utility Site.

#### 24 Hours:

- Fill District Diesel Tanks & receive portable 500-gallon gas tank full at utility plant (if available).
- All District Vehicles & Equipment serviced and ready.
- ➤ All Critical District Equipment moved to Utility Plant.
- District's Rubber Tire Combination Unit and Stake Body Truck staged at SLCFD Station #14

#### <u>Emergency Management Guidelines</u> <u>Continuation of General Operating Procedures</u>

#### Post Event:

- Utilize staged equipment for primary road clearing & storm water work.
- Priority of primary road clearing as follows:
  - 1) South Bethany Drive
  - 2) Utility Drive
  - 3) St. Lucie West Blvd.
  - 4) Peacock Blvd.
  - 5) Cashmere Blvd.
  - 6) California Blvd.
  - 7) Heatherwood Blvd.
- Priority of secondary streets road clearing as follows:
  - 1) Country Club Drive (N & S)
  - 2) North Bethany
  - 3) Village Drive
  - 4) Maplewood Drive
  - 5) Lake Charles Circle
  - 6) University Drive
  - 7) Enterprise Drive
- > Residential and other side roads to be cleared after primary and secondary streets are all cleared.
- All road closings in St. Lucie West due to flooding or debris will be coordinated with the City E.O.C. Barricades and their location will be coordinated with the City E.O.C.
- Debris hauling will begin near completion of roadway clearing. (City of Port St. Lucie)

#### <u>Emergency Management Guidelines</u> <u>Work Responsibilities</u>

#### I. DISTRICT COORDINATOR

William K Hayden (City EOC or designee TJ Bayer or Gerard Rouse or Josh Miller)

- 1. Communications Internal within the District
  - A. Radios 800 MHz:
    William K Hayden (SLW # 800)
    Josh Miller (SLW # 801)

Gerard Rouse (SLW # 802) TJ Bayer (SLW # 803)

Searg Davidian (SLW # 804)

- B. Phones
- C. Cell Phones
- 2. Communications External
  - A. City E.O.C.
  - B. County E.O.C.
- 3. Outside Agencies
  - A. Army
  - B. Red Cross
  - C. Special Needs Center-City E.O.C.
- 4. Environmental Effects
  - A. Storm Damage
  - B. Chemicals
    - 1. Home Pesticides
    - 2. Commercial Chemicals
- 5. Food Stations
  - A. Coordinate with City of Port St. Lucie or St. Lucie County
- 6. Coordinate with Florida Emergency Management Agency
- 7. Coordinate with FEMA

#### II. PUBLIC WORKS COORDINATOR

Gerard Rouse – Assistant Public Works Director

- 1. Various Items
  - A. Barricades
    - 1. With cooperation and input from the City to set up road closures post event.
  - B. Sandbag resident dwelling, commercial properties etc., as needed post event.
  - C. Debris removal streets maintain accessibility post event.
    - Mobilization of contractors, heavy equipment IE. Loaders, dump trucks -for hauling debris.
    - 2. Priority main street, second-secondary streets, third-residential and commercial areas.
  - D. Help maintain operable control structures and setting up large capacity pumps when needed.
  - E. Fuel for all equipment and trucks-supplied by contractors and/or District vendors as applicable.

#### III. UTILITIES COORDINATOR

Joshua Miller- Utilities Director/Assistant District Manager

#### Self-Sustaining Systems on 10-day Fuel Capacity

#### 1. Water Treatment Plant

#### Pre- Event

- A. Generator Fuel Tanks should be full
- B. Shutters in place prior to storm
- C. Secure WTP Buildings prior to storm
- D. Pick up and /or secure loose objects prior to the storm
- E. All personnel informed when to respond pre/during/post event
- F. Top off all vehicles with fuel
- G. Top off all chemical tanks
- H. Fill all potable tanks prior to storm
- I. Update the On-Line FDEP Storm Tracker

#### Post Event

- A. Maintaining plant during and post event
- B. Update the On-Line FDEP Storm Tracker
- C. Delivery of potable water to all residents post event
  - 1. Distribution System
  - 2. Water distribution area locations St. Lucie West & City residents.

#### 2. Underground Utilities

#### Pre- Event

- A. Top off all vehicles and equipment with fuel.
- B. Secure UGU Buildings prior to storm.
- C. Pick up and/or secure loose objects in and around the UGU Storage Buildings prior to the storm.
- D. All personnel informed when to respond pre/during/post event.
- E. Hook up By-Pass Pump to UGU F-250 4x4 Truck.
- F. Hook up Portable Generators to UGU Trucks.
- G. Clean out all trucks.
- H. Pump down and secure all Lift Stations before end of shift.
- I. See if any other Department needs assistance.

#### Post Event

- A. Maintaining Lift Stations during and post event.
- B. Delivery of potable water to all residents post event.
  - 1. Distribution system.
  - 2. Water distribution area locations St. Lucie West & City residents.
- C. Severely damaged buildings.
  - 1. Turn off water at curb stops.
- D. Assess all Lift Stations and report to the Utilities Director

#### 3. Wastewater Treatment Plant

#### Pre- Event

- A. Shutters in place prior to storm
- B. Confirm Emergency Wastewater Storage Tanks are empty.
- C. Dewater/Process as much sludge as possible leading up to the day of the expected event and haul cake to landfill.
- D. Top off all Chemical Tanks.
- E. Secure All WWTF Buildings prior to storm
- F. Pick up and /or secure loose objects in and around the WWTF Buildings and Grounds prior to the storm
- G. Secure all Electrical Panels.
- H. Check and test Flashlights, Batteries, etc.
- I. Top off all vehicles with fuel.
- J. All personnel informed when to respond pre/during/post event
- K. Make sure Reject Pond is empty
- L. Make sure Dumpsters for Headworks are empty
- M. Make sure Rain Gear, Boots, etc. are in stock for ALL Personnel
- N. Turn Bar Screens on manually during the event
- O. Update the On-Line FDEP Storm Tracker

#### Post Event

- A. Maintaining plant during and post event
- B. Coordinate Lift Station pumping with the Utilities Director
- C. Update FDEP Stormtracker with updates to the Utilities Director

- D. Possible ordering of Portable Johns and oversee setup
- E. Return Bar Screens to automatic mode
- F. Update the On-Line FDEP Storm Tracker

#### 4. Customer Service/Administration Building

#### Pre- Event

- A. Shutters in place prior to storm
- B. Secure ADMIN Building prior to the storm
- C. Check Backup Generator and top off fuel.
- D. Secure Computers/PC/TV and Security Monitors
  - Cover Monitors and Sensitive Equipment with Plastic
- E. Run and secure Backup Tapes in two locations
- F. Charge Employees Cell Phones and Radios
  - Make sure Vehicle Charges or Inverters are working.
- G. Ensure Batteries are in stock.
- H. Secure Customer Payments are in water-proof containers.
- I. Top off all vehicles.
- J. Inform office personnel when to respond post event.

#### Post Event

- A. Contact essential personnel to report for duty.
- B. Inspect Administration Building for damages:
  - Phones (Windstream & Bestcom)
  - Internet (Comcast and Windstream)
  - Alarm System (Guardian Hawk Security)
  - Server (I.T. Consultant/CNS)
  - Billing software (Tyler Technologies)
  - Hardware
- C. Records Management keep receipts and documentation during event.

#### **MEMORANDUM**

To: City of Port St Lucie Emergency Management

From: William K Hayden (District Manager)

Date: June 7,2022

Re: Hurricane Procedure for Utilities Department

St. Lucie West Services District Utilities Department has five(5) on-site generated power systems with ten days of fuel capacity. One(1) located for the ADMIN BLDG, ne(1) located for the OPS BLDG, one(1) for the WWTF and two(2) for the WTP. There is enough power capacity to run all phases of the Drinking Water and Wastewater Treatment Plant Operations. The Department has three (3) portable generators and two (2) diesel portable bypass pump for powering/ pumping lift stations on the property.

In the event of a hurricane the Utilities Site is a Designated Staging Point for FP&L.

In the event of a small storm, the site will be cleaned of potential projectiles and certain Lift Stations will be pumped down in case of flooding or power loss.

Sites will be set up to provide Drinking Water after the storm has passed and the property will have water service restored as problem areas are found and repaired.

We feel this action will best maintain the Integrity of the System by limiting the ability of storm related breaks to deplete and contaminate the Drinking Water Storage Supply. We also believe this action will limit the possibility of overflowing sewage from Lift Stations during a loss of power.

All Utility Personnel have cell phones, Supervisors have lap top computers to monitor the SCADA system at the Lift Stations, Water Plant, Wastewater Plant and the Remote Storm Water Gates to better facilitate communications in an emergency.

Re: Emergency Response Plan

St. Lucie West Service District, PWSID: EL4565031 (include FL with the 7-digit PWSID)

Dear Ms. Pawlukiewicz:

I am pleased to certify to the Administrator of the U.S. Environmental Protection Agency that the subject water system has completed an emergency response plan that complies with Section 1433(b) of the Safe Drinking Water Act as amended by the Public Health Security and Bioterrorism Preparedness and Response Act of 2002 (Public Law 107-188, Title IV - Drinking Water Security and Safety).

Should you need further information please contact William K Hayden (District Manager) St. Lucie West Services District at (772) 340-0220.

Sincerely,

William K Hayden District Manager

Emergency Response Planning Guide for Public Drinking Water Systems

# Section 1

# Emergency Response Mission and Goals REQUIRED by Ch. 62-555.350(15) FAC.

BA: : 1 1 1 C				
Mission statement for	In an emergency, the mission of the St. Lucie West Services			
emergency response	District is to protect the health of our customers and our			
	community by being prepared to respond immediately to a variety			
	, , , , , , , , , , , , , , , , , , , ,			
	of events that may result in contamination of the water or			
	disruption of water supply.			
Goal 1	Be able to quickly identify an emergency and initiate timely and			
	effective response actions.			
Goal 2	Be able to quickly notify local, state, and federal agencies to assist			
	in the response.			
Goal 3	Protect public health by being able to quickly determine if the			
	water is not safe to drink or use and being able to rapidly notify			
	customers effectively of the situation and advise them of			
	appropriate protective action.			
Goal 4	To be able to quickly respond to and repair damage to minimize or			
	prevent system down time.			
Goal 5	Return the system to normal operation.			

# **Section 2. System Information**

(Including Stand-By Power & Recommended Fuel/Chemical Supplies). REQUIRED by Ch. 62-555.350(15) FAC.

#### 1. Basic System Information

System identification number (PWS ID)	4565031			
System name and	St. Lucie West Services District			
address	450 SW Utility Drive			
	Port St. Lucie, Florida 34986			
Basic description and	St. Lucie West Services District			
location of system facilities	Port St. Lucie, Florida 34986			
	St. Lucie West Services District has three (3) 1.8 MGD reverse osmosis water treatment trains. The raw water is supplied to the treatment trains (plant) from three (3) Floridan production wells. The finished water is chlorinated, and fluoride is added to the water in the clear well system. The finished water is then pumped into two (2) 1.5-million-gallon storage tanks and is pumped into the distribution system by high services pumps for use by our customers.			
Population Served:	14,878 Residents	7084 connections		
System owner	St. Lucie West Services District			
Management Authority	St. Lucie West Board of Directors/D	District Manager		
Name, title, and phone	William K Hayden, District	Office: (772) 323-2785		
numbers of person responsible for	Manager/ Public Works Director	Cell: (772) 216-2041

#### 2. Location of Pertinent Information

Item	Location
Distribution System Map	Located in the Underground Utilities Superintendents
	Office
O&M Manual(s)	One (1) set in the WTP Control Room, One (1) set
	located in the Chief WTP Operator's Office.
Start- Up/Shut-Down Procedures	Located in the WTP Control Room.

#### 3. Existing Source Information

Well ID	Location	Well Depth	Well Yield
Well 1	450 SW Utility Drive, Port St. Lucie, FL	1321'	2000 GPM
Well 2	450 SW Utility Drive, Port St. Lucie, FL	1657'	2000 GPM
Well 3	450 SW Utility Drive, Port St. Lucie, FL	1896'	2000 GPM

# A. Well Pump Information: Raw Water Supply Wells installed in 2005 for membrane softening system.

Well ID	Pump Type	Manufacturer	H.P.	Capacity (GPM)	Phase, Voltage
Well 1	Floridan	Vertical Turbine	60	2000 GPM	440 V, 3 PH
Well 2	Floridan	Vertical Turbine	60	2000 GPM	440 V, 3 PH
Well 3	Floridan	Vertical Turbine	60	2000 GPM	440 V, 3 PH

#### B. Hi-Service Pump Information

Pump ID	Pump	Manufacturer	H.P.	Capacity	Phase, Voltage
	Type			(gpm)	
Pump 1	Centrifugal	Peerless	50	700 GPM	440 V, 3 PH
Pump 2	Centrifugal	Peerless	100	1400 GPM	440 V, 3 PH
Pump 3	Centrifugal	Peerless	150	3000 GPM	440 V, 3 PH
Pump 4	Centrifugal	Peerless	150	3000 GPM	440 V, 3 PH
Pump 5	Centrifugal	Aurora	100	1400 GPM	440 V, 3 PH
Pump 6	Centrifugal	Aurora	100	1400 GPM	440 V, 3 PH
Pump 7	Centrifugal	Aurora	50	700 GPM	440 V, 3 PH

#### C. Interconnections

St. Lucie West Services District has an 8-inch connection with the City of Port St. Lucie water system located at the intersection of California Blvd. and Torino Parkway. It is located on the east side of California Blvd. inside of St. Lucie West property zone and has above ground isolation/backflow preventer valve assembly. All above ground piping is 8" ductile iron pipe. Gate valves and backflow prevention devices have been installed. The connection is metered, in accordance with the inter-local agreement. The City of Port St. Lucie can supply St. Lucie West Services District with potable water up to 0.25 MGD.

#### 4. Treatment Information

#### A. Disinfection

Chemical(s) Used:	Sodium Hypochlorite
Type of Chemical Feed:	Pump
Location of Disinfection System:	Water Treatment Facility
Location of Chemical Storage:	Northeast corner of the water treatment plant facility.

#### B. Other Treatment

Other Treatment Methods(s)	Reverse Osmosis (Membrane Softening)		
Chemical(s) Used:	Sulfuric Acid, Anti-Scalent, Caustic Soda, Calcite,		
	Fluoride, Ortho-Poly Phosphate		
Type of Chemical Feed:	Positive Displacement Pumps		
Treatment Chemicals and Storage:	98% Sulfuric Acid, 5,000-gallon storage/750-gallor day tank. 50% Sodium Hydroxide, 4500-gallon storage/750 gallon day tank Pretreatment Anti-Scalent, 750-gallon day tank (blend). Hydrofluorosilic Acid 23%, 150-gallon day tank		
Laboratory Chemicals and Storage:	Lab Reagents are stored on site at the WTP. All reagents are in the WTP Laboratory.		

#### 5. Finished Water Storage

Name of Storage Unit	Location	Capacity (gallons)	Overflow Elevation (NGVD)
Above Ground Storage Unit #1	Water Treatment Plant	1,500,000	28 ft.
Above Ground Storage Unit #2	Water Treatment Plant	1,500,000	28 ft.

## 6. System Demand

Average Daily Demand:	1.891	MGD
Maximum Daily Demand:	2.044	MGD
System Capacity:	3.6	MGD
Peak Demand	198,000	GPH

#### 7. Power

Primary Power:	Florida Power & Light		
Backup Power:	<ol> <li>1. 1563 KVA Caterpillar generator located at the water treatment plant.</li> <li>2. 300KVA Cummins generator located at the water treatment plant.</li> <li>3. 70 KVA Cummins Portable Generators 3 used for lift stations and remote production wells.</li> <li>4. 1563 KVA Cummins generator located at the wastewater treatment plant.</li> <li>5. 26KVA Generac generator located at the OPS BLDG.</li> <li>6. 70KVA Generac generator located at the ADMIN BLDG.</li> </ol>		
Recommended On-Site Fuel Storage:	At the Water Treatment Plant: 10,800 gallons. At the Wastewater Treatment Plant: 7,850 gallons. At the Operations (OPS) Building: 500 gallons.		
Contract Required Fuel in Reserve with Supplier:	Prior to an emergency, the utility departments call in reserve orders for fuel. The Utility departments request 10,800-gallon reserves to be stored on and off site of the utility plant.		

# Section 3.

#### **COMMUNICATION CHARTS**

## REQUIRED by Ch. 62-555.350(15) FAC.

Chain of command - lines of authority

Name and Title	Responsibilities during an emergency	Contact numbers	
William K Hayden District Manager	Responsible for overall management and decision making. Oversees all Utilities and Public Works Personnel and Activities.	Office: (772)323-2785 Cell: (772) 985-8265	
Joshua Miller Utilities Director	The Utilities Director is the lead for managing the emergency, coordinating with support agencies, and providing information to regulatory agencies, the public and news media. All communications to external parties are to be approved by the Utilities Director.	Office: (772) 340-0220 Cell: (772) 205-5744	
TJ Bayer Assistant Utilities Director	In the absence of the UT Director is Responsible for overall management and decision making. The Assistant Utilities Director will assist in managing the emergency, coordinating with support agencies, and providing information to regulatory agencies.	Office: (772) 340-0220 Cell: (772) 486-4843	
Rick Riniolo Chief Water Treatment Plant Operator	In charge of running water treatment plant, performing inspections, maintenance and sampling, and relaying critical information, assessing facilities, and providing recommendations to the Utilities Director.	Office: (772) 323-2786 Cell: (772) 260-2182	
WD Cannon Chief Wastewater Treatment Plant Operator	In charge of running wastewater treatment plant, performing inspections, maintenance and sampling and relaying critical information, assessing facilities, and providing recommendations to the Utilities Director.	Office: (772) 323-2787 Cell: (772) 475-0376	
Maddie Maldonado Director of Office Administration	Responsible for administrative functions in the office including receiving phone calls and keeping a log of events. This person will provide a standard pre-scripted message to those who call with general questions. Additional information will be released through the Utilities Director.	Office: (772) 323-2784 Cell: (772) 370-2397	
Field Service's Technicians	Delivers door hangers and assists water system operator.	Office: (772) 340-0220 Cell: (772) 201-1844

#### Section 5.

#### **Written Agreements**

#### REQUIRED by Ch. 62-555.350(15) FAC

St. Lucie West Services District has one (1) 8-inch connection with the City of Port St. Lucie water system located at the intersection of California Blvd and Torino Parkway. It is located on the east side of California Blvd in the St. Lucie West property zone and has above ground isolation/backflow preventer valve assemblies. All above ground piping is 8" ductile iron pipe. Gate valves and back flow prevention devises have been installed and one (1) 12-inch connection with the City of Port St. Lucie which is located on the corner of Cashmere Blvd and Juliet Blvd. It is located on the east side of Juliet Blvd in the Port St. Lucie property zone and has above ground isolation/backflow preventer valve assemblies. All above ground piping is 12" ductile iron pipe. Gate valves and back flow prevention devises have been installed. The City of Port St. Lucie can supply St. Lucie West Services District with potable water up to (0.25 MGD.) Emergency Response Planning Guide for Public Drinking Water Systems

#### Section 6.

Response Actions for Specific Events REQUIRED by Ch. 62-555.350(15) FAC,

Vandalism or Sabotage (Terrorism) response procedures:

- 1. Utility staff first aware of incident:
  - a) Calls 9-1-1/Local Law Enforcement.
  - b) Calls Water System Manager (WSM).
- 2. The Plant Assistant Utilities Director determines severity of incident, and calls:
  - a) District Manager/Utilities Director, who also informs the elected Board Members, and if necessary, calls for an Emergency District Meeting.
  - b) Plant operations departments notify the State Warning Point.
- 3. The Plant Assistant Utilities Director and Maintenance Supervisor determines level of emergency and need to contact others:

If level I: The District Supervisor instructs plant operations department to handle as needed.

If level II or higher Asst. Utilities Director/Maintenance Supervisor calls:

- a) County Emergency Management Director.
- b) County Health Department.
- c) Others as needed.
- 4. The Plant Asst. Utilities Director/Maintenance Supervisor assesses damage and directs repairs as needed:
  - a) Isolate components (if necessary)
  - b) Minimize damage
  - c) Repair facilities
- 5. Upon completion of repairs, the plant operations departments return systems to normal:
  - a) Reports findings to the District Board of Supervisors and others as needed.
  - b) Updates ERP as needed.

#### Cyber Incident response procedures:

- 1. Disconnect compromised computers from the network to isolate breached components and prevent further damage. **Do not turn off or reboot systems**-this preserves evidence and allows for an assessment to be performed.
- Notify Supervisor who will notify (CNS) if Admin Network is compromised or Brian Callahan (ISI) if SCADA Network is compromised.
   See Contact List.
- Supervisor shall contact Chief Water Plant Operator and Chief Wastewater Plant
  Operator to assess any damage to the utility systems and equipment; and
  identify possible resulting disruptions to Utility Operations.
- 4. Execute the Emergency Response Plan, including notification of utility personnel, actions to restore operations and public notification if required.
- 5. Report the cyber incident as required to law enforcement and regulatory agencies. See Contact List.
- Document key information on the incident, including any suspicious calls, emails, or
   Messages before or during incident, damage to utility systems, and steps taken in Response to the incident (including dates and times).
- 7. Submit an incident report through WaterISAC (866-H2O-ISAC) or CISA <a href="https://www.cisa.gov/reporting-cyber-incidents">https://www.cisa.gov/reporting-cyber-incidents</a>
- 8. Develop a Lessons Learned Document and/or an After-Action Report to document Utility response activities, successes, and areas for improvement.
- Create an Improvement Plan based on you AAR and use the IP to update your Vulnerability Assessment, ERP and Contingency Plans.

#### **Drought response procedures:**

- St. Lucie West Services Districts coordinates with The District Board of Supervisors and South Florida Water Management District (SFWMD) regarding drought conditions.
- 2. If necessary, the Plant Utilities Director will meet with the District Board of Supervisors regarding additional (more stringent than required by SFWMD) water restrictions.
- 3. The Plant Utilities Director directs the plant operations departments to implement additional water use restrictions, if necessary.
- St. Lucie West Services District activates Customer Notification Plan.
- 5. The Board of Supervisors determines there is no further need for additional restrictions.
- 6. St. Lucie West Services District returns system to normal by activating Customer Notification Plan.
- 7. Plant operations departments report system status as needed.
- 8. St. Lucie West Services District updates ERP as needed.

#### Hurricane response procedures:

r	1 .	
Pre-Hurricane	1.	St. Lucie West Services District coordinates with the Board of
(36 to 48 hrs		Supervisors and County Emergency Management regarding
prior to arrival)		response to hurricane.
,	2.	Plant operations department checks operation of auxiliary and
		standby equipment.
	3.	• • •
	٥.	Plant operations department orders fuel to provide for a ten
		(10) day period.
	4.	Plant operations department checks and replenishes inventory
		of spare parts and supplies; rain suits, flashlights, batteries,
		portable radios, hard hats, rubber boots, gloves, etc
	5.	Plant operations department ensures ten (10) day supply of
		chemicals is available.
Hurricane	1.	The St. Lucie County Emergency Operations Center (EOC)
	١.	
Watch (24 to		declares Level of Emergency.
36 hrs prior to	2.	District Manager instructs the Plant Utilities & Asst.
arrival)		Director/Maintenance Supervisor to coordinate with
		Emergency Operations Center where Incident Command
		System is established.
	3.	Plant Utilities & Asst. Director/Maintenance Supervisor/Plant

	operations personnel cancel personal leave.
	4. Plant Assistant Utilities Director/Maintenance Supervisor
	issues work assignments and reporting protocol.
	5. Plant Asst. Utilities Director/Maintenance Supervisor
	· ·
	authorizes employees to secure their personal property and
	arrange for safety of family members.
	6. Operations departments top-off fuel in vehicles, stand-by and
	portable equipment.
	7. St. Lucie West Services District stops all construction in utility
	service area and advise contractors to secure their
	equipment/material.
Hurricane	1. Essential personnel report to duty at designated location with
Warning (24	protective gear, work clothing and personal gear for a four (4)
hrs or less prior	day period.
to arrival)	2. WTPO fills all water storage facilities to capacity.
to arrivar)	, ,
	4. Employee(s) follow evacuation protocol (directed by
	Emergency Management)
	a. If power service is intermittent then transfer
	electrical power supply to the generator at the treatment
	plant(s) and wells.
	· · · · · · · · · · · · · · · · · · ·
	b. Store vehicles and equipment in designated area.
	c. Enact shutdown and evacuate to location as
	directed by Incident Commander.
Recovery	Initiate upon receiving "All Clear" from Incident Commander
Procedures	1. Utilities Director/Maintenance Supervisor surveys damage and
	submit Damage Assessment Report to the District Supervisor.
	2. St. Lucie West Services District coordinates with County
	· · · · · · · · · · · · · · · · · · ·
	Emergency Management Dept and activates Customer
	Notification Plan, if necessary.
	3. Plant operations departments notify DEP of any limitations in
	ability to supply potable water.
	4. Plant Asst. Utilities Director and staff make all necessary
	repairs and take water samples as needed.
	· ·
	5. Plant operations department's keeps detailed records of labor,
	material, rental and repair costs for FEMA reimbursement.
	6. St. Lucie West Services District obtains DEP approval to
	return to normal operation, if necessary.
	7. Plant operations departments return system to normal
	· · · · · · · · · · · · · · · · · · ·
	operation.
	8. Utilities Director activates Customer Re-Notification Plan, if
	necessary.
	9. Plant operations departments' reports water system
	information as required.
	10. St. Lucie West Services District updates ERP as needed.
	10. Ot. Edolo 11051 Oct 11003 District appeales Etti as riceded.
	f 1

#### Structure Fire response procedures:

- 1. Utility staff discovering fire:
  - a) Orders evacuation of the building.
  - b) Calls 9-1-1 to notify Fire Department and local Law Enforcement.
  - c) Calls the Utilities Director/Maintenance Supervisor.
- 2. Utilities Director determines severity of incident, and calls:
  - District Board of Supervisors if necessary, calls for emergency meeting of Board of Supervisors/Plant Utilities Director/Main Supervisor.
  - b) State Warning Point
- 3. The District Supervisor determines level of emergency and need to contact others:

If Level I: District Supervisor instructs Plant Utilities Director/Maintenance Supervisor to handle as needed.

If level II or higher Plant Utilities Director/Maintenance Supervisor calls:

- a) County Emergency Management Director.
- b) County Health Department.
- c) Others as needed.
- 4. Plant Asst. Utilities Director/Maintenance Supervisor directs staff to support Fire Department and other emergency staff, if needed.
- 5. Plant Asst. Utilities Director/Maintenance Supervisor and staff assess damage when fire extinguished.
- 6. Plant Asst. Utilities Director/Maintenance Supervisor and staff repair facilities as needed.
- 7. Plant Asst. Utilities Director reports water system status, as required.
- 8. Plant operations departments update ERP, as needed.

#### Section 7.

#### **Alternative Water Sources**

#### REQUIRED by Ch. 62-555.350(15) FAC

Interconnection with adjacent water system

City of Port St Lucie St. Lucie West Services District has one (1) 8-inc	Water systems within one-	Feasibility of connecting
system located at the intersection of California Blv and Torino Parkway It is located on the east side of California Blvd in the St. Lucie West property zon and has above ground isolation/backflow prevented valve assemblies. All above ground piping is a ductile iron pipe. Gate valves and back flot prevention devises have been installed and one (12-inch connection with the City of Port St. Lucie which is located on the corner of Cashmere Blvd and Crosstown Parkway. It is located on the east side of Crosstown Parkway in the Port St. Lucie proper zone and has above ground isolation/backflot preventer valve assemblies. All above ground piping is 12" ductile iron pipe. Gate valves and back not prevention devises have been installed. The City of Port St. Port Port Port St. Port Port Port Port Port Port Port Port	quarter mile of our system	St. Lucie West Services District has one (1) 8-inch connection with the City of Port St. Lucie water system located at the intersection of California Blvd and Torino Parkway It is located on the east side of California Blvd in the St. Lucie West property zone and has above ground isolation/backflow preventer valve assemblies. All above ground piping is 8" ductile iron pipe. Gate valves and back flow prevention devises have been installed and one (1) 12-inch connection with the City of Port St. Lucie which is located on the corner of Cashmere Blvd and Crosstown Parkway. It is located on the east side of Crosstown Parkway in the Port St. Lucie property zone and has above ground isolation/backflow preventer valve assemblies. All above ground piping is 12" ductile iron pipe. Gate valves and back now prevention devises have been installed. The City of Port St. Lucie can supply St. Lucie West Services

#### Section 8.

#### Water Use Restrictions

Water Use Restrictions	Actions
Restrict outside water usage including watering lawns, washing	Upon making the decision that restrictions are needed:
cars, etc.	<ul><li>Draft door hanger with restriction measures.</li><li>Post on customer doors.</li></ul>
Request restriction of inside usage.	<ul> <li>Contact local cable channel SLW 63 news (772-340-3500) to announce restriction measures.</li> <li>Monitor system usage and spot check meter usage if time is available.</li> <li>Emergency Response Planning Guide for Public Drinking Water System</li> <li>Continue message if measures are warranted.</li> </ul>

#### Section 9.

### Returning to Normal Operation REQUIRED by Ch. 62-555.350(15) FAC

Returning to normal operations (these actions would be included in the disasterspecific plan for recovering from a contamination event).

Action	Description and actions
Inspect, flush, and disinfect the system,	Asst. Utilities Director/Chief Water Plant Operator and support staff inspect all system facilities, ensure all water quality tests have been done and the system has been flushed and disinfected if necessary. WTPO makes a report to the local Department of Environmental Protection, who makes decision on current condition of system.
Verification of water quality	Asst. Utilities Director/Chief Water Plant Operator verifies water quality sampling results.
Coordinate with DEP/DOH	Asst. Utilities Director/Chief Water Plant Operator coordinates with DEP/DOH on system condition and water quality results.
Notify customers	Utilities Director/Chief Water Plant Operator meets with WTPO and communications lead to write notice to customers. Asst. Utilities Director/Chief Water Plant Operator directs communications lead to distribute public notice.

# Section 10. 353s Preparedness and Response Actions for Specific Events REQUIRED by Ch. 62-555.350(15) FAC.

#### <u>Training</u>

Identify staff position training needs and expectations.

Position	Training needs and expectations				
Water System Manager	Emergency response communications, emergency				
	response planning, issuing health advisories. Incident				
	Command System roles and responsibilities.				
Water System Operator	Emergency response communications, emergency				
	response planning, suspicious activity training. Incident				
	Command System roles and responsibilities.				
Field support	Emergency response communications, suspicious activity				
	training				
Administrative Support	Emergency response communications, emergency				
	response planning,				

#### Emergency rehearsals

Event	Description	People and organizations involved	Date
Rehearsal	Conduct actual emergency drill	Water system staff	Unannounced
On-site training drills	Conduct specific drills, i.e. communications, water line breaks, sampling with a professional trainer	Water system staff and professional trainer	

#### Section 11

#### Plan Approval

REQUIRED by Ch. 62-555.350(15) FAC.

This plan is officially in effect when reviewed, approved, and signed by the following people:

Name/Title	Signature	Date
Mr. Vince D'Amico,		6/7/2022
District Board Supervisor		
Mr. William K Hayden,		6/7/2022
District Manager/ Public		
Works Director		
Mr. Joshua C Miller		6/7/2022
Utilities Director/ADM		
Mr. Thomas J Bayer		6/7/2022
Asst. Utilities Director

#### FLORIDA RURAL WATER ASSOCIATION

2970 Wellington Circle • Tallahassee, FL 32309-6885 Telephone: 850-668-2746 ~ Fax: 850-893-4581

January 18, 2019

Mr. Joshua Miller St. Lucie West Services District 450 SW Utility Drive Port St. Lucie, FL 34986

Dear Joshua,

Please find enclosed the Vulnerability Assessment report. We greatly appreciate your participation with this Pilot Study for the Florida Department of Environmental Protection (FDEP) and for the Florida Rural Water Association (FRWA).

As I mentioned, should you need any assistance with cost estimates or help with any related vulnerability corrections please don't hesitate to call at any time. We are here to help you. (This is a "live report" and we can add information or make adjustments in the report as needed in the future.). I look forward to visiting with you again in the future and please call anytime we can be of assistance.

Best Regards,

Jim McClaugherty

Vulnerability Assessment Technician

Cell Phone 936-525-9177

#### **Vulnerability Assessment**

System:	ST. LUCIE WEST SERVICES DISTRICT		
PWS:	4565031	Facility ID:	FLA013993
From:	Jim McClaugherty, DW Security/Vulnerability Assessment Specialist Florida Rural Water Association		
Date:	January 13, 2019		

#### REPORT SUMMARIZING RESULTS OF ASSESSMENT

Florida Rural Water Association is pleased to assist the Utility with an in depth vulnerability assessment. The project location is 450 SW Utility Drive, Port St. Lucie, St. Lucie County, Florida, 34986. The assessment involved the Fresh Water Utility system and the wastewater system.

**Timeline.** The timeline of this report began with a meeting held with Mr. Joshua C. Miller, Assistant Utilities Director, and Jim McClaugherty FRWA on November 19, 2018. The grant award amount budgeted for this assessment is \$1,500.00 funded by the Florida Department of Environmental Protection (FDEP).

**Benefits.** The anticipated benefits will be the strengthening of Florida's water systems against, cybersecurity, intrusion, natural disasters, terrorism, and vandalism. These evaluations are not addressing compliance but are for affording protection for water utility purposes. It is intended that generic white papers can be developed based on the Florida system observations in order to help the total water industry.

**Purpose.** The purpose of this vulnerability assessment is to help the Water System evaluate susceptibility to potential threats and identify corrective actions that can reduce or mitigate the risk of serious consequences from adversarial actions. The following are just a few examples of adversarial actions that we must observe and be prepared for: vandalism, insider sabotage, terrorist attack, climate change, and cyber security attacks. This assessment takes into account the vulnerability of the water supply, and wastewater treatment along with the transmission, treatment, and distribution systems. An effective vulnerability assessment serves as a guide to utilities by providing a prioritized plan for security upgrades, modifications of operational procedures, and/or policy changes to mitigate the risks and vulnerabilities to critical assets. This vulnerability assessment provides a framework for developing risk reduction options and associated costs. Utilities should review their vulnerability assessments periodically to account for changing threats or additions to the system to ensure that security objectives are being met.

The project schedule was fast tracked and the report was started upon receipt by FRWA on January 10th, 2018 in order for a timely report to be generated for the St. Lucie West Services District and for the Florida Department of Environmental Protection (FDEP). The review of this vulnerability assessment took place at Florida Rural Water Association offices with Sterling Carroll PE, Jim McClaugherty, Gary Williams, and Ben Lewis.

#### UTILITY'S STRENGTHS

#### Administrative Response Actions:

- 1. Background checks are performed on personnel before hiring.
- The utility has an emergency response mission statement and goals statement which helps to focus on emergency planning and response.
- 3. The utility has basic system information readily available for when needed for emergency responder, repair people and the news media.
- 4. The Utility has developed a clear and identifiable chain of command that identifies by name and title, their responsibilities during an emergency and their contact numbers. The first step in any emergency is to inform the person at the top of the list, who is responsible for managing the emergency and is making key decisions.
- The Utility has identified the possible events that may cause a water system emergency. They are arranged from highest to lowest probable risk.
- 6. Each of the events are subdivided into the level of severity. Decisions on severity should be collaborative among system personnel but are ultimately made by the person in charge of the emergency. The information for making such a decision will accumulate over time and may result in changes in the assessment of the severity. The assessment of the severity should be immediately communicated to all those dealing with the emergency.
- All staff has cell phones and radios when in the field to communicate system status, problems and needs.
- 8. The Utility has emergency notification lists.
  - Local notification call up list.
  - State notification list
  - Service/Repair notification list.
- The Utility has written notification procedures that identify who is responsible for notification of
  customers, local law enforcement, state drinking water and waste water officials, local health
  dept., procedures for issuing a health advisory, etc.
- 10. The Utility has procedures for issuing a health advisory (such as Boil water notice and other procedures) and they have identified the possible events that may cause a water system emergency such as Hurricanes or raw water changes prior to treatment.
- 11. The Utility has procedures to communicate with customers in case of an emergency such as text and e-mail alerts and they have a designated spokesperson for delivering these messages. The Utility has Local, State, and Service/Repair notification lists that the Office Manager maintains and contacts as necessary.
  - Responsible for notifying water system customers.
  - Alerting local law enforcement, state drinking water officials and local health.
  - Contacting service and repair contractors.
  - Contacting neighboring water systems.
  - Procedures for issuing a health advisory.
  - Other procedures as necessary.

- If contamination is suspected, the Utility will notify and work closely with their local FDEP representative and the local Health Department and State agencies.
- 13. The Utility has a system in place to conduct all water sampling through field checks. A contract operator takes Samples to a State Certified Lab for compliance testing. They also have a bacteriological plan that cover their distribution system. Procedures are established for the following:
  - Coliform Bacteria
  - Heterotrophic Plate Count
  - Chlorine Residual
  - Chlorine Demand
  - Nitrate/Nitrite
  - Total Organic Carbon (TOC)
  - Total Halogenated Carbon (TOX)
  - Cyanide
- 14. The communication with customers, the news media, and the general public is a critical part of the emergency response system.
- A spokesperson and alternatives have been designated for delivering messages to the news media and public.
- All possible messages have been reviewed and developed in advance. Messages are updated as the emergency develops.
- The Utility is prepared with an evaluation of each water system component to identify any deficiencies that could make them susceptible to failure during an emergency.
  - They have in place systems to protect their water source
  - Storage facilities with locks and fencing.
  - · Treatment facilities with locks cameras and fences
  - · Pump-house and pumping facilities
  - Computers and telemetry systems are set up with Pass word required and fire wall protection.

#### Response Actions:

- 18. The Utility is prepared with general steps to take in response to emergency situations with actions in preparation
  - for a power outage with backup generators,
  - · transmission or main line breaks,
  - Distribution line break
  - chlorine treatment equipment failure,
  - Microbial contamination,
  - Chemical contamination
  - Vandalism or terrorist attack
  - Reduction of water in the well
  - Drought
  - Flood
  - Hurricane
  - · Hazardous materials spill in vicinity of sources or system lines
  - Fire

- · electronic equipment failure,
- Cyber Attack.

#### Alternative Water Sources:

- The Utility does have connections with another facility and agreements are in place for emergency water delivery.
- There are other alternative sources of water where they have interlocal agreements to provide water in emergency situations.
- The utility does have a listing of alternative water suppliers with contact information for emergency support needs.

#### Drought Contingency:

- 22. The utility does have a "Drought Contingency Plan."
- 23. The utility has identified the conditions that would trigger the plan.
- 24. The plan includes specific procedures to be followed for the initiation or termination for each drought response stage including procedures for notification of the public.
- The plan includes provisions for enforcement of any mandatory water use restriction, including specification of penalties for violations.

#### **Physical Security:**

- 26. The Utility keeps all outside doors to the facilities locked and building entrances secure.
- 27. Alarms are installed and set during non-work hours.
- 28. There are alarms on all doors and windows.
- 29. All windows and doors are secured so they cannot be easily removed.
- 30. All entrances and the parking lot and grounds lighting is in working order, timers are set for proper times and are effective.
- 31. Treatment facilities are chained and locked and require a code for entry.
- 32. Delivery/shipping areas are secure.
- 33. Landscaping is controlled to prevent intruders from hiding from camera views.

#### Closed Circuit TV (CCTV):

- 34. CCTV is monitored during business hours and after business hours.
- 35. All video footage is kept for a minimum of 90 days. (state law is 30 days)
- 36. Cameras and cables are not easily accessible for intruders to disable.
- 37. Landscaping is groomed and does not allow blocking of camera views.
- Cameras cover exterior doors and ground level windows, all entrances/exits including employee
  entrances and parking areas, and all dumpsters and dock/garage/shipping areas.

#### Electronic Card Access System:

- 1. Identification is required for all personnel.
- 2. The system is managed with internal staff.
- 3. Access to the system is limited to upper management.
- 4. Manager /department head approves access to the facility.
- 5. The system is on an uninterrupted power supply (UPS) in the event of power failure.
- 6. Access is limited to only those areas where personnel are working.
- 7. The system is integrated with a burglar alarm system.
- 8. The system tracks all transactions in the system
- 9. The system is monitored on a daily basis
- 10. Access cards are disabled immediately upon termination or loss of card.

#### Manual Locks/Keys:

- 11. Commercial grade security lock cylinders are installed.
- Master keys are secured in a lock box in the office.
- When employees leave or change departments there are checks and balances in place by Management to track keys and to ensure keys are returned.
- 14. Keys are tracked by the employees.
- 15. All secure /sensitive areas are keyed with unique locks/keys.
- 16. All keys are marked "Do Not Copy".
- 17. Normal practice is that Keys are turned in when employees with keys terminate employment.

#### Information Security:

- 18. Executive Management has assigned roles and responsibilities for information security across the organization and the IT Dept. is responsible for maintaining this.
- Risk Assessments- A review process at planned intervals is implemented to ensure the continuing suitability and effectiveness of the utilities approach to managing information security.
- 20. System Security- A formal document that provides an overview of the security requirements for agency information systems and describes the security controls in place for meeting those requirements is maintained.
- Configuration change control- Changes made to information systems are controlled and documented. The changes are reviewed and approved in accordance with written policy and procedures, including a process for emergency changes.
- Security Awareness- Training is provided to all employees and contractors on an annual basis that
  addresses acceptable use and good computing practices for systems they are authorized to access.
- 23. Human resources security- policies and procedures that address purpose, scope, roles, responsibilities, and compliance to support personnel security requirements, such as access rights disciplinary process, etc. are in place.
- 24. Position Categorizations- Procedures for identifying system access needs by job function and screening criteria for individuals performing those functions are in place.
- Physical Access Control- Physical access to facilities containing information systems is controlled and individual's authorization is verified before granting access.

- 26. Secure Disposal of Equipment- Processes are in place to permanently remove any sensitive data and licensed software prior to disposal.
- 27. Disaster Recovery Planning- The DRP should be in place by the IT Department in order to support the current business continuity needs of the utility. They should have plans for the recovery of technology and communications following any major event that disrupts the normal business environment, provide for periodic updating and testing of the plan, and its documentation should include:
  - Recovery based on critical and sensitive business needs.
  - Location pf regular backups of systems and data, with documentation.
  - Regularly updated information about where copies of the plan reside, including appropriate off-site locations.
  - They should provide training for the appropriate personnel.
- 28. Information Back-up- Backup copies of information and software are completed on a routine schedule, tested regularly and stored off-site.
- Monitoring- System logging and routine procedure to audit logs, security events, system use, system
  alerts or failure etc. are implemented and log information is in place where it cannot be
  manipulated or altered.
- 30. Access Controls- Policies and procedures are in place for appropriate levels of access to computer assets. Access controls include, but are not limited to:
  - Password management
  - Wireless access restrictions
  - Secure remote access procedures and policies are in place and followed by users.
  - Mobile and portable systems and their data are protected through adequate security measure such as encryption and secure passwords.
  - The tracking of access and authorities, including periodic audits of controls and privileges is in place.
  - Networks challenge access requests and authenticate the requester prior to granting access.
- 31. User identification and authentication (user ID and password) Identifies and authenticates users.
- 32. Device identification and Authentication-Information systems/applications uniquely identify and authenticate specific devices before establishing and connection with them.
- 33. System and information integrity- Policies and procedures for system and information integrity to address roles responsibilities and compliance standards are in place.
- Malicious Code Protection- A regular patching process has been implemented to protect against malicious code. The process is automated.
- Intrusion Detection-Tools and techniques are utilized to monitor intrusion events, detect attacks and provide identification of unauthorized system use.
- 36. Security Alerts and Advisories- The appropriate internal staff members receive security alerts and advisories on a regular basis and take appropriate actions in response to them.
- Identification and Authentication- Policies and procedures for identification and authentication to address roles and responsibilities, and compliance standards are in place.
- 38. Secure System Configuration- the Security settings on systems are configured to be appropriately restrictive while still supporting operational requirements. Non-essential services are disables or removed when their use is not necessary as to eliminate unnecessary risk.
- Software and information integrity- Information systems/applications detect and protect against unauthorized changes to software and information.

- Information Input accuracy, Completeness and validity information systems check data inputs for accuracy and validity.
- 41. Flaw Remediation-Information system flaws are identified, reported and corrected.

#### Software Integrity Practices:

- 42. System and Services Acquisition-policies and procedures for system and services acquisition are in place to address roles and responsibilities, and processes for compliance checking.
- 43. Software Integrity practices- Policies and procedures associated with system and services acquisition and product acceptance are in place.
- 44. User installed software- An explicit policy governing the downloading and installation of software by users is in place.
- 45. Acquisitions- Security requirements and/or security specifications, either explicitly or by reference, are included in all information system acquisition contracts based on an assessment of risk.
- 46. Software Usage restrictions- Controls or validations measure to comply with software usage restrictions in accordance with contract agreements and copyright laws are in place.
- 47. User installed software- An explicit policy governing the downloading and installation of software by users is in place.
- 48. Outsourced information system services- controls or validation measures to ensure that third party providers of information system services employ adequate security controls in accordance with applicable laws, policies and established service level agreements are in place.
- 49. Developer Security testing- A security test and evaluation plan is in place, implemented, and documents the results. Security test results may be used in support of the security certification process for the delivered information system.

#### Personal Computer Security Practices:

- Personal computing devices include desktops, laptops, notebooks, tablets, personal device assistants (PDA) and other devices.
- 51. Device Hardening- Operating system and application level updates, patches, and hot fixes are applied as soon as they become available and are fully tested. Services on the computing devices are only enabled where there is a demonstrated business need and only after a risk assessment.
- 52. Lock-out for inactive computing devices whereas the automatic locking of the computing device after a period of inactivity is enforced in the system.
- 53. Data Storage- Data that needs additional protection is stored on pre-defined servers, rather than on computing devices for both data protection and backup /recovery reasons. Confidential, sensitive and personal information is not stored on computing devises without a careful risk assessment and adequate security measures.

#### **Network Protection Practices:**

- 54. The Network protection has communication policies in place and procedures are outlined by the IT department. These documents outline the procedures to authorize all connections to network services. Authorization is based on an evaluation of sensitive or critical business applications, classification of data stored on the system and physical location of the system.
- 55. Boundary protection- Equipment designed for public access is protected. These are segregated from the internal networks that control them. Access into internal networks by authorized staff is controlled.

- 56. Protect and Secure Network Infrastructure- Policies and procedures for technology upgrades, network equipment, such as servers, router, firewalls, switches, patches and upgrades, firewall and server configurations, and server hardening etc. are in place.
- 57. Transmission Integrity and confidentiality- Data is protected from unauthorized disclosure during transmission. Data classification is used to determine what security measures to employ, including encryption or physical measures.

#### Incident Response Practices:

- 58. Proper Incident reporting policies and procedures are in place with proper follow up of written reports. These include identification of roles and responsibilities, investigations, containment, and escalation procedures, documentation and preservation of evidence and communication protocols and lessons learned.
- 59. Incident Reporting: Proper incident reporting policies and procedures are in place. These include training employees and contractors to identify and report incidents, the reporting of incidents immediately upon discovery and preparation and submission of follow up written reports.

#### Red Flag Rules (Identity theft)

- 60. All ID theft and customer billing is handled by the Procurement and Billing department. The Utility does sufficiently guard all customers' identifying documents from those who do not have a need to know. Red Flag Rules are designed for the Procurement, Billing, and HR departments and they are responsible for implementing policies.
- 61. The system adherence as approved by the City Council/board of Directors.
- 62. They designate senior management oversight of the program.
- 63. They incorporate all existing relevant policies and procedures.
  - HIPAA Data Security
  - Fraud and abuse
- 64. They have defined and document our defined "Red Flags" and the procedures to detect and respond to them.
- 65. They ensure that they have flagged, investigated and properly reported address discrepancies to the appropriate agencies.
- 66. They have incorporated documentation which outlines the specific requirements for comprehensive educational and competency testing of all appropriate employees.
- 67. They sufficiently guard all customers identifying documents from those who do not have a need to know.
- They include the appropriate triggers and follow-up steps to notify victims about potential data breaches.
- 69. They do incorporate protocols for reviewing the program effectiveness and modifying it as necessary after initial implementation.
- 70. They do require periodic updates to reflect changes in risk areas that our program identifies related to our customers and your own exposure related to identity theft.
- 71. The Utility has taken the necessary steps as a leadership team to inspire each one of the employees to do everything they can to guard their customers identity's.
- 72. They do not include the appropriate trigger and follow up steps to notify victims about potential data breaches.
- 73. The utility has educated all of its employees and tested their competency on out red flag program policies and out detailed procedures with special attention given to:
  - Exactly what to do to determine of the customer is who he/she says they are:

- Over the phone, address & last 4 digits of SSI # and License no for payments only.
- When a flag is tripped they must come into the office with the proper ID.
- Increasing awareness on the need for secure features on laptops, desktop, and other computing devices.
- 74. The utility has established red flags that will be investigated if any of the following red flags are discovered. They may include but are not limited to:
  - Incidents of ID theft
  - Methods of ID theft that reflect ID theft risks.
  - Alerts, notifications, or other warnings received from a consumer reporting agency.
  - Presentation of suspicious documents.
  - Presentation of suspicious personal identification information.
  - The unusual use of an account.
  - Notice from customers, victim of ID theft, law enforcement.
  - Fraud or active duty alert included with a consumer report.
  - Consumer notice providing a address discrepancy.
  - Identification of photo that does not match the person.
  - Invalid SSI no.
- 75. The utility has taken the necessary steps as a leadership team to inspire each one of the employees to do everything they possible can to guard our clients identity as if it were their own.

#### Financial:

- 76. This was replied to as N/A. The Utility has not used the DEP business plan for a complete assessment of its financial condition.
- 77. The Utility has established the frequency of water/sewer system billing.
- 78. The system rates are reviewed for adequacy annually.
- 79. The utility has established resources and guidance to use for setting water user rates fees or charges.
- 80. The system does have an annual budget with a separate reserve account for equipment replacement and/or capital improvement.
- 81. The system has established the frequency of billing to a monthly billing program and system rates are reviewed.
- 82. The utility has insurance requirements for outside contractors, and they do obtain certificates of insurance from them.
- 83. The system does employ the services of a Professional Engineer
- 84. The system has an annual budget with a separate reserve account for equipment replacement or capital improvement.
- 85. Their Capital improvement plan covers 5 years.
- 86. Revenues are dedicated to repayment of all loans.
- 87. The system has a governing board of directors.
- 88. There are standard purchasing procedures that provide controls over expenditures.
- 89. The system has audited annual financial statements.

- 90. The water utility has a contingency plan/reserve/short and long term plan for a sharp decrease in population, customers, monthly income and decreased demand. Their district has set up a rate stabilization fund to offset a sudden drop in customer base.
- 91. The water utility has a contingency plan/reserve/short and long term plan for a regulatory/statutory change with immediate and significant impacts/costs. Their district has set up a rate stabilization fund to offset any unknown regulatory changes.
- 92. The water utility has a plan reserve/policy of quick action and reaction to a citizen/3<sup>rd</sup> party lawsuit or other lawsuit against the water utility. The state limits exposure and the District has liability insurance to protect it.

#### Water Systems:

- 93. The system has current and accurate data showing average and peak gpd used.
- 94. The system's capacity exceeds peak demand by more than 20%.
- 95. The system can meet peak demand without pumping at peak capacity for extended periods.
- The system evaluates system demands and plans for expansion as needed due to population increases.
- 97. The system does have emergency plan in place to meet system demands during a shortage.
- 98. The system has a comprehensive water loss program that compares amount of water produced with the total delivered through metered and unmetered service connections.
- 99. The systems unaccounted for water loss is less than 10% annually.
- 100. The system has redundancy for all critical treatment components.
- 101. Identified as N/A: The ground water systems have a minimum of two sources of groundwater.
- 102. The system does have an updated operations and maintenance manual that includes evaluations of security systems.
- Identified as N/A: Source water protection area provides a minimum 500 foot radius around each drinking water well.
- 104. Monitoring/Observation test wells are properly secured to prevent tampering.
- 105. The system has implemented a backflow prevention program.
- 106. Maps and records and other information of the system is stored in a secure location.
- 107. The system monitors raw water quality to determine appropriate treatment.
- 108. The system does have an interconnection and agreement with other systems in place and those connections are secured and checked.
- 109. The System has a preventative maintenance program in place and routinely evaluates system performance.
- 110. The system does have a backup power source in case of loss of main power and there is a service contract in place for the generators. The system has SCADA and is protected in a secure location and is password protected. The SCADA can be bypassed by the employees and run manually if required.

- 111. The system does have an interconnection and agreement in place with other systems.
- 112. The system does have a backup power source that is tested routinely.
- 113. All systems critical components and equipment is above sea level and spare parts inventory is adequate and located in a secure location.
- 114. The system has a procedure in place to respond immediately to a customer complaint about a new taste, odor, color, or other physical change in the water.
- 115. The system has SCADA and it is protected in a secure location and is password protected, along with other system controls.
- 116. Employees can bypass the SCADA system if needed and can run the system manually.
- 117. Ground water systems routinely monitor drawdown on a daily basis.
- 118. The system monitors raw water quality to determine appropriate treatment.
- 119. All access to critical components of the water system are restricted to authorized personnel only.
- 120. All facilities are fenced and locked including well houses, pits, and gates.
- 121. The doors, windows and other points of entry such as tanks and roof hatches and vents are kept closed and locked.
- 122. The system has a backup power source in case of loss of main power and this source is tested routinely.
- 123. They do have an alarm system that will detect unauthorized entry.
- 124. There is a spare parts inventory and it is adequate and located in a secure location.
- 125. All deliveries of chemicals and other supplies are made in the presence of water system personnel.
- 126. They have discussed with the suppliers procedures to ensure the security of their products.
- 127. They do have uniforms and the vehicles are marked with the systems name prominently displayed.
- 128. Chemicals are properly stored, particularly those that are potentially hazardous or flammable.

#### **Product Liability:**

- 129. Products are evaluated to verify that they meet regulatory requirements.
- 130. There is a process in place to identify and evaluate the hazards of each product.
- 131. There is a system in place to assure that field personnel are well qualified and trained.
- 132. Environmental impact and disposal is considered in evaluating product risk.
- Package labels and other warnings address hidden hazards of misuse.
- 134. There is a system in place that there are insurance certificates are obtained for all third party contractors and service companies.
- 135. The Utility does have effective procedures for handling customer complaints and product incidents.
- 136. There is a safety director to address product safety or liability.

- 137. There is a functioning committee or group to address product safety and liability.
- 138. The utility does have a process to obtain certificates of product liability insurance from suppliers and quality control procedures are not documented.
- 139. The utility does have an effective quality assurance system with a QA/QC officer to monitor operations.
- 140. The utility does have a 24 hour toll free phone service for product questions and emergencies.
- 141. The Utility does have a process in place to analyze incident, product misuse, liability claims and claim data to pinpoint trends, potential problems, or root cause analyses.
- 142. Products are marked to ensure traceability to the date and place of manufacture.
- 143. There is a procedure in place for an efficient product recall.
- 144. This Utility does have a quality assurance control procedures that are documented and reviewed. The labels on the deliverables are acceptable to meet applicable industry and government safety standards.
- 145. There is currently a process to verify that instruction manuals and package labels are useful, understandable and available to the user.
- 146. Product Safety and liability is an influencing factor when selecting packaging of products.

#### Vehicle Physical Security:

- 147. There is a locked perimeter fence around the perimeter of the building and no other openings such as culverts, sewer manholes, or utility access into the area.
- 148. All entrance points in the perimeter barriers are secured.
- 149. There are numerous alternative sources of power available in the event of power failure.

#### Personnel Identification and Control:

- 150. This utility does have an ID badge control to identify personnel.
- 151. There are written procedures for the method of identification at time of entering and leaving controlled areas. This is applied to employees and visitors.
- 152. Badges are recorded and controlled by rigid accountability procedures.
- 153. Lost badges are not replaced with one bearing a different number of one that is otherwise not identical to the one that was lost.
- 154. The Utility does not employ guards to check control points and the movement of personnel

#### **Public Access:**

- 155. Consumer Confidence Report is available to the public.
- 156. Public access to all customer records is restricted. (red flag rule)
- 157. Public access to utility records is available to the public.
- 158. There are procedures established for responding to a public records request.

#### Risk of Exposure to Pandemic Influenza:

- 159. Policies are in place that encourage ill employees to stay at home without fear of reprisal.
- 160. There is an emergency communications plan to maintain a forum for answering employees concerns. This is handled through the ADP Payroll program.
- 161. Customers and the public is provided with tissues and trash receptacles, and with a place to wash or disinfect their hands.
- 162. Employees are encouraged to keep work surfaces telephones, computer equipment and other frequently touched surfaces and office equipment clean.
- 163. Employees are discouraged to use other employee's phones, desks, offices or other work tools and equipment.
- 164. Healthy nutrition, exercise, and lifestyle choices, and smoking cessation are promoted.

#### Personal Protective Equipment (PPE):

- 165. The Utility has PPE available for their personnel and required to wear based on the task to be performed.
- 166. Employees are properly trained on the use of their PPE.
- 167. The PPE is properly fitted to each employee and is periodically refitted. (e.g. respirators)
- 168. PPE is conscientiously and properly worn.
- 169. PPE is regularly maintained and replaces as necessary.
- 170. The PPE is properly removed and disposed of to avoid contamination of self or others or the environment.

#### **Employee and System Protection:**

- 171. There is a plan to ensure that licensed operators are available to run the utility if they incur a shortage of personnel.
- 172. The utility does have legal and insurance counsel regarding any liability or injury or damage to the property at the office or the job site.
- 173. Striking workers have not been a problem at this facility as it does not consist of Union labor. It is understood that State employees cannot legally strike.
- 174. There is a plan in place to ensure that licensed operators are available to run the utility if required
- 175. There is a plan to secure and account for all trucks, equipment, tools automobiles, materials, etc. on the job sites.
- 176. There is a plan to hire outside assistance or to hire contractors in the event of an emergency.
- 177. There is a plan to ensure that licensed operators are available to run the utility.

#### Loss of an Employee:

- 178. The Utility does have a plan for when an employee leaves the facility. They monitor reactions of departing employees to determine the person's attitude and do what may be necessary to protect the utility.
- 179. There is a plan of taking over duties from a departing employee.

180. There is a re-hiring plan in place and that is handled by HR, to advertise the position, or move up a person within the Utility.

#### Climate Change

#### Water Demand:

- 181. There are no major industries that require cooling/process water in our planning region.
- 182. Water use never varies by more than 50% seasonally in the parts of our region.
- 183. Replied N/A. Crops are not grown in the region and are climate sensitive. Shifts in daily heat patterns such as how long heat lingers before night time cooling could be prohibitive for some crops.
- 184. Replied N/A. Groundwater supplies in the region do not lack resiliency after drought events.
- 185. Replied N/A. Instream flow requirements in our region have been currently sufficient to support aquatic life through all hot summer months in the past.
- 186. Water use curtailment measurements are effective in our region.

#### Water Supply:

- 187. This region does not rely on coastal aquifers so salt intrusion has not been a problem in the past.
- 188. This region may not have difficulty in storing carryover supply surpluses from year to year.
- 189. This region has faced a drought condition in the past during which it failed to meet local water demands. 2/2005- The water treatment plant used groundwater sources which were insufficient for demand growth. They have since expanded the facility to the Floridan Aquifer.
- 190. This region does not have invasive species management issues at our facilities.

#### Water Quality:

- 191. Increased wildfires are not a threat to our water quality in our region.
- 192. This region does not rely on surface water bodies with current or recurrent water quality issues related to eutrophication, such as low dissolved oxygen or algal blooms. Changes in streamflow may alter pollutant concentrations in water bodies but this is not indicative or considered in our treatment process.
- 193. There are no seasonal low flows decreasing for some waterbodies in our region.
- 194. There are no beneficial uses designated for some water bodies in the region that cannot always be met due to water quality issues.
- 195. There is no regional water quality shifts during rain events which may impact treatment facility operations.

Sea Level Rise: (All questions were answered with N/A in this category.)

- 196. Coastal erosion is not a factor in our region.
- 197. We have no levees or breakwater in this region.

- 198. There is no significant coastal infrastructure such as residence recreation, water and tourism at less than six feet above mean sea level in the region.
- 199. There are no climate sensitive low lying coastal habitats in the region.
- 200. There is no noticeable land subsidence in the region.
- 201. There are no tidal gauges in the region to show an increase over the past several decades.

#### Flooding:

- 202. Critical infrastructure in our region does not lie within the 200 year floodplain.
- 203. Aging critical flood protection infrastructure does not exist in the region.
- 204. Some flood control facilities (such as impoundment structures) have proven sufficient in the past.
- 205. Wildfires have been a concern in the past to this region.

#### Ecosystem and habitat vulnerability:

- 206. The region doesn't include inland or coastal aquatic habitats that are vulnerable to erosion and sedimentation issues.
- 207. The region doesn't include estuarine habitats which rely on seasonal freshwater flow patterns.
- 208. Climate-sensitive fauna or flora populations do not live in this region.
- 209. This region does have some endangered or threatened species that exist in the region and some changes in species distribution is being observed in parts of the region.
- 210. The region does not rely on aquatic or water-dependent habitats for recreation or other economic activities.
- 211. There are no rivers in the region with qualified environmental flow requirements or known water quality/quantity stressors to aquatic life.
- 212. Estuaries, coastal dunes, wetlands, marshes, or exposed beaches do exist in this region.
- 213. This region does not include one or more of the habitats described in the endangered species coalitions top 10 habitats described in the endangered species coalitions top 10 habitats vulnerable to climate change.
- 214. There are no areas of fragmented estuarine, aquatic, or wetland wildlife habitat within this region.

#### Hydropower:

- 215. Hydropower is not a source of electricity in the region.
- 216. This is replied to as N/A. It is not known if there is energy needs in the future that will include hydropower generation facilities.

## UTILITY'S AREAS OF CONCERN AND RECOMMENDED IMPROVEMENTS FOR THESE VULNERABILITIES

#### Response Actions:

- The Utility is prepared with general steps to take in response to emergency situations with actions in preparation with the exception of one item:
- Explosion
- However, the first reaction would be to call the fire department and police departments.

#### Alternative Water use:

- 2. The utility does not have agreements in place with companies to provide bottled water.
- · They have sufficient agreements with other utilities and interconnects in the area

#### **Drought Contingency:**

- The utility has not identified actions to be implemented during each stage of the plan when predetermined triggering criteria are met.
- 4. The plan does not include procedures for approving and denying variances to the plan.
- 5. The plan does not include measures to inform and educate the public.
- This would likely be handled through the media and news releases should they encounter such an occurrence.

#### **Physical Security:**

- 6. Dumpsters are not secured with padlocks.
- Are the dumpsters secured in a fenced area with-in the facility?
  - a. Most dumpsters are stored within our perimeter fence away from public.
  - b. The dumpsters that are within the public area, are fenced as well.

#### **Electronic Card Access System:**

- 7. Identification badges are not required to be displayed or worn.
- Should employees work outside the fence and be in contact with customers this would be more reassuring for them to be seen wearing an identification badge.
- 9. Access cards are not color coded to identify employees, visitors and vendors.

#### Information Security:

 Vulnerability Scanning- a regular occurring process using specialized scanning tools and techniques that evaluates the configuration, patches and services for known vulnerabilities is recommended.

#### Red Flag Rules:

- Upper management does not require and receive a written annual report on compliance with the program and any incidents. The report should include the following.
  - The effectiveness of the policies and procedures in addressing the risk of identity theft.
  - Significant incidents that have occurred and management's response.
  - Recommendation for changing the program.

#### Personnel Identification and control:

- The Loading and unloading platforms are not located outside of transit operations and separated by controlled and guard supervised entrances.
- The trucks and other conveyances are not required to enter through service gates manned by guards. They are escorted by plant personnel.

#### **Employee and System Protection:**

14. There is not necessarily a plan for police surveillance of unattended facilities, however if Police action would be required, they would be called in.

#### Vehicle Physical Security:

- 15. They do not have a security officer that would be responsible for security of keys to the perimeter entrance. This is controlled and handled by management.
- 16. There is not an intrusion alarm for the perimeter of the parking area. However, there is an alarm system for the facility.
- 17. The perimeter is not protected well by lighting.

#### Risk of exposure to pandemic influenza:

- 18. Plans have not been initiated to limiting access to facilities to reduce the number of customers in the work place. They do not encourage customers to visit the facilities at the Utility.
- Employees are not necessarily "encouraged" to avoid close contact with their coworkers and customers. Shaking hands is still a common practice and being done upon greetings.
- 20. The utility does not encourage the reduction or elimination of unnecessary social interactions.

#### Personnel Identification and Control:

- 21. They are not required to wear the security badge while on duty.
- They do not have guards at control points to compare badges to bearers both upon entry and upon exit.
  - Suggest plant employees provide escort for visitors.
    - This is current practice.

#### **VULNERABILITY ASSESSMENT CHECKLIST FOR WASTEWATER SYSTEMS**

- The systems have an emergency response plan (ERP) with emergency contacts.
- Flammable chemicals are stored in specialized storage rooms or cabinets.
- 3. The ERP is practiced and the contact list is updated annually.
- 4. The emergency plant personnel are able to operate plant components.
- The Infrastructure is mapped recorded and accessible.
- 6. There are Policies in place for release of sensitive information.
- 7. Critical components of wastewater system is absolutely limited to Authorized Personnel
- Facilities are appropriately secured or protected from unauthorized entry
- Fuel and other storage tanks are secure.

- Fill and vent pipes on storage or process tanks are secure.
- 11. Proper lighting is provided around critical components.
- 12. Warning signs are provided around critical components.
- 13. There is an entry code/key control and accountability policy/system in place.
- 14. MSDS Sheets on all chemicals are available.
- 15. All chemical containers are properly labeled and chemicals are properly stored.
- 16. There are procedures for handling explosive, toxic, and corrosive gases at the facility.
- 17. The local fire department is aware of chemicals and their locations.
- The Utility has a Pretreatment Ordinance in place.
- 19. Raw and treated water quality is monitored.
- 20. There is a plan for handling seasonal variation effects on treatment operations.
- 21. Proper Lockout/Tag-out procedures are followed.
- 22. Emergency power and backup generators are on site and provided.
- 23. There is a preventative maintenance program for the plant and collection system.
- Lift Stations, manholes, collection system pumps and trunk lines are secured to prevent unauthorized access.
- 25. Confined Space Entry Procedures are established and practiced.
- There are procedures to deal with customer complaints.
- 27. There is a Public notification procedure in place.
- 28. Flammable chemicals are stored in specialized storage rooms or cabinets.
- 29. Chemical compatibility is considered when storing chemicals
- 30. Chemical storage rooms are ventilated.
- 31. Provisions are made to prevent excessive heat or freezing of stored chemicals.
- 32. Emergency cleanup procedures are in place for chemical spills.
- Aisles and emergency exit routes are kept cleared.
- 34. All chemical containers are labeled properly and marked clearly.
- Exposure monitoring is performed where and when necessary.
- 36. The appropriate personal protective equipment is available.
- Records are not kept on the shelf life of chemicals. Chemical turnover occurs rapidly, this task is not needed.
- 38. Spark-proof electrical equipment is provided in flammable storage rooms.
- Incompatible hazardous wastes are kept separated.
- 40. Procedures are written for disposal of waste materials.
- 41. Employees are properly trained on the disposal procedures.
- 42. Employees are trained in understanding chemical hazards and when spills occur to immediately clear the vicinity and notify authorities for spill control clean up.
- 43. There is a Delivery and Chain of Custody Policy established with chemical suppliers.
- 44. Employees are properly trained to handle hazardous chemicals/spills at the plant and at the collection system.
- 45. There is an alarm system to detect unauthorized entry to system.
- Vehicles are locked and secured when not in use.
- 47. All safety equipment is always available and inspected and checked periodically.
- 48. The Utility does have an established way to procure emergency equipment plus numerous resources.
- The Utility does have a list of Emergency Equipment available through a number of resources.
- There is a Sewer Backup Response Policy in place.
- Spark-proof electrical equipment is provided in flammable storage rooms.

- 52. Adequate adsorptive materials and neutralizing agents are always available.
- 53. Hazardous waste containers are in good condition and free from leaks, spills or damage.
- 54. The containers are properly closed.
- 55. Hazardous wastes is compatible with the containers being used for storage.
- 56. Incompatible hazardous wastes is kept separated.
- 57. Spill containment supplies are always made available.
- 58. Employees are trained in spill cleanup procedures.
- 59. Hazardous Waste Storage" signs are posted ("Flammable, No Smoking," etc.), when necessary.
- 60. Procedures are written for disposal of waste materials.
- 61. Employees are properly trained on the disposal procedures.
- 62. The waste is collected, stored, and disposed of in accordance with applicable regulations.
- 63. Programs are in place to minimize waste, when possible.
- 64. Employees are trained in the handling, use, and care of the equipment.
- 65. Respirators are stored in a convenient and sanitary location.
- 66. Respirators are inspected routinely.
- 67. Staff is trained in procedures to follow during natural disasters (e.g., flood, hurricane, fire, etc.)

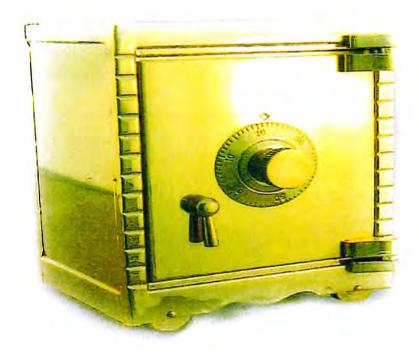

#### Wastewater System Vulnerabilities:

- Septage Dump Procedures are not in place. SLWSD does not accept septic hauling at the WWTF.
  There are no septic systems within our service area.
  - Staff is trained to observe the service area for illegal septic dumping into the collection system.

# VULNERABILITY ASSESSMENT FOR DRINKING WATER & WASTEWATER SYSTEMS

#### A Note about Security for this Document

This document contains sensitive information about the security of your water system. Therefore, it should be treated as **Confidential Information** and should be stored in a secure place at your water system. A duplicate copy should also be stored in a secure off-site location.

#### Vulnerability Assessment Guide for Water & Wastewater Systems

#### Introduction

Water and Wastewater systems are critical to every community. Protection of public drinking water & wastewater systems must be a high priority for local officials and water & wastewater system owners and operators to ensure an uninterrupted water supply, & wastewater operation which is essential for the protection of public health (safe drinking water and sanitation) and safety (fire fighting).

Adequate security measures will help prevent loss of service through terrorist acts, vandalism, or pranks. If your system is prepared, such actions may even be prevented. The appropriate level of security is best determined by the water & wastewater system at the local level.

This Security Vulnerability Self-Assessment Guide is designed to help water & wastewater systems determine possible vulnerable components and identify security measures that should be considered. A "vulnerability assessment" is the identification of weaknesses in water & wastewater system security, focusing on defined threats that could compromise its ability to provide adequate potable water, and/or water for firefighting and waste water operation. This document is meant to encourage systems to review their system vulnerabilities, but it may not take the place of a comprehensive review by security experts.

The Assessment Guide has a simple design. Answers to assessment questions are "yes" or "no," and there is space to identify needed actions and actions you have taken to improve security. For any "no" answer, refer to the "comment" column and/or contact your state drinking water primacy agency.

#### How to Use this Self-Assessment Guide

This document is designed for use by water & wastewater system personnel. Physical facilities pose a high degree of exposure to any security threat. This assessment should be conducted on all components of your system The Assessment includes an emergency contact list for your use. This list will help you identify who you need to contact in the event of an emergency or threat and will help you develop communication and outreach procedures. Filling out the Emergency Contact List is an important step toward developing an Emergency Response Plan, which provides detailed procedures on how to respond to an emergency.

We hope this document helps you to increase the awareness of all your employees, governing officials, and customers about security issues.

Once you have completed this document, review the actions you need to take to improve your system's security. Make sure to prioritize your actions based on the most likely threats.

#### Keep this Document

This is a working document. Its purpose is to start your process of security vulnerability assessment and security enhancements. Security is not an end point, but a goal that can be achieved only through continued efforts to assess and upgrade your system.

Don't forget that this is a sensitive document. It should be stored separately in a secure place at your water system. A duplicate copy should also be retained at a secure off-site location.

Access to this document should be limited to key water system personnel and local officials as well as the state drinking water primacy agency and others on a need-to-know basis.

Be careful in posting any of this for internet access eg. (Board discussions in minutes posted on website)

Name: JOSHUA C MILLER

Title: ASSISTANT UTILITIES DIRECTOR

Area of Responsibility: UTILITIES

System Name: ST LUCIE WEST SERVICES DISTRICT

Water System PWSID: 456-5031

Wastewater Facility ID: FLA 013993

Address: 450 SW UTILITY DR

City: PORT ST LUCIE

County: ST LUCIE

State: FLORIDA

Zip Code: 34986

Telephone: (772) 340-0220

Fax: (772) 871-5771

E-mail: jmiller@slwsd.org

Vulnerability Assessment

# Vulnerability Assessment Checklist

#### Management

	Yes/No	Comments	Action Needed/Taken
Are background checks performed on personnel before hiring?	YES		III TORON TORON TORON
Does the utility have an emergency response mission statement and goals? A mission statement and goals help focus emergency planning and response.	YES		
Does the utility have basic system information readily available for when you need it for emergency responders, repair people, and the news media?	YES		
Has the utility developed a clear and identifiable chain of command that identifies by name and title, their responsibilities during an emergency and their contact number? The first step in any emergency is to inform the person at the top of the list, who is responsible for managing the emergency and making key decisions.	YES		
Has the utility identified the possible events that may cause a water system emergency? They should be arranged from highest to lowest probable risk.	YES		
Are each of the events subdivided into the level of severity? Decisions on severity should be collaborative among system personnel but are ultimately made by the person in charge of the emergency. The information for making such a decision will accumulate over time and may result in changes in the assessment of severity. The assessment of the severity should be immediately communicated to all those dealing with the emergency.	YES		
Does staff have cell phones, pagers, or radios when they are in the field to communicate system status, problems, and needs.	YES		
Does the utility have emergency notification lists?	YES		
<ul> <li>Local notification call-up list</li> </ul>	YES		
State notification list	YES		
<ul> <li>Service/repair notification list</li> </ul>	YES		
Have written notification procedures been established?	VFC		

Who is responsible and the procedure for notification should be clearly written-up for:	
<ul> <li>Notifying water system customers</li> </ul>	YES
<ul> <li>Alerting local law enforcement, state drinking water officials, and local health</li> </ul>	YES
<ul> <li>Contacting service and repair contractors</li> </ul>	YES
<ul> <li>Contact neighboring water systems, if necessary</li> </ul>	YES
<ul> <li>Procedures for issuing a health advisory</li> </ul>	YES
Other procedures, as necessary	YES
If contamination is suspected, notify and work with the local health department and State agency and regional offices to help identify what testing should be done. This may help prevent illness or even death.	YES
Does the utility have procedures for conducting water sampling? Procedures should include the basic steps to conduct sampling (sites, frequency, procedures, lab requirements, lab locations, contacts, etc.). Procedures should be established for:	YES
Coliform Bacteria	YES
Hetertrophic Plate Count (HPC)	YES
Chlorine Residual	YES
Chlorine Demand	YES
Nitrate/Nitrite	YES
Total Organic Carbon (TOC)	YES
Total Halogenated Organic Carbon (TOX)	YES
Cyanide	YES
Communication with customers, the news media, and the general public is a critical part of emergency response.	YES
Has a spokesperson (and alternatives) been designated for delivering messages to the news media and the public?	YES
Have possible messages been developed in advance? Messages should be updated as the emergency develops.	YES

### Vulnerability Assessment

Comments Action Needed/Taken							
IES/INO	n tralso uard e heir	YES	YES	YES	YES	YES	
This is an evaluation of each water system component to	identify weaknesses or deficiencies that may make them susceptible to damage or failure during an emergency. It also assesses facilities for security enhancements that may guard against unauthorized entry, vandalism, or terrorism. The following components should be assessed and include their description and condition, their vulnerability, any improvements or mitigating actions, and any security improvements:	Water Source	Storage Facilities	<ul> <li>Treatment Facilities</li> </ul>	<ul> <li>Pump-house and pumping facilities</li> </ul>	<ul> <li>Computer and telemetry system</li> </ul>	<ul> <li>Other considerations</li> </ul>

#### Response Actions

	Yes/No	Comments	Action Mondod/Tolera
In any event there are a series of general steps to take:  1. Confirm and analyze the type and severity of the emergency.  2. Take immediate actions to save lives.  3. Take action to reduce injuries to save lives.  4. Make repairs based on priority demand.  5. Return the system to normal operation.  Has the utility identified the assessment, set forth immediate response actions, defined what notifications need to be made, and described important follow-up actions for the following events:			
Power outage	YES		
Transmission or main break	YES		
Distribution line break	YES		
<ul> <li>Chlorine treatment equipment failure</li> </ul>	YES		
Treatment equipment	YES		
Source pump failure	YES		
Microbial (coliform, E. coli) contamination	YES		
Chemical contamination	YES		
<ul> <li>Vandalism or terrorist attack</li> </ul>	YES		
<ul> <li>Reduction or loss of water in the well</li> </ul>	YES		
Drought	YES		
• Flood	YES		
Hurricane	YES		
<ul> <li>Hazardous materials spill in vicinity of sources or system lines</li> </ul>	YES		
Fire	YES		
Explosion	NO		
Electronic equipment failure	YES		
<ul> <li>Cyber attack</li> </ul>	YES		
Other			

## Alternative Water Sources

	Yes/No	Comments	Action Needed/Taken
Does the utility have a connection to another utility?	YES		HAND I POPOLITIONS
Are there other water systems within close proximity to tie into?	YES		
Does the utility have an interlocal agreement to provide water in emergency situations?	YES		
Have other alternative sources of water been identified?	YES		
Does the utility have agreements in-place with companies to provide bottled water?	ON		
Does the utility have a list of alternative water suppliers with contact information?	YES		
Drought Contingency			
0	Yes/No	Comments	Artion Needed Toton
Does the utility have a "Drought Contingency Plan"?	YES		TOTAL TOTAL TOTAL
Has the utility identified the conditions that would trigger the plan?	YES		
Has the utility identified actions to be implemented during each stage of the plan when predetermined triggering criteria are met?	ON		
Does the plan include specific procedures to be followed for the initiation or termination for each drought response stage, including procedures for notification of the public?	YES		
Does the plan include procedures for approving and denying variances to the plan?	ON		
Does the plan include provisions for enforcement of any mandatory water use restriction, including specification of penalties for violations?	YES		
Does the plan include measures to inform and educate the public?	ON		

### Physical Security

	Yes/No	Comments	Action Needed/Taken
Are all building entrances secure?	YES		TOWN TO DO
Are alarms installed and set during non-work hours?	YES		
Are there alarms on all doors and windows?	YES		
Are windows and doors secured so they cannot be easily removed?	YES		
Are all entrances well-lit	YES		
Are parking lot and grounds lighting in working order, timers set for proper times and are effective?	YES		
Are facilities entrances gated, locked and require a code for entry?	YES		
Are delivery/shipping areas secure?	YES		
Does landscaping provide a cover for intruders?	NO		
Are dumpsters secured with padlocks?	NO		

# Closed-Circuit Television (CCTV), if installed

	Yes/No	Comments	Action Needed/Taken
Is CCTV actively monitored during business hours and, if possible, after business hours?	YES		
Is video footage kept for a minimum of 90 days?	YES		
Are video cables easily accessible?	NO		
Are cameras positioned such that they cannot be reached from the ground or easily disabled?	YES		
Does landscaping block camera views?	NO		
Does camera cover exterior doors and ground level windows, all entrances/exits including employee entrances and parking areas, and all dumpsters and dock/garage/shipping areas?	YES		

## Electronic Card Access System

	Yes/No	Comments	Action Needed/Token
Is identification required for all personnel?	YES		Treated Treated Lancil
Are identification badges required to be displayed and worn?	ON		
Is the system managed with internal staff?	YES		
Is access to the system limited to upper management?	YES		
Does manager/department head approve access to facility?	YES		
Is the system on a uninterrupted power supply (UPS) in the event of power failure?	YES		
Are access cards inventoried to ensure return for termination and are unassigned cards secure?	YES		
Is access limited to only those areas where personnel are working?	YES		
Are access cards color coded to identify employees, visitors and vendors?	ON		
Is system integrated with burglar alarm system?	YES		
Does the system track all transactions in the system?	YES		
Is the system monitored on a daily basis?	YES		
Are access cards disabled immediately upon termination or loss of card?	YES		

### Manual Locks/Keys

	Yes/No	Comments	Action Needed/Taken
Are commercial grade, security lock cylinders installed?	YES		
Are master keys kept in a secure location?	YES		
When employees leave or change departments do you ensure keys are returned?	YES		
Are keys tracked by employee?	YES		
Are secure/sensitive areas keyed with unique locks/keys?	YES		
Are all keys marked, "Do Not Copy"?	YES		
Are secure/sensitive area locks rekeyed when employees with keys terminate employment?	YES		

### Information Security

	Yes/No	Comments	Action Needed/Taken
Executive Management has assigned roles and responsibilities for information security across its organization.	YES		
Risk Assessments – A review process at planned intervals is implemented to ensure the continuing suitability and effectiveness of the utilities approach to managing information security.	YES		
System Security – A formal document that provides an overview of the security requirements for agency information systems and describes the security controls in place (or planned) for meeting those requirements is maintained.	YES		
Configuration Change Control – Changes made to information systems are controlled and documented. The changes are reviewed and approved in accordance with written policy and procedures, including a process for emergency changes.	YES		
Vulnerability Scanning — A regular occurring (e.g., bi-annual, quarterly, monthly) process using specialized scanning tools and techniques that evaluates the configuration, patches, and services for known vulnerabilities is employed.	ON		
Security Awareness – Training is provided to all employees and contractors on an annual basis that addresses acceptable use and good computing practices for systems they are authorized to access. Content of training is based on the agency's policies addressing issues, such as, privacy requirements, virus protection, incident reporting, Internet use, notification to staff about monitoring activities, password requirements, and consequences of legal and policy violations.	YES		
Human Resources Security – Policies and procedures that address purpose, scope, roles, responsibilities, and compliance to support personnel security requirements, such as access rights, disciplinary process, etc. are in place.	YES		
Position Categorization – Procedures for identifying system access needs by job function and screening criteria for individuals performing those functions are in place.	YES		

YES	YES		YES	YES	YES	YES	YES	YES	YES	YES
Physical Access Control – Physical access to facilities containing information systems is controlled and individual's authorization is verified before granting access.	Secure Disposal of Equipment – Processes are in place to permanently remove any sensitive data and licensed software prior to disposal.	Disaster Recovery Planning — A Disaster Recovery Plan (DRP) is in place that supports the current business continuity needs of the utility. The DRP plans for the recovery of technology and communications following any major event that disrupts the normal business environment, provides for periodic updating and testing of the plan, and its documentation includes, but is not limited to:	Recovery based on critical and sensitive business needs.	<ul> <li>Location of regular backups of systems and data, with documentation.</li> </ul>	<ul> <li>Regularly updated information about where copies of the plan reside, including appropriate off-site locations.</li> </ul>	Training for appropriate personnel.	ormation and e, tested regularly,	Monitoring — System logging, and routine procedures to audit logs, security events, system use, systems alerts or failures, etc. are implemented and log information is in placed where it cannot be manipulated or altered.	Access Controls – Policies and procedures are in place for appropriate levels of access to computer assets. Access controls include, but are not limited to:	<ul> <li>Password management, including the use of strong passwords, periodic password change, and restriction of sharing access and/or passwords. System access is authorized according to business need and password files are not stored in clear text or are otherwise</li> </ul>

adequately protected.		
<ul> <li>Wireless access restrictions are in place, with         organizational control over access points, prohibition         and monitoring against rogue access points,         appropriate configuration of wireless routers and user         devices, and policy, procedure, and training for         technical staff and users are in place.</li> </ul>	YES	
<ul> <li>Secure remote access procedures and policies are in place, and are known and followed by users.</li> </ul>	YES	
Mobile and portable systems and their data are protected through adequate security measures, such as encryption and secure passwords, and physical security, such as storing devices in a secure location and using cable locking devices.	YES	
<ul> <li>The tracking of access and authorities, including periodic audits of controls and privileges is in place.</li> </ul>	YES	
<ul> <li>Networks challenge access requests (both user and system levels) and authenticate the requester prior to granting access.</li> </ul>	YES	
User Identification and Authentication (typically user id and password) – Information systems/applications uniquely identify and authenticate users when it is appropriate to do so.	YES	
Device Identification and Authentication – Information systems/applications identify and authenticate specific devices before establishing a connection with them.	YES	
System and Information Integrity – Policies and procedures for system and information integrity to address roles, responsibilities, and compliance standards are in place.	YES	
Malicious Code Protection – A regular patching process has been implemented to protect against malicious code. The process is automated when possible.	YES	
Intrusion Detection – Tools and techniques are utilized to monitor intrusion events, detect attacks, and provide identification of unauthorized system use.	YES	
Security Alerts and Advisories - The appropriate internal staff members receive security alerts/advisories on a regular basis	YES	

and take appropriate actions in response to them.		
Identification and Authentication – Policies and procedures for identification and authentication to address roles and responsibilities, and compliance standards are in place.	YES	
Secure System Configuration – The security settings on systems are configured to be appropriately restrictive while still supporting operational requirements. Non-essential services are disabled or removed when their use is not necessary as to eliminate unnecessary risk.	YES	
Software and Information Integrity – Information systems/applications detect and protect against unauthorized changes to software and information.	YES	
Information Input Accuracy, Completeness, and Validity – Information systems/applications check data inputs for accuracy, completeness, and validity.	YES	
Flaw Remediation – Information system/application flaws are identified, reported, and corrected.	YES

System and Services Acquisition – Policies and procedures for system and services acquisition are in place to address roles and responsibilities, and processes for compliance checking.	YES
Software Integrity Practices – Policies and procedures associated with system and services acquisition and product acceptance are in place.	YES
Acquisitions – Security requirements and/or security specifications, either explicitly or by reference, are included in all information system acquisition contracts based on an assessment of risk.	YES
Software Usage Restrictions – Controls or validation measures to comply with software usage restrictions in accordance with contract agreements and copyright laws are in place,	YES
User Installed Software – An explicit policy governing the downloading and installation of software by users is in place.	YES

Outsourced Information System Services – Controls or validation measures to ensure that third-party providers of information system services employ adequate security controls in accordance with applicable laws, policies and established service level agreements are in place.  Developer Security Testing – A security test and evaluation plan is in place, implemented, and documents the results.  Security test results may be used in support of the security certification process for the delivered information contribution.
---

# Personal Computer Security Practices

Personal computing devices include desktops, laptops, notebooks, tablets, Personal Device Assistants (PDA), and other mobile devices.	YES
Device Hardening – Operating system and application level updates, patches, and hot fixes are applied as soon as they become available and are fully tested. Services on the computing devices are only enabled where there is a demonstrated business need and only after a risk assessment.	YES
Lock-Out for Inactive Computing Devices – The automatic locking of the computing device after a period of inactivity is enforced.	YES
Data Storage – Data that needs additional protection is stored on pre-defined servers, rather than on computing devices, for both data protection and backup/recovery reasons. Confidential, sensitive, and/or personal (notice-triggering) information is not stored on computing devices without a careful risk assessment and adequate security measures.	YES

Network Protection Practices	
Network Protection – Network and communication protection policies and procedures are in place. These documents outline the procedures to authorize all connections to network services. Authorization is based on an evaluation of sensitive or critical business applications, classification of data stored on the system, and physical location of the system (e.g., public area, private access, secure access, etc.).	YES
Boundary Protection – Equipment designed for public access (i.e. Web servers dispensing public information) is protected. These are segregated from the internal networks that control them. Access into internal networks by authorized staff is controlled to prevent unauthorized entry.	YES
Protect and Secure Network Infrastructure – Policies and procedures for technology upgrades, network equipment (e.g., servers, routers, firewalls, switches), patches and upgrades, firewall and server configurations, and server hardening, etc are in place.	YES
Transmission Integrity and Confidentiality – Data is protected from unauthorized disclosure during transmission. Data classification is used to determine what security measures to employ, including encryption or physical measures.	YES
Incident Response Practices	
Incident Response – Incident response policies and procedures consistent with applicable laws and state policies are in place.	YES

and procedures YES es are in place. on of roles and escalation evidence,	ies and YES slowers and rting of ion and
Incident Response – Incident response policies and procedures consistent with applicable laws and state policies are in place. These include but are not limited to identification of roles and responsibilities, investigation, containment and escalation procedures, documentation and preservation of evidence, communication protocols, and lessons learned.	Incident Reporting – Proper incident reporting policies and procedures are in place. These include training employees and contractors to identify and report incidents, the reporting of incidents immediately upon discovery, and preparation and submission of follow-up written reports.

Red Flag Rules (Identify Theft)

	Yes/No	Comments	Action Needed/Taken
The utility has designed and implemented a comprehensive and fully compliant Identity Theft Program which:	YES		
Demands organization-wide adherence as approved by the City Council/Board of Directors.	YES		
Designates senior management oversight of the program.	YES		
Incorporates all existing relevant policies and procedures.       HIPAA Data Security	YES		
Fraud and Abuse			
Defines and documents our defined "Red Flags" and the procedures to detect and respond to them.	YES		
Ensures that we have flagged, investigated and properly reported address discrepancies to the appropriate agencies.	YES		
Has incorporated documentation which outlines the specific requirements for comprehensive education and competency testing of all appropriate employees.	YES		
Sufficiently guards all customer's identifying documents from those who do not have a need to know.	YES		
Includes the appropriate triggers and follow-up steps to notify victims about potential data breaches.	YES		
Incorporates protocols for reviewing our Program effectiveness and modifying it as necessary after our initial implementation.	YES		
Requires periodic updates to reflect changes in risk areas that our Program identifies related to our customers' and your own exposure related to identity theft.	YES		
The utility has educated all of its employees and tested their competency on our Red Flag program policies and our detailed procedures with special attention given to:	ON	Appropriate Staff Only	
<ul> <li>Exactly what to do to determine if the customer is who he/she says they are,</li> </ul>	YES		
<ul> <li>The most common "Red Flag" situations and what to do when there is any possibility that a "flag has been tripped."</li> </ul>	YES		
<ul> <li>Increasing awareness on the need for secure features on laptops, desktops, and all other computing devices.</li> </ul>	YES		

investi	The utility has established "Ked Flags" that will be investigated if any of the following "Red Blags" are	YES	
discov	discovered. They may include but are not limited to:		
۰	Incidents of identity theft		
•	Methods of identity theft that reflect identity theft		
	risks		
•	Alerts, notifications, or other warnings received from		
	a consumer reporting agency or third party service provider		
•	The presentation of suspicious documents, such as altered or forged		
۰	The presentation of suspicious personal identification		
	information		
•	The unusual use of an account		
•	Notice from customers, victims of identity theft, law		
	enforcement authorities, or other persons regarding		
	possible identity theft		
	A fraud or active duty alert is included with a		
	consumer credit report		
•	A consumer credit reporting agency provides a notice		
	of address discrepancy		
•	Identification photo that does not match the person		
•	Invalid Social Security Number		
•	Mail sent to a customer is frequently returned		
When existin	When setting up a new customer or changing an address for an existing customer, every effort is made to verify all information given	YES	
Does 1	Does utility have procedures to follow when it is determined	VEC	
that a	that a customer's information has been jeopardized?		
ongoir	Monitoring the security of customer identity data must be an ongoing process. Procedures such as the following:		
, eq	Contact the customer(s)		
ė.			
o,			
10	breach of information.  Notify law enforcement if the situation warrants		
Does 1	Does upper management require and receive a written annual	NO	
report	report on compliance with the Program and any incidents		

experienced for the year. The report should include:		
<ul> <li>The effectiveness of the policies and procedures in</li> </ul>		
addressing the risk of identity theft		
<ul> <li>Significant incidents that have occurred and</li> </ul>		
management's response		
<ul> <li>Recommendations for changing the Program</li> </ul>		
The utility has taken the necessary steps as a leadership team to inspire each one of our employees to do everything they possibly can to guard our patients' identity as if it were their own.	YES	

#### Financial

	Yes/No	Comments	Action Needed/Taken
The utility has used the DEP Business Plan for a complete assessment of its financial condition?	N/A		
The utility has established the frequency of water/sewer system billing?	YES		
System rates are reviewed for adequacy annually?	YES		
The utility has established resources and guidance to use for setting water user rates, fees or charges?	YES		
Does the system have an annual budget with a separate reserve account for equipment replacement and/or capital improvement?	YES	-	
Does the system have a capital improvement plan?	YES		
How many years does it cover (5 years recommended)?	YES		
Revenues are dedicated to repayment of all loans?	YES		
Does the system have a governing board of directors?	YES		
Does the water system employ the services of a professional engineer?	YES		
Does the system have audited annual financial statements?	YES		

Are there standard purchasing procedures that provide controls over expenditures?	YES		
Does your water utility have a contingency plan/reserve/short and long-term plan for a sharp decrease in population, customers, monthly income and decreased demand?	YES	For example, a natural, economic or similar disaster displaces, relocates or changes your service area, customer base.	The District set up a rate stabilization fund to offset a sudden drop in customer base.
Does your water utility have a contingency plan/reserve/short and long-term plan for a Regulatory/Statutory change with immediate and significant impacts/cost?	YES	Examples for possible upcoming issues.  1. Compliance with Stage 2 Disinfection Byproducts Regulations.  2. Lead and Copper Rule changes and brass inventory regulations.  3. Contaminant candidate list – regulation proposed on new chemicals and pharmaceuticals.  4. Simultaneous Compliance with multiple regulations that treatment for one rule puts you out of compliance with another rule.  5. Hexavalent Chromium regulation.  6. Perchlorate regulation (this is a rocket fuel byproduct that could affect water systems around Cape Canaveral, FL.)  7. Nutrient Reduction.  8. Air Emissions/Generator regulation changes.	The District set up a rate stabilization fund to offset any unknown regulatory changes.

State limits exposure and the District has liability insurance to protect it.	
YES	
Does your water utility have a plan reserve/policy of quick action and reaction to a citizen/3rd party lawsuit or other lawsuit against your water utility?	

#### Water System

	Yes/No	Comments	Action Needed/Taken
System has current and accurate data showing average and peak gpd used?	YES		
System's capacity exceeds peak demand by more than 20%?	YES		
System can meet peak demand without pumping at peak capacity for extended periods?	YES		
System evaluates system demands and plans for expansion as needed due to population increases?	YES		
System has an emergency plan in place to meet system demand during a shortage (natural disaster or largest pump/well out, etc.)?	YES		
System has comprehensive water loss program that compares amount of water produced (plant meter) with total delivered through metered and unmetered service connections?	YES		
System's unaccounted for water is less than 10%?	YES		
System has redundancy for all critical treatment components?	YES		
Ground water systems have a minimum of two sources of groundwater?	N/A		
Source water protection area provides a minimum 500 foot radius around each drinking water well?	N/A		
Groundwater source capacity equals or exceeds the design maximum day demand and equals or exceeds the design average day demand with the largest producing well out of service?	N/A		
System monitors raw water quality to determine appropriate treatment?	YES		

Ground water systems routinely monitor drawdown?	YES	
System plans for implementation of upcoming rules and regulations?	YES	
System has a preventative maintenance program?	YES	
System routinely evaluates system performance?	YES	
Are all wellheads sealed properly?	YES	
Are all well Vents and caps screened and securely attached?	YES	
Are Monitoring/Observation and test wells properly secured to prevent tampering?	YES	
Has your system implemented a Backflow prevention program?	YES	
Are your maps, records and other information of the system stored in a secure location?	YES	
Does your system have a procedure in place to respond immediately to a customer complaint about a new taste, odor, color, or other physical changes in water?	YES	
If your system has SCADA or other telemetry is it protected in a secure location and is it password protected, along with other system controls?	YES	
Can Employees bypass the SCADA system if needed and run your system manually?	YES	
Does your system have an updated operations and maintenance manual that includes evaluations of security systems?	YES	
Does your system have an interconnection and agreement with other systems, and are those connections secured and checked?	YES	
Does your system have a backup power source in case of loss of main power, and is this backup source tested routinely?	YES	
Are all system's critical equipment and components above the flood levels for your area, and has the system checked to see what these levels are for your area?	YES	
Is there a chain of command and a emergency call list established, updated annually and given to employees?	YES	

Does your system have a spare parts inventory and is it adequate and located in a secure location?	YES	
Are copies of records, maps and other sensitive information labeled confidential and are all copies checked to see if they were returned to the system?	YES	
Are your personnel issued system photo identification cards or badges and are they instructed to wear while working?	YES	
Do you use uniforms and vehicles with your system's name prominently displayed?	YES	
Are all system's vehicles locked and secured at all times?	YES	
Is access to the critical components of the water system restricted to Authorized Personnel only?	YES	
Are facilities fenced, including wellhouses, pits, etc. and are the gates locked?	YES	
Are your doors, windows and other points of entry such as tank and roof hatches and vents kept closed and locked?	YES	
Is there external lighting around the water system and equipment?	YES	
Are warning signs/Authorized Personnel signs posted?	YES	
Are the entry points to your water system easily seen and free of brush or obstruction?	YES	i
Do you have an alarm system that will detect unauthorized entry?	YES	
Do you have key control and are keys and codes limited to water system personnel only?	YES	
Are deliveries of chemicals and other supplies made in the presence of water system personnel?	YES	
Have you discussed with your suppliers procedures to ensure the security of their products?	YES	
Are Chemicals, particularly those that are potentially hazardous or flammable properly stored	YES	

### Product Liability

	Yes/No	Comments	Action Needed/Taken
Is someone responsible for coordinating product safety activity?	YES		
Is there a functioning committee or group to address product safety and liability?	YES		
Is there a process to identify and evaluate the hazards of each product?	YES		
Are products evaluated to verify that they meet regulatory requirements?	YES		
Is environmental impact and disposal considered in evaluating product risks?	YES		
Does your utility obtain certificates of product liability insurance from suppliers?	YES		
Does your utility have an effective quality assurance organization?	YES		
Are all quality control procedures documented?	YES		
Does your utility periodically verify that labels meet applicable industry and government safety standards	YES		
Do labels and other warnings address hidden hazards or hazards of misuse?	YES		
Is there a process to verify that instruction manuals and package labels are useful, understandable, and available to the user?	YES		
Does your product safety committee and legal counsel review all labels, warnings, material safety data sheets, and instructions?	YES		
Is product safety and liability considered when selecting packaging?	YES		
Is packaging designed to protect against leaks and spills?	YES		
Is there a system to assure that field personnel (including employees and contractors) are well qualified and trained?	YES		
Are field personnel or contractors required to report product safety problems?	YES		
Does your utility have insurance requirements for outside contractors, and do you obtain certificates of insurance	YES		

from them?		
Does your utility use a 24-hour toll-free phone service for product questions and emergencies?	YES	
Does your utility have effective procedures for handling:	YES	
Customer complaints and product incidents?	YES	
<ul> <li>Product abuse/misuse?</li> </ul>	YES	
Product liability claims?	YES	
Do you periodically analyze incident, complaint, and claim data to pinpoint trends, potential problems, etc.?	YES	
Are all of your products marked to ensure traceability to date and place of manufacture?	YES	
Are your critical materials, components and packaging coded and traceable to source?	YES	
Do you have procedures for an efficient product recall?	YES	

### Vehicle Physical Security

	Yes/No	Comments	Action Needed/Taken
Does a fence or other type physical barrier define the perimeter of the facility?	YES		India I papaci i i i i i i i i i i i i i i i i i i
Are openings such as culverts, tunnels, manholes for sewers and utility access, and sidewalk elevators which permit access to the facility secured?	YES		
Are all entrance points in perimeter barriers guarded or secured?	YES		
Is the security officer responsible for security of keys to perimeter entrances?	ON		
Are perimeters protected by intrusion alarm devices?	NO		
Is the perimeter of the installation protected by lighting?	ON		
Does the facility have an alarm system?	YES		
Is an alternate or independent source of power available for use on the system in the event of power failure?	YES		

# Personnel Identification and Control

	Yes/No	Comments	Action Needed/Taken
Is an identification card or badge used to identify all personnel within the confines of the controlled areas?	YES		
Are there written procedures for the method of identification at time of entering and leaving controlled area, as applied to both employees and visitors?	YES		
Are all personnel required to wear the security identification badge while on duty?	ON		
Do guards at control points compare badges to bearers both upon entry and upon exit?	ON		
Are badges recorded and controlled by rigid accountability procedures?	YES		
Are lost badges replaced with one bearing a different number or one that is otherwise not identical to the one lost?	ON		
Are there procedures relative to lost, damaged, and/or forgotten badges?	YES		
Are loading and unloading platforms located outside transit operations and separated there/ from/by controlled and guard supervised entrances?	ON		
Are all trucks and other conveyances required to enter through service gates manned by guards?	ON		

#### Public Access

	Yes/No	Comments	Action Needed/Taken
Is public access to customer records restricted?	YES		
Is public access for utility records available (earnings reports, commissioner's speeches, and reports by commission staff)?	YES		
Is the Consumer Confidence report available to the public?	YES		
Are procedures established for access to public records?	YES		
Are procedures established for responding to a public records request?	YES		

# Risk of Exposure to Pandemic Influenza

Have policies been developed that encourage ill employees to stay at home without fear of any reprisals?  Are there policies to discontinuation unessential travel to locations with high illness transmission rates?  Have plans been developed to minimize face-to-face contact between employees such as e-mail, websites and teleconferences?  Does the utility have a plan for limiting access to facilities to reduce the number of customers who must visit your workplace.  Do you have emergency communications plans to facilities to reduce the number of customers who must visit your workplace.  Do you have emergency communications plans to facilities to reduce the number of customers who must visit your workplace.  Do you have emergency communications plans to facilities to reduce the number of customers who must visit your workplace.  Are employees encouraged to wash their hands frequently with soap and water or with hand sanitizer if frequently with soap or water available?  Are employees encouraged to cover their coughs and sneezes with a tissue, or to cough and sneeze into their upper sleeves if tissues are not available?  Are employees encouraged to avoid close contact with with others.  Here coworkers and customers  always wash i with others.  Here possible  Are employees encouraged to avoid close contact with with others.  Egloves, they s		
and NO NO res rif YES rif NO NO h NO		
t NO res rif YES h NO h NO		
r ves	Where possible, encourage flexible work arrangements such as telecommuting or flexible work hours to reduce the number of your employees who must be at work at one time or in one specific location.	
YES YES NO		
r ves	Develop internet-based communications if feasible.	Through ADP payroll program announces can be sent to all employees
YES NO	Employees should avoid touching their noses, mouths, and eyes.	
ON	All employees should wash their hands or use a hand sanitizer after they cough, sneeze or blow their noses.	
upon removal of hand(s) became of removal process.	(Maintain a separation of at least 6 feet).  They should avoid shaking hands and always wash their hands after contact with others. Even if employees wear gloves, they should wash their hands upon removal of the gloves in case their hand(s) became contaminated during the removal process.	

Are customers and the public provided with tissues and trash receptacles, and with a place to wash or disinfect their hands?	Are employees encouraged to keep work surfaces, telephones, computer equipment and other frequently touched surfaces and office equipment clean?  YES  Be sure that any cleaner used is safe and will not harm your employees or your office equipment clean?  Profice equipment clean?  Protection Agency (EPA), and follow all directions and safety precautions indicated on the label.	Does the utility discourage its employees from using NO other employees' phones, desks, offices or other work tools and equipment?	Are situations where groups of people are crowded together, such as in a meeting minimized?.  Communicate with each other. When meetings are necessary, avoid close contact by keeping a separation of at least 6 feet, where possible, and assure that there is proper ventilation in the meeting room.	Does the utility encourage the reduction or elimination of unnecessary social interactions?  Reconsider all situations that permit or require employees, customers, and visitors (including family members) to enter the workplace. Workplaces which permit family visitors on site should consider restricting/eliminating that option during an influenza pandemic.  Work sites with on-site day care should consider in advance whether these facilities will remain open or will be closed, and the impact of such decisions on employees and the business.	Does the utility promote healthy lifestyles, including yes body's immune system and can affect their ability to fight off, or recover from, an infectious disease.
	your employees or your ent. Use only disinfectants the U.S. Environmental ency (EPA), and follow all safety precautions he label.		with each other. Personal Protective Equipment (PPE)

	Yes/No	Comments	Action Needed/Taken	
Does the utility have PPE available to its employees?	YES	Examples of personal protective equipment are gloves, goggles, face shields, surgical masks, and respirators		
Is the PPE selected based upon the hazard to the employee?	YES			
Are employees properly trained on the use of the PPE?	YES			
Is PPE properly fitted to each employee and is it periodically refitted (e.g., respirators)?	YES			
Is PPE conscientiously and properly worn?	YES			
Is PPE regularly maintained and replaced, as necessary?	YES			
Is PPE properly removed and disposed of to avoid contamination of self, others or the environment?	YES			

## Employee and System Protection

	Yes/No	Comments	Action Needed/Taken
Does the utility have legal and insurance counsel regarding any liability on your part for injury or damage to property at your office or job site?	YES		
Have you reviewed the adequacy of your insurance coverage?	YES		
Determine what legal remedies you can seek in the event of actual or threatened property damage or personal injury by striking workers?	N/A	State employees cannot legally strike.	
Is there a plan to maintain good customer relations during a strike?	N/A	N/A Keep your customers advised of the labor negotiations progress. Timely, personal	

		visits, telephone calls, or written messages can be used. A strike will end but you want to continue your good business relationships with your customers.	Y	
If a strike occurs, is there a plan to keep non-striking personnel informed as to the status of labor negotiations and to assign duties?	N/A	Establish in writing work assignments for all overhead personnel. It is essential that the work assigned be constructive.		
Does the utility have a written plan to physically protect utility assets?		Confer with your CPA regarding physical controls.		
Is there a plan to secure and account for all trucks, equipment, tools, materials on job sites, automobiles and other company owned assets?	YES	This includes all warehouse and office areas. Only authorized personnel should have keys to these areas, vehicles and equipment. Arrange for strikers to return all trucks, company keys, tools and records in their possession. Change all locks if necessary.		
Is there a plan for police surveillance of unattended facilities?	ON			
Is there a plan for outside assistance or to hire contractors in the event of an emergency?	YES			
Is there a plan to ensure that licensed operators are available to run the utility?	YES			

### Loss of an Employee

	Yes/No	Comments	Action Needed/Taken
Do you have a plan for when an employee leaves?	YES	Your first step is to pay close attention to the employee's general attitude when she gives her resignation. Does she express concern for wrapping up her remaining work? Or, like my employee-turnedrogue, does her resignation suddenly empower her to openly complain and disregard her remaining work	
Do you have a plan as to who can take over the duties and responsibilities in the short-term?	YES	Having contact names and phone numbers readily available will allow you to continue operation in the short-term.	
Do you know what they know?	YES	There's a good chance the employee has developed some unique skills or knowledge that you and the rest of the team may not be aware of. And, unless you transition that knowledge to another team member, it'll go right out the door along with that employee.	
Do you have a hiring plan?	YES	You may have to hire someone right away. Having the job description and advertisement ready beforehand will help the process.	

### CLIMATE CHANGE

# Vulnerability Assessment Checklist

#### Water Demand

Question	Answer Yes No	Comment	Action Needed/Taken	
Are there major industries that require cooling/process water in your planning region?	ON	As average temperatures increase, cooling water needs may also increase.  -Identify major industrial water users in your region and assess their current and projected needs for cooling and process water.		
Does water use vary by more than 50% seasonally in parts of your region?	ON	-Seasonal water use, which is primarily outdoor water use, is expected to increase as average temperatures increase and droughts become more frequent.  -Where water use records are available, look at total monthly water uses averaged over the last five years (if available). If maximum and minimum monthly water uses vary by more than 25%, then the answer to this question is "yes"  Where no water use records exist, is crop irrigation responsible for a significant (say >50%) percentage of water demand in parts of your region?		

Are crops grown in your region climate-sensitive? Would shifts in daily heat patterns, such as how long heat lingers before night-time cooling, be prohibitive for some crops?  Do groundwater supplies in your perion lack resiliancy after drought	N/A	-Fruit and nut crops are climate-sensitive and may require additional water as the climate warms  -Droughts are expected to become more frequent
events?		hardened demand may be particularly vulnerable

		groundwater pumping,	
Are water use curtailment measures effective in your region? (Water Mgt/Local restrictions	YES	-Droughts are expected to become more frequent and more severe in the future. Areas with a more hardened demand may be particularly vulnerable to droughts.	
•Are some instream flow requirements in your region either currently insufficient to support aquatic life, or occasionally unmet?	N/A	-Changes in snowmelt patterns in the future may make it difficult to balance water demands.  Vulnerabilities for ecosystems and municipal/agricultural water needs may be exacerbated by instream flow requirements that are:  1.not quantified, 2.not accurate for ecosystem needs under multiple environmental conditions including droughts, and 3.not met by regional water managers.	

#### Water Supply

Question	Answer Yes No	Comment	Comment Needed/Taken
Does part of your region rely on coastal aquifers? Has salt intrusion been a problem in the past?	ON	Coastal aquifers are susceptible to salt intrusion as sea levels rise, and many have already observed salt intrusion due to over-extraction.	
Would your region have difficulty in storing carryover supply surpluses from year to year?	ON	-Droughts are expected to become more severe in the future. Systems that can store more water may be more resilient to droughts	
Has your region faced a drought in the past during which it failed to meet local water demands?	YES	-Droughts are expected to become more severe in the future. Systems that have already come close to their supply thresholds may be especially vulnerable to droughts in the future.	02/2005- WTP USED GROUNDWATER SOURCES WHICH WERE INSUFFICIENT FOR DEMAND GROWTH; EXPANDED FACILITY TO FLORIDAN AQUIFER
Does your region have invasive species management issues at your facilities, along conveyance structures, or in habitat areas?	ON	-As invasive species are expected to become more prevalent with climate change, existing invasive species issues may indicate an ecological vulnerability to climate change.	

### Water Quality

2	sing NO wo	Does part of your region rely on surface water bodies with current or recurrent water quality issues related to eutrophication, such as looms? Are there other water quality constituents potentially exacerbated by climate change?	Are increased wildfires a threat in your region? If so, does your region include reservoirs with firesusceptible vegetation nearby which could pose a water quality concern from increased erosion?	Action Needed/Taken	-Some areas are expected to become more vulnerable to wildfires over time.  -Warming temperatures will result in lower dissolved oxygen levels in water bodies, which are exacerbated by algal blooms and in turn enhance eutrophication. Changes in streamflows may after pollutant concentrations in water bodies.  -In the future, low flow conditions are expected to be more extreme and last longer. This may result in higher pollutant concentrations where loadings increase or remain constant.  -In the future, low flows are expected decrease, and to last longer. This may result in higher pollutant concentrations where loadings increase or remain constant.	Answer Yes No NO NO NO	Are increased wildfires a threat in your region? If so, does your region include reservoirs with firesusceptible vegetation nearby which could pose a water quality concern from increased erosion?  Does part of your region rely on surface water bodies with current or recurrent water quality issues related to eutrophication, such as low dissolved oxygen or algal blooms? Are there other water quality constituents potentially exacerbated by climate change?  Are seasonal low flows decreasing for some waterbodies in your region? If so, are the reduced low flows limiting the waterbodies assimilative capacity?  Are there beneficial uses designated for some water bodies in your region that cannot always be met due to water quality issues?
ON ON ON	ON ON	ON		Action Needed/Taken	Comment	\$	Question

#### Sea Level Rise

Question	Answer Yes No	Comment	Action Needed/Taken
Has coastal erosion already been observed in your region?	N/A	<ul> <li>Coastal erosion is expected to occur over the next century as sea levels rise.</li> </ul>	
Are there coastal structures, such as levees or breakwaters, in your region?	N/A	-Coastal structures designed for a specific mean sea level may be impacted by sea level rise	
Is there significant coastal infrastructure, such as residences, recreation, water and wastewater treatment, tourism, and transportation) at less than six feet above mean sea level in your region?	N/A	-Coastal flooding will become more common, and will impact a greater extent of property, as sea levels rise. Critical infrastructure in the coastal floodplain may be at risk. Digital elevation maps should be compared with locations of coastal infrastructure.	
Are there climate-sensitive low- lying coastal habitats in your region?	N/A	-Low-lying coastal habitats that are particularly vulnerable to climate change include estuaries and coastal wetlands that rely on a delicate balance of freshwater and salt water.	
Are there areas in your region that currently flood during extreme high tides or storm surges?	N/A	-Areas that are already experiencing flooding during storm surges and very high tides, are more likely to experience increased flooding as sea levels rise.	
Is there land subsidence in the coastal areas of your region?	N/A	-Land subsidence may compound the impacts of sea level rise.	
Do tidal gauges along the coastal parts of your region show an increase over the past several decades?	N/A	-Local sea level rise may be higher or lower than state, national, or continental projectionsPlanners can find information on local tidal gauges at

Ouestion  Yes No  Does critical infrastructure in your region lie within the 200-year floodplain? DWR's best available at: floodplain maps are available at: more sever thtp://www.water.ca.gov/floodmg maps/.  maps/.  Answer  Comment  Change wit storm sever available at: more sever available at: more sever mt/lrafmo/fmb/fes/best_available  REMA, US studies that vulnerability questions to be avacuation hospitals, powshals, powshals, powshals, powshals, powshals, powshals, powshals, powshals, powshals, powshould be a cooled kinnacted for the point of the point o	tunclear how average precipitation will h temperature, it is generally agreed that rity will probably increase. More intense, ms may lead to higher peak flows and e floods.  EMA floodplain maps and any recent of the floods of Engineers, or DWR thight help identify specific local ties for your region. Other follow-up hat might help answer this question: blic safety issues could be affected by flooding events or intensity? For example, routes, emergency personnel access, water treatment and wastewater treatment wer generation plants and fire stations considered.	Needed/Taken	
--	--	--------------	--

Does aging critical flood protection infrastructure exist in your region?	NO		
Have flood control facilities (such as impoundment structures) been insufficient in the past?	NO	-Reservoirs and other facilities with impoundment capacity may be insufficient for severe storms in the future. Facilities that have been insufficient in the past may be particularly vulnerable.	
Are wildfires a concern in parts of your region?	Yes	-Wildfires alter the landscape and soil conditions, increasing the risk of flooding within the burn and downstream areas. Some areas are expected to hecome more vulnerable to wildfires over time.	

# Ecosystem and Habitat Vulnerability

Question	Answer Yes No	Comment	Action Needed/Taken	
Does your region include inland or coastal aquatic habitats vulnerable to erosion and sedimentation issues?	ON	-Erosion is expected to increase with climate change, and sedimentation is expected to shift. Habitats sensitive to these events may be particularly vulnerable to climate change.		1
Does your region include estuarine habitats which rely on seasonal freshwater flow patterns?	NO	<ul> <li>Seasonal high and low flows, especially those originating from snowmelt, are already shifting in many locations.</li> </ul>		
Do climate-sensitive fauna or flora populations live in your region?	ON	-Some specific species are more sensitive to climate variations than others.		1
Do endangered or threatened species exist in your region? Are changes in species distribution already being observed in parts of your region?	YES	-Species that are already threatened or endangered may have a lowered capacity to adapt to climate change.		1
Does the region rely on aquatic or water-dependent habitats for recreation or other economic activities?	ON	-Economic values associated with natural habitat can influence prioritization.		
Are there rivers in your region with quantified environmental flow requirements or known water quality/quantity stressors to aquatic life?	N/A	-Constrained water quality and quantity requirements may be difficult to meet in the future.		
Do estuaries, coastal dunes, wetlands, marshes, or exposed beaches exist in your region? If so, are coastal storms possible/frequent in your region?	YES	-Storm surges are expected to result in greater damage in the future due to sea level rise. This makes fragile coastal ecosystems vulnerable.		
Does your region include one or more of the habitats described in the Endangered Species Coalition's Top 10 habitats more of the habitats described in the Endangered Species Coalition's Top 10 habitats vulnerable to climate change.  (http://www.itsgettinghotoutthere.org/)?	ON	-These ecosystems are particularly vulnerable to climate change.

# Hydropower

Question	Answer Yes No	Comment	Action Needed/Taken
Is hydropower a source of electricity in your region?	ON	<ul> <li>-As seasonal river flows shift, hydropower is expected to become less reliable in the future.</li> </ul>	
Are energy needs in your region expected to increase in the future? If so, are there future plans for hydropower generation facilities or conditions for hydropower generation?	N/A	-Energy needs are expected to increase in many locations as the climate warms. This increase in electricity demand may compound decreases in hydropower production, increasing its priority for a region.	

# 40

# FLORIDA RURAL WATER ASSOCIATION WELL ASSESSMENTS AND RECOMMENDATIONS

System Well ID	FLUWID#:	Date of Visit
VSID#: 456-5031		
PWSID#:		
ST LUCIE WEST SERVICES DISTRICT		cialist Name
System Name:		Groundwater Spec

Item Description	Problems Associated with Items	Typical Solutions	Recommendations, if any
Well Seal	Well not Properly Sealed could allow potential biological/other surface contaminants into the well and ground water.	Call well driller to properly Replace/Repair Well Seal and/or tighten well seal bolts to tighten rubber gasket or silicon caulk around well seal.	×
Vented	Improper venting may allow contaminants to be sucked into the well casing from outside due to vacuum created by pump cycling.	Clean and/or install appropriate, screened air vent on top of the well that allows the well to vent properly. Vent should be 12 inches above grade and downward facing to prevent rainfall and debris from falling in.	
Well Cover	Inadequate well covering allows surface contaminants to enter well and ground water, which may cause microbiological sampling failure.	Provide a constructed shed or well house over the well that will keep outside elements from being in contact with the well casing and/or seal.	
Orainage	Improper packing drains and/or floor drains can allow surface run-off to enter the well and contaminate the ground water supply/source.	A drain should be made of a non-corrosive material extend off the Concrete Pad allowing water to flow away from the wellhead.	
Concrete Pad	If the pad is improperly sloped, cracked, not large enough, or doesn't exist, surface water could enter around the well casing and affect the ground water quality.	Seat all cracks with appropriate cement or other concrete type sealers, and/or extend out to make sure pad is a minimum 6' X 6' X 4" in size.  Appropriate sealers are rigid or hard drying weatherproof/UV resistant sealant. Do Not Use Silicon or other flexible adhesives. Make sure the pad is sloped where all surface water drains away from the well seal and doesn't pool around well head	
Clean Up	Debris, chemicals, contaminants are present at or around the well site, could cause contamination to the well.	Remove all non-water treatment chemical containers from well site, clean and mow grounds to ensure nothing is remaining. Keep well head free of algae, bugs, leaf litter, etc.	
Painting	If paint is peeling or doesn't exist, rusted piping and other items may lead to degradation of well equipment and possible contamination to water supply.	Scrape and/or sand surfaces and then paint/re-paint items to make sure a good coat is applied. Paint well to coat metal and Inhibit rust or other corrosion events.	
Packing Gland	If packing gland isn't properly maintained this could cause water to leak out and the pump shaft to wear out quickly and		

			Recommendations, if any					
well. (Remember that over tightening the packing gland can cause breakdown as well)	Seal up joints with appropriate fittings and/or seal with silicon adhesives so that bugs, debris, etc. cannot enter the conduit and get in well.	Make sure all the vents on the A&V Valve are working properly so that contaminants cannot enter the piping/system.	Typical Solutions	Post "No Trespassing" signs on all four sides of the well compound area. Identify contact persons/number in case of emergency.	Secure chlorine tanks/cylinders with chains or other device so the containers can't tip over easily. Insure that liquid chlorine is kept out of direct sunlight and heat.	Secure ladder and access points by locking measures and/or remove access ladder and store in area where it can be secured.	Replace regular water faucets with smooth end faucets so that bacteria cannot grow around the area where the water discharges.	Make sure doors have deadbolt locks that secure the well house and gates to fences are chained and locked as well. Security Fence should be barbed wire with at least 3 strands and trees and other buildings should be at least 10ft from fence to prevent people from climbing and clearing a locked fence. Post Federal Offense signs on the gates around the system.
confaminate well. Problematic signs to be aware of are pump vibrations and metal shavings around the gland.	If electrical conduit is improperly installed or sealed this could allow water quality contamination to the well/water supply.	If A&V Valve isn't properly installed/operated, then well could be contaminated by surface contaminants entering through the vent	Problems Associated with Items	Improper signage may allow non-authorized personnel to enter the well site and cause damage to the well and/or facility or allow use of the area for storage.	Chlorine Bottles/Tanks not secured can easily be tipped over and can cause spills/discharges to occur. Direct Sunlight will cause degradation of Liquid Chlorine and ineffective to disinfect water.	Access to ground storage tanks by non-authorized personnel can allow contaminants to be put directly into the water supply.	Sampling point needs to be smooth and non-threaded around the discharge area where samples are collected to avoid cross connection.	Gates and well-house doors that are not locked and secure may lead to people entering the wellhead area and cause problems.
	Electric Conduit	A&V Valve	Item Description	Signage	Chlorine Secure	Tank Access	Sampling Point (Raw Water)	Secure Facility

Well Seal - Is a device used to seal off the top of a well casing while allowing the discharge pipe and electrical control wiring to pass through the top well without allowing anything to get back into the well casing.

A&V Valve - Air and vacuum valve that allows well/piping to breathe appropriately through normal structures.

Vent - A device, usually located on the wellhead itself, that allows access air from the well to enter/escape when the well is either turned-off or on and the ground water fluctuates

during/after operations.

Packing Gland - is the area around a well pump shaft that is lubricated to keep shaff spinning freely without wear to the bearings or shaff.

Electric Conduit - Piping, such as PVC or galvanize, in which electrical wiring is run inside when electrical wiring has to be exposed to the air and/or ground area. It protects the coating on the electrical wiring from the elements such as soil, air, and water when used outside.

Cross Connection: Any physical connection or arrangement of piping or fixtures which may allow non-potable water or industrial fluids or other material of questionable quality to come in contact with potable water inside a distribution system. This would include any temporary connections, such as swing connections, removable sections, four way plug valves, spools, dummy sections of pipe, swivel or change-over devices or sliding multiport tubes or other plumbing arrangements.

# Vulnerability Assessment Checklist for Wastewater Systems

	Yes No	o Comments	Potential Corrective Actions
System Has Updated Emergency Response Plan (ERP) with Emergency Contacts?	×	It is essential that you have an ERP. There are a number of federal and state regulations that require ERPs.	o
Is ERP Practiced and Emergency Contact List Updated Annually?	×	Work with your local first responders to plan an exercise that involves your system. Verify your contact list.	
Emergency Personnel Able to Operate Critical Plant Components?	×		
Infrastructure Mapped, Recorded and Accessible?	×	Records, maps, and other information should be stored in a secure location when not in use.	ii.
Is there Policy for Release of Sensitive Information?	×	Decision makers need to address how sensitive documents (e.g., schematics, maps, and plans and specifications) will be distributed.	
Is Access to Critical Components of Wastewater System Limited to Authorized Personnel Only?	×	Make sure that system staff understand and abide by the access policies that are established. Consider the following:  Issue wastewater system photo identification cards for employees.  Post signs restricting entry to authorized personnel and ensure that assigned staff escort people without proper ID.	79

١	r	٠	٩	٠
١	۰	۰	d	,
,	ė	×	۰	۰

Are facilities appropriately secured or protected from unauthorized entry?	×	Ideally, all facilities should have a security fence around the perimeter. Lock all doors and windows. All gates should be locked with chains and a tamper-resistant padlock.	
Are Fuel and Other Storage Tanks secure?	×		
Are fill and vent pipes on storage or process tanks secure?	×	Evaluate access to storage and process tanks to reduce theft of fuel or chemicals, or tampering with treatment processes.	
Is Proper Lighting Provided around critical components?	×	Adequate lighting of the exterior of wastewater systems' critical components is a good deterrent to unauthorized access and may result in the detection or deterrence of trespassers. Motion detectors that activate switches that turn lights on or trigger alarms also enhance security.	
Are warning signs provided around critical components?	×	Warning signs can be an effective means to deter unauthorized access. Examples include the following: "Warning - Tampering with this facility is prohibited"; "Keep Out", "Authorized Personnel Only," "Unauthorized Access Prohibited,"and "Employees Only,".	
Is there an alarm system to detect unauthorized entry to system?	×	Consider installing an alarm system that notifies the proper authorities or your wastewater system's designated contact for emergencies when there has been a breach of security. Consider an alarm system whenever possible for tanks, pump houses, and treatment facilities. Also consider having an audible alarm at the site as a deterrent and to notify neighbors of a potential threat. Alarms can also be incorporated for use with SCADA systems.	
Do you have Entry Code/Key control and accountability policy/system?	×	Keep a record of locks and associated keys, and to whom the keys have been assigned. This record will facilitate lock replacement and key management (e.g., after employee turnover or loss of keys). Vehicle and building keys should be kept in a lockbox when not in use.	

Vehicles are locked and secured when not in use?	×		
MSDS Sheets on all Chemicals Available?	×	Establish a plan for maintaining MSDS information for every chemical/material used throughout the system. Employees should have immediate access to this information, and be trained in using MSDSs.	
All Chemical Containers Properly Labeled and Chemicals Properly Stored?	×	Use the National Fire Protection Association (NFPA) labeling system or other suitable system for labeling hazards. Consult each MSDS for hazard information, and conduct inspections of chemicals, containers, and hazardous material storage areas regularly to identify potential problems. Proper management of hazardous chemicals can often be accomplished with little additional expense, and add an essential level of safety.	
Are there procedures for handling explosive, toxic, and corrosive gases at the facility?	×	Properly vent gases from digestors and other processes. Have proper safety equipment to deal with toxic gas. Have a procedure for dealing with explosions.	
Local Fire Department Aware of Chemicals and Their Locations?	×	Provide the local fire department and the local emergency planning committee with information about the types and locations of hazardous materials used in your wastewater system. Updates should be provided annually, but if there is a significant change, notify the authorities immediately.	
Do you Have a Pretreatment Ordinance?	×	Pretreatment ordinances enable the system to regulate the inputs from commercial and industrial users. High strength organic wastes, oil, grease, heavy metals and hazardous materials can have negative effects on your system. Users with such wastes should pretreat or implement waste minimization techniques.	INTERNAL ORDINANCE; LESS THAN 5 MGD FACILITIES WITH ZERO INDUSTRIAL CUSTOMERS- NOT REQUIRED BY FDEP

0	
=:	
V	

and to Collection System?	×		Evaluate all procedures for training and response to hazardous materials released to the collection system or treatment works. Consider protection of personnel and community, and mitigation procedures. Equipment and procedures necessary to respond to a release may be found in the MSDS information, NEVER RESPOND to a release for which you are not properly trained or equipped.  Coordinate training with local emergency	
Delivery and Chain of Custody Policy Established with Chemical Suppliers?	×		Chain of custody procedures for delivery of chemicals should be reviewed. Inspect chemicals and other supplies at the time of delivery to verify they are sealed and in unopened containers. Match all delivered goods with purchase orders to ensure that they were, in fact, ordered by your wastewater system. Keep a log or journal of deliveries. It should include the driver's name (taken from the driver's photo I.D.), date, time, material delivered, and the sumflier's name.	
Raw and Treated Water Quality Monitored?	×	2000	Monitoring of raw and treated wastewater can establish a baseline that may allow you to know if there has been a contamination incident.	
Septage Dump Procedures In Place?		×	Septage haulers should only be allowed to dump when regular personnel are on duty. Septage must be sampled and tested for compatibility. Record all septage dumps, including; amount, sample results, company/hauler, date, time and location of dump.	SLWSD DOES NOT ACCEPT SEPTIC HAULING AT THE WWTF. THERE ARE NO SEPTIC SYSTEMS WITHIN OUR SERVICE AREA.
Safety Equipment Available and Checked Periodically?	×			
Is there a plan for handling seasonal variation effects on treatment operations?	×	0, 20 7 0	Some times of the year will produce greater flows than others. System should consider ways to operate with large variations in flows. This can also have an effect on revenue collected through rates.	
Are Proper Lockout/Tagout Procedures Followed?	×			

Is Emergency Power Provided?	×	Emergency back-up generators should be available and tested under load each month to verify operation. Whenever possible, power supplies should be located in places where they are least likely to be affected by natural disasters (floods, storms, etc.).	
is trete a reveluative Maintenance Frogram (for plant and collection system)?	×	Good equipment maintenance is essential to protecting system resources. Be sure that generators, emergency pumps, valves, etc. are maintained regularly. Proper polarity and grounding of electrical systems should be verified regularly. Regular maintenance of the collection system will reduce blockages and emergency call-outs, and increase the life of collection system components. Water jet and vacuum debris from lines.	
Lift Stations, Manholes, Collection System Pumps and Trunk Lines Secured to Prevent Unauthorized Access?	×	Secure access points and control panels at lift stations with tamper-resistant locks.  Protect structures from collision with concrete ballards or jersey barriers. Install alarms on lift stations that lack them. Test alarms regularly.	
Established way to procure emergency equipment?	×	Identify alternate sources for obtaining emergency equipment from a neighboring community or contractor.	
Have List of Emergency Equipment Available?	×	Be certain to maintain and periodically test equipment owned by the community.	
Confined Space Entry Procedures Established and Practiced?	×	Make sure appropriate personnel are properly trained to prevent accidents or death.	
Have Sewer Backup Response Policy?	×	Sewer backups are health hazards. Have a procedure for handling sewer backups and dealing with the public.	
Have Procedures to Deal w/Customer Complaints?	×	Customer confidence in the utility is important. Have a plan for responding to customer complaints in a timely and professional manner.	
Have Public Notification Procedures in Place?	×	Have a plan to notify customers/public in emergency situations. Use web notices, door hangers, emails, mail-outs, local TV broadcasts, and local newspapers.	

Is chemical compatibility considered?	×	
Is spark-proof electrical equipment provided in flammable storage rooms?	×	
Are chemical storage rooms ventilated?	×	
Are provisions made to prevent excessive heat or freezing of stored chemicals?	×	
Does an inventory system exist for chemicals?	×	
Are records kept on the shelf life of chemicals?		Х
Do emergency cleanup procedures exist for chemicals?	×	
Are adequate adsorptive materials and neutralizing agents available?	×	
Are aisles and emergency exit routes cleared?	×	
Are chemical containers labeled properly and clearly?	×	
Is exposure monitoring performed where and when necessary?	×	
Are hazardous waste containers in good condition and free from leaks, spills or damage?	×	
Are the containers properly closed?	×	
Are hazardous wastes compatible with containers being used for storage?	×	
Are incompatible hazardous wastes separated?	×	
Are spill containment supplies available?	×	
Are employees trained in spill cleanup procedures?	×	
Are "Hazardous Waste Storage" signs posted ("Flammable, No Smoking," etc., if necessary	×	
Are procedures written for disposal of waste materials,	×	
Are employees properly trained on the disposal procedures?	×	

Is the waste collected, stored and disposed of in accordance with applicable regulations	×
Are programs in place to minimize waste, when possible?	х
Is the appropriate personal protective equipment available?	х
Are employees trained in the handling, use, and care of the equipment?	×
Are respirators stored in a convenient and sanitary location?	x
Are respirators inspected routinely?	×
Is staff trained in procedures to follow during natural disasters (e.g., flood, hurricane, fire, etc.)	x

Note: "Sewer Toolkit" for Sewer Vulnerability Assessment Tools/Forms Available at http://www.frwa.net/WastewaterInfo/SewerToolkit/SewerToolkit/Page.htm . Example tools available include: Confined Space Pre-Entry Checklist, Sanitary Sewer System Assessment, Sanitary Sewer Maintenance Policy, etc.

# St. Lucie West Services District

# **Board Agenda Item** Tuesday, June 7, 2022

#### Item

DM 2 Consider Approval of Request to Advertise Public Hearing to Consider Amending the District Employee Pay Grade Schedule.

# **Summary**

Request authorization to advertise a Public Hearing on August 2, 2022, to consider amending the District Employee Pay Grade Schedule. A proposed form of Notice is attached.

#### Recommendation

Staff recommends approval to advertise a Public Hearing to consider approving amendments to the St. Lucie West Services District Employee Pay Grade Schedule.

District Manager: William Hayden

# NOTICE OF PUBLIC HEARING OF THE BOARD OF SUPERVISORS OF THE ST. LUCIE WEST SERVICES DISTRICT TO CONSIDER THE ADOPTION OF AMENDMENTS TO THE DISTRICT EMPLOYEE PAY GRADE SCHEDULE

The Board of Supervisors ("Board") of the ST. LUCIE WEST SERVICES DISTRICT ("District") will hold a public hearing in accordance with Sections 120.54 and 190.011, Florida Statutes, on Tuesday, August 2, 2022, at 9:00 a.m., or as soon thereafter as the matter may be heard, in the administrative offices of St. Lucie West Services District located at 450 SW Utility Drive, Port St. Lucie, Florida 34986, for the purpose of hearing public comment and objections to proposed amendments to the District's Employee Pay Grade Schedule.

If adopted, the proposed amendments shall become effective on October 1, 2022. A copy of the proposed amendments will be available at the District Office located at 450 SW Utility Drive, Port St. Lucie, Florida 34986. Any person who wishes to provide a proposal for a lower cost regulatory alternative as provided by Section 120.54(1), Florida Statutes, must do so in writing within 21 days after publication of this notice. Each person who decides to appeal any decision made by the Board with respect to any matter considered at the public hearing is advised that the person will need a record of the proceedings and that accordingly, the person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which such appeal is to be based.

In accordance with the Americans with Disabilities Act, any individual requiring special accommodations or an interpreter to receive District information or participate at this meeting should contact the District Administrator at 1-561-630-4922 or toll free at 1-877-737-4922 at least five (5) calendar days prior to the meeting. Persons who are hearing impaired may contact the Florida Relay Service at 1-800-955-8770 for aid in contacting the District's office.

Dated this 10<sup>th</sup> day of June, 2022.

William K. Hayden, District Manager ST LUCIE WEST SERVICES DISTRICT

**Publish: July 1, 2022**

#### **NOTES TO PAY GRADE SCHEDULE**

#### Minimum and Maximum Pay for Each Grade—Adjustment Every Three Years:

Effective October 1, 2025, and on October 1 of each third successive year thereafter (each a "Current Year"), each minimum and maximum hourly wage for hourly employees, and each minimum and maximum annual salary for salaried employees (collectively, the "Pay Rate Limits"), as set forth in the above Pay Grade Schedule, shall be subject to adjustment based on changes in the Consumer Price Index, as follows:

- (a) Each Pay Rate Limit adjustment made under this provision shall be based on the percentage increase, if any, in the Consumer Price Index—U.S. City Average—All Urban Consumers Unadjusted (1982-1984=100), as published by the U.S. Department of Labor, Bureau of Labor Statistics ("Index"), for the month of January of the Current Year (each a "Current Index") over the Index for the month of January of the third preceding year (each a "Base Year" and a "Base Index"). By way of example, for the Current Year 2025, the Base Year shall be 2022.
- (b) Beginning in 2025, if the Current Index is greater than the Base Index, the Pay Rate Limits for the next succeeding three (3) fiscal years shall be increased from the Pay Rate Limits that were in effect in the preceding three (3) fiscal years by an amount equal to the percentage by which the Current Index exceeds the Base Index. In no event shall the adjusted Pay Rate Limits be less than the Pay Rate Limits in effect for the immediately preceding three (3) fiscal years.
- (c) Each Pay Rate Limit adjustment made under this provision shall become effective on October 1 of the year in which the calculations described in paragraph (b) above are undertaken.
- (d) All Pay Rate Limits adjustments made under this provision shall be counted to the nearest whole cent.
- (e) In the event the U.S. Department of Labor, Bureau of Labor Statistics, ceases to publish the Index, the Board of Supervisors shall substitute another equally authoritative measure of change in purchasing power of the U.S. dollar as may then be available so as to carry out the intent of this provision.
- (f) Every three (3) years commencing in 2025, and not later than April 1 of each such year, the District Manager shall undertake the Pay Rate Limits adjustment calculations described in paragraph (b) above, and shall cause all Pay Rate Limits adjustments made in accordance with this provision to be presented to the Board of Supervisors at a public meeting held prior to the next successive October 1 effective date. The Pay Rate Limits adjustments shall become effective on such date unless previously rescinded by the Board of Supervisors at a public meeting.

# Individual Employee Pay—Annual Adjustment:

Effective October 1, 2023, and on October 1 of each successive year thereafter (each a "Current Year"), the hourly wage for each hourly employee, and the annual salary for each salaried employee (collectively, the "Individual Pay Rates"), established as set forth in the above Pay Grade Schedule, shall be subject to adjustment based on changes in the Consumer Price Index, as follows:

- (a) Each Individual Pay Rates adjustment made under this provision shall be based on the percentage increase, if any, in the Consumer Price Index—U.S. City Average—All Urban Consumers Unadjusted (1982-1984=100), as published by the U.S. Department of Labor, Bureau of Labor Statistics ("Index"), for the month of January of the Current Year (each a "Current Index") over the Index for the month of January of the immediately preceding year (each a "Base Index").
- (b) Beginning in 2023, if the Current Index is greater than the Base Index, the Individual Pay Rates for the immediately succeeding fiscal year shall be increased from the Individual Pay Rates that were in effect in the preceding fiscal year by an amount equal to the percentage by which the Current Index exceeds the Base Index. In no event shall the adjusted Individual Pay Rates be less than the Individual Pay Rates in effect for the immediately preceding fiscal year.
- (c) Each Individual Pay Rates adjustment made under this provision shall become effective on October 1 of the year in which the calculations described in paragraph (b) above are undertaken.
- (d) All Individual Pay Rates adjustments made under this provision shall be counted to the nearest whole cent.
- (e) In the event the U.S. Department of Labor, Bureau of Labor Statistics, ceases to publish the Index, the Board of Supervisors shall substitute another equally authoritative measure of change in purchasing power of the U.S. dollar as may then be available so as to carry out the intent of this provision.
- (f) Annually commencing in 2023, and not later than April 1 of each such year, the District Manager shall undertake the Individual Pay Rates adjustment calculations described in paragraph (b) above, and shall cause all Individual Pay Rates adjustments made in accordance with this provision to be presented to the Board of Supervisors at a public meeting held prior to the next successive October 1 effective date. The Individual Pay Rates adjustments shall become effective on such date unless previously rescinded by the Board of Supervisors at a public meeting.

#### **RESOLUTION NO. 2022-05**

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE ST. LUCIE WEST SERVICES DISTRICT APPROVING A PROPOSED BUDGET FOR FISCAL YEAR 2023.

**WHEREAS,** the Board of Supervisors ("Board") of the St. Lucie West Services District ("District") is required by Chapter 190.008, *Florida Statutes* to approve a proposed Budget for each fiscal year; and,

WHEREAS, the Proposed Budget for Fiscal Year 2023 has been prepared and considered by the Board.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE ST. LUCIE WEST SERVICES DISTRICT THAT:

Section 1. The Proposed Budget for Fiscal Year 2023 attached hereto as Exhibit "A" is approved and adopted.

Section 2. A Public Hearing is hereby scheduled for August 30, 2022 at 9:00 a.m. in the Offices of the St. Lucie West Services District located at 450 SW Utility Drive, Port St. Lucie, Florida 34986, for the purpose of receiving public comments on the Proposed Fiscal Year 2023 Budget.

**PASSED, ADOPTED and EFFECTIVE** this 7<sup>th</sup> day of June 2022.

Proposed Budget For Fiscal Year Ending September 30, 2023

May 3,2022

Honorable Vince D'Amico, Chairman and Members of the Board of Supervisors St. Lucie West Services District 450 SW Utility Drive Port St. Lucie, FL 34986

RE: St. Lucie West Service District FY 2023 Proposed Annual Budget and FY 2023-2027 Capital Improvement Plan

Dear Honorable Chairman and Supervisors:

I am pleased to present the annual budget for FY 2023 and the FY 2023-2027 Capital Improvement Plan.

The attached budget addresses the operations and maintenance, debt service and capital improvement requirements for both the Utility operations, General, Capital Project and Debt Service Funds of the District.

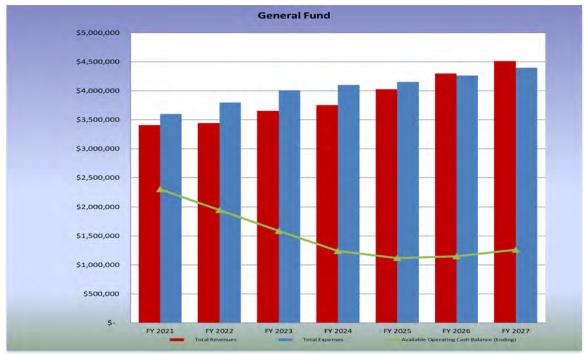

Many improvements were accomplished or encumbered in Fiscal Year 2022 and some of the major projects that were completed were:

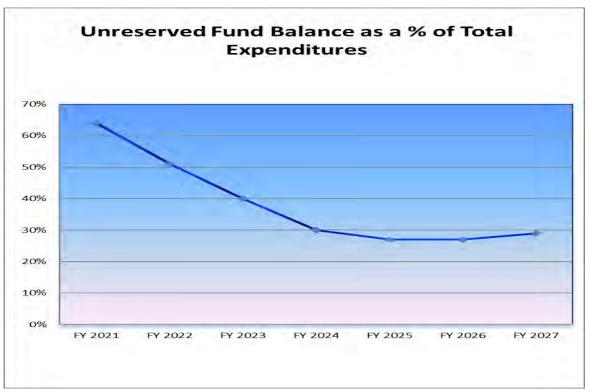

- ❖ Several lift stations will be rehabilitated for FY 2023. The lift station restoration project effort will be continued throughout the next several years to ensure that all lift stations are upgraded.
- ❖ The Lake Harvey stormwater expansion project was completed in November 2017 and staff will continue to work with the City of Port St. Lucie on a passive park use and landscaping plan
- ❖ The Lake Charles Irrigation pump station improvements moved to FY2023 and will continue into 2024.
- The Calcite tank project moved for FY2023 and will continue into 2024.
- The Clear-well and transfer pump moved to FY2023 and will continue into 2024.

Fiscal Year 2023 reflects positive account activity trends and the recent refunding of Bonds have placed the District in a better financial position. The refinancing of the bonds saved the District over \$21,500,000 in debt service while not extending the terms. The District has not raised the Utility Rates since FY2010 due to efficient budgeting and innovative cost saving measures, the proposed budget reflects an increase for the 2023 FY. The Proposed Budget also includes an increase in Maintenance Assessments for the 2023 FY.

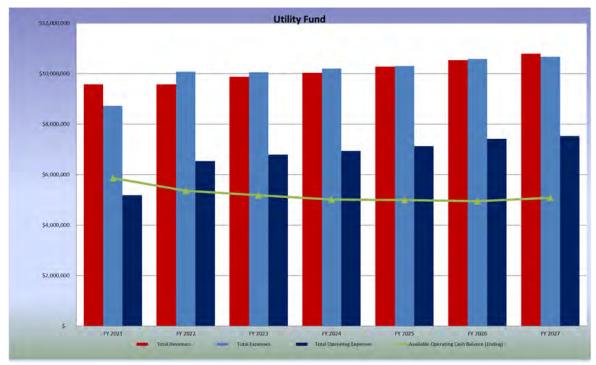

The budget for FY 2023 continues with the five-year forecasting of the District's financial needs. Looking out over five years, rather than just the upcoming budget year, shows the impact of the immediate operating budget and the effect on the District's future fiscal health. Immediate decisions, such as whether to spend from our fund balance to pay for a project, can now be aided by a longer-term perspective.

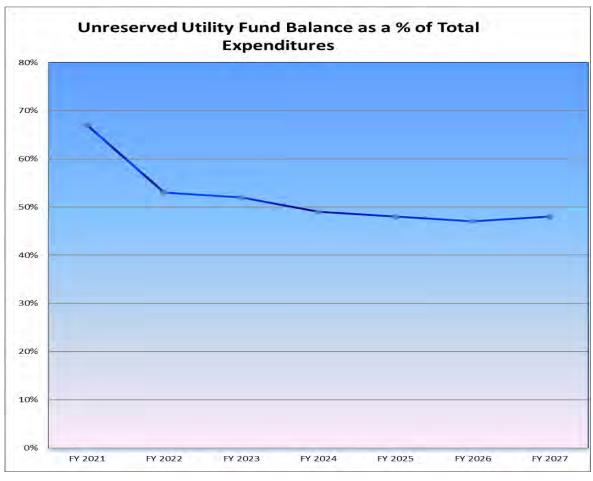

Trends in the General Fund revenues listed below, depict expenditures and reserves in the top graph, while Unreserved Fund Balance, as a percentage, is depicted in the bottom graph.

Trends in the Utility Fund revenues listed below, depict expenditures and reserves in the top graph, while Unreserved Fund Balance, as a percentage, is depicted in the bottom graph.

The District has a five-year Utility and General Fund Capital Improvement Plan (CIP). By planning for capital needs over a five-year period the District will be able to see what the upcoming needs are, and what resources will be available to meet those needs. The Capital Improvement Plan (CIP) is broken down into four categories; the General Fund Renewal and Replacement Fund, Utility Renewal and Replacement Fund, Water Connection Fee Fund, and Wastewater Connection Fee Fund during the five-year period. You will find a brief description, cost breakdown and source of funding for each of the projects identified in the FY 2023-2027 CIP Plan. The CIP worksheets contain projects that have been identified by the District office and Utility plant management teams. A significant number of these projects and related dollars have been identified as Utility Renewal & Replacement projects (approximately \$1,238,476). According to the Bond indenture, 5% of the previous year's revenues are required to be transferred to the R&R fund from the Revenue (operating) Fund to be spent for this purpose. Ultimately the additional requested funds come out of the Utilities Revenue Fund. The Utility Renewal and Replacement Fund reflects a fund balance over \$144,891 for FY 2023. The General Fund Renewal and Replacement Fund reflects \$304,825 in Stormwater improvement projects with a fund balance over \$206,673.

We are currently in the process of completing a Revenue Sufficiency Analysis. This study is very important to aid in the adoption of rate increases in the upcoming years. In order to be able to continue with the CIP effort, the District's Utility system may need to provide additional revenues to fund future projects.

I believe the Department Heads and Staff have tried to address the concerns of the Board and have been diligent in keeping expenditures down while providing quality service to the residents throughout the year. I would like to thank the Staff for all their hard work in addressing these major issues.

We respectfully submit the FY 2023 budget for your review and consideration.

Sincerely.

William Hayden

William Hayden District Manager

# ST. LUCIE WEST SERVICES DISTRICT GENERAL FUND BUDGET OVERVIEW

#### **Budget Discussion**

The budget is an annual process that involves the Board of Supervisors, the District Manager and staff, operations and billing personnel, engineers, and others. This process must first consider anticipated revenues we will receive from operations to determine the resources available to be budgeted. First claim on the resources will be the essential costs necessary for the proper operation and maintenance of the general fund operations. Any remaining funds may then be utilized for the capital improvement program and remaining needs.

In the Governmental Funds, separate accounting funds are set up for the bonded debt service and proceeds from bond issues. There are three such funds at St. Lucie West Services District. These three funds are shown on the last three pages of this budget. Separate assessments on the District property owners are assigned exclusively for the Water Management Benefit Series 2013 and the Cascades Series 2010 Debt Service Funds. The proceeds of these assessments can be used for no other purpose than the debt service of these two bond issues. In 2010 the District refunded the Water Management Benefit Series 2010 bond at a savings of \$16.00 per ERU per year through 2025 the total savings was \$6,208,920 and did not extend the term.

We have divided the general fund budget into two parts: the operating budget and the capital budget.

The capital budget is for infrastructure improvements, system expansion to handle customer growth, renewal and replacements, service extensions, additions, or extraordinary repairs. The addition of a Renewal and Replacement Fund will be utilized to fund these projects.

We anticipate finishing the current fiscal year with a deficit due to the new administration office. We are budgeting for a deficit in FY 2023 due in part to Capital Outlay purchases and transfer to R&R Fund for stormwater repairs. The General Fund for both FY 2022 and 2023 will have a fund balance exceeding \$1,800,000. This also means that the District will have sufficient cash flow to carry operating costs until the General Fund starts receiving revenue from the maintenance assessments in November and the Storm Water Fees from the City of Port St. Lucie in January.

Certain decisions, especially in the capital improvement program, made during the budget process have an impact which extends to multiple fiscal years and not only the year for which the budget is approved. In order to demonstrate this impact, five (5) year forecasts have been developed for each system for both the operating and capital budgets.

### **Assumptions Used in Preparing the Budget**

Inflation – The following inflationary rates are utilized; for the regular salaries line item the rate increased to 7.5 for FY 2023 and was based upon the change in the U.S. Bureau of Labor Statistics Consumer Price Index - All Urban Customers, U.S. City Average, Services, for most other line items, where applicable, a general inflationary rate of 2% is utilized. There are some

exceptions such as health insurance 10% this year, and liability insurance 2.0% this year for which national projections call for continuing increases. Energy costs are expected to grow at an inflation rate of 15.0% for FY 2023 as well.

Rate Adjustment – The Special Assessment rate of \$ 126.00 per ERU proposed within this year's budget for FY 2023 which reflects a \$20.00 per ERU increase over the FY 2022 Budget.

The ERU numbers are expected to remain the same in FY 2023. We expect revenues in most categories to remain the same per year for each of the next five years. Fiscal year 2023 reflects an increase but FY2023 and FY2024 reflects a \$10.00 per ERU increase in assessments and FY2025 thru FY 2026 reflect a \$20.00 per ERU increase in assessments.

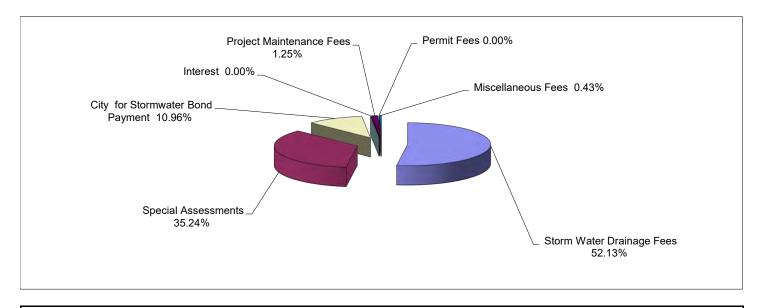

#### **Capital Improvement Program**

The capital improvement program has several items for your review. In a continuation of the previous years funding practices for capital items, we are proposing to pay for the capital items directly rather than financing the purchase over several years. The typical interest rates charged for lease financing are significant, and therefore the District can save a significant amount by purchasing the items. All equipment purchase will be paid for outright at the time of purchase.

A summary of the funding sources for all system capital projects budgeted in FY 2023 are as follows: The Aquatics Division is requesting the replacement of a Carolina Skiff Spray boat and trailer for \$15,000 The Administration Division is not requesting any capital expenditures this FY; The Exotic Plant Removal Division is requesting the replacement of one Kawasaki Mule for the price of \$12,000. The Stormwater Division is budgeting \$38,000 for two mowers. A 17 ft woods Right of way mower and a Zero Turn Mower. The Shop Division is requesting \$10,000 for a new tire balance machine which will be split with the utility fund 50/50. The General Fund Renewal and Replacement Fund Project is for emergency storm water projects in the amount of \$254,825. The total for the list of capital R&R items is \$254,825 in the General Fund for FY 2023 and will leave a fund balance of over \$218,000.

#### REVENUE SOURCES

St Lucie West Services District receives approximately 99% of their operating Revenues for the General Fund from the special assessment they levy on property owners and the transfer of storm drainage fees from the City of Port St Lucie.

#### **General Fund Revenues**

#### Permit Fees

Revenue received by the District Engineer for the review of preconstruction approval plans and specifications for facilities that are to become a part of the surface water management system owned and operated by the District.

#### Grant Revenue

Revenue received from Federal or State agencies for Grants. This revenue is circumstantial and must be applied for. In recent years the District has received Grant monies from such agencies such as FEMA which offered money for hurricane related expenses.

#### Miscellaneous Fees

This is a contingency line for any miscellaneous revenues received during the course of the year. This would include revenue received for the out-sourcing of the video ray system, vacon truck as well as the aquatic harvester.

#### Storm Water Drainage Fees

Revenue received from the City of Port St. Lucie for the assessment placed on property owners for the maintenance of the Storm Water Drainage system. Presently the District receives 75% of the total amount assessed on property owners of the District. District will receive additional funding from any increase that the City levies for additional funding. Currently at \$163.00 per ERU.

#### Project Maintenance Fees

Revenue received from the Water & Sewer fund for the landscaping maintenance on the property owned by the Water & Sewer fund.

#### Interest Revenue

This account reflects all interest earnings in all non-restricted cash accounts that belong to the General Fund.

#### Special Assessments

Non-advalorem tax revenue received from the property owners of the District for the maintenance and operational costs of the District. The special assessment fee proposed rate is \$126.00 per ERU.

#### Miscellaneous Income

This code is for revenue that does not qualify for any of the other revenue categories.

#### Storm Water Drainage Fees for Land Purchase Bond Payment

Revenue received from the City of Port St. Lucie for the assessment placed on property owners for the maintenance of the Storm Water Drainage system. Presently the District receives 75% of the total amount assessed on property owners of the District. District will receive additional funding \$400,000 for land purchase bond payment.

#### **OPERATING EXPENSE'S**

Operating expenses include the cost for personnel, materials, maintenance, service and equipment required for the general operations for the St Lucie West Services District.

#### **Board of Directors**

#### **Executive Salaries**

Salaries paid to the Board of Directors for their public service. Salaries are paid on a \$200 per board meeting, for a total maximum amount of \$4,800 per seat, per fiscal year. This expense is shared equally with the Water & Sewer fund.

#### FICA

This line includes the Districts portion of the social security and Medicare expense for Board Members of the District. The Federal rate for these combined expenses is 7.65% of total salaries.

#### **Board Meeting Expenses**

This includes expenses directly relating to board meetings, including location charges and/or any other charges incurred.

#### District Manager

#### Assessment Program

Charges for the Assessment program including placing the assessment on the tax rolls.

#### Operations & Maintenance Services

Includes expenses for general maintenance contracts for services. Such services are provided for special studies and operating maintenance by outside contractors.

#### Management Contract

Charges directly relating to the District Manager's service contract. The charge for FY 2023 is based on the Contract for the District Manager which is shared between the Water & Sewer Fund 50% and the General Fund 50%.

#### Travel & Per Diem

Charges billed directly from the SDS, Inc. or the District Manager for travel expenses as allowed by the contract for District Business. All charges are billed in accordance with Section 112.061, Florida Statutes.

#### **Finance**

#### Dissemination Agent

This line includes charges for a dissemination agent who prepares reports regarding the compliance with bond issues. Budget assumes no increase from previous year's expenses.

#### Arbitrage

This line includes charges relating to the annual arbitrage review relating to interest earned versus interest paid. Budget assumes a minor increase from previous year's expenses.

#### Accounting Services

This includes the contracted services for Financial Services with SDS, Inc. The expense is shared with the Water & Sewer Fund.

#### Auditing

This includes expenses that are incurred from the District's Annual Financial Audit as required by Florida Statutes. This amount is split between the Water & Sewer Fund and the General Fund, 56% and 44% respectively.

#### Banking Services

Charges for banking services such as bank service charges and trust account administration expenses.

#### Property & Casualty Insurance

This expense includes the annual insurance premium that provides protection for the Districts general liability, auto and property coverage. A minor increase is assumed for the FY2O23 Budget year. Coverage is from October 1 through September 30 each year.

#### Property Taxes & Assessments

Charges from St. Lucie County for placing the special assessments on the tax roll. Charge is equal to 2% of the total assessments placed on the tax roll and for 15% of the City of PSL Stormwater Special Assessment section of the Interlocal Agreement.

#### **Grant Management**

#### Contractual Services

Contractual services provided by a Grant Coordinator if needed.

#### Clerk to the Board

#### Other Contractual Services

Contractual services provided by SDS, Inc for the Board Clerk and records service provided. This expense is shared with the Water & Sewer Fund.

#### Postage & Freight

This line item includes postages charges that are invoiced from the Board Clerks office. These charges include postage charges for sending out regular mail and vendor checks.

#### Printing & Binding

Charges for printing and binding agendas, packages, audit reports and budget materials as well as copy charges for the normal daily work flow.

#### Legal Ads

Charges for legal ads posted in the local newspapers for notices of Board meetings and Public Hearings.

#### **General Counsel**

#### Legal Services

Legal fees associated with the District's Attorney. These fees include charges for regular legal business matters within the District.

#### **Special Counsel**

#### Legal Services

Legal fees associated with any labor matters the District may have. For the FY2023 budget this line item particularly refers to legal matters regarding labor issues.

#### **Engineering Services**

#### **Engineering Services**

Charges billed from the District Engineer office. These charges include Work Authorization preparation, Board meeting assistance as well as any other engineering expense relating to the General Fund activities.

#### **Pollution Control**

#### Regulatory & Permit Fees

The District is required to pay an annual fee for the regulatory permit for Pollution Control.

#### GENERAL FUND ADMINISTRATION DIVISION

#### Personnel Expenses

#### Regular Salaries

Includes Administration Division employee's basic salaries. The total budget is estimated using a tabulation of all approved positions, applying the appropriate increases and allowing a factor for unfilled vacancies. There are new positions for the FY2O23 as well as positions that have been discontinued. This year we are proposing to give a 7.5% increase to all employees based on the Bureau of Labor Statics CPL. This also reflects for license or certifications increases.

#### **Overtime**

This line includes overtime expenses.

#### FICA

This line includes the Districts portion of the social security and Medicare expense for Salaries of the District's employees. The Federal rate for these combined expenses is 7.65% of total salaries.

#### Retirement Contributions

After one year of employment the District provides a 9.0% contribution into a SEP IRA for all full-time employees. This compensation is paid on a monthly basis.

#### Health. Life and Dental Insurance

This includes health, life and dental insurance benefits provided to all employees of the District.

#### Workers Compensation

The District provides workers compensation to any employee who is injured while at work. Under the provisions of the Florida Workers Compensation law, a no-fault insurance plan which is supervised by the State of Florida, the District pays for 100% of these benefits.

#### Unemployment Compensation

The District is required to reimburse the Unemployment Compensation Fund for any unemployment claims paid on behalf of the District.

#### Uniforms

The District provides an allotted amount of uniforms and/or safety equipment for all District employees each year depending on their position.

#### Training, Cont. Education & Licensing

The District provides the employee with training opportunities in order to upgrade or obtain additional certifications. These certifications include all office related education, Computer programming, HR classes, and Microsoft Technology

#### Vehicle Allowance

The District provides for a vehicle allowance for certain positions instead of providing a vehicle and associated costs.

#### Annual PTO

The District provides personal leave and allows a maximum cash-out each year, this code covers the maximum exposure for each FY.

#### Cell Phone Stipend

The District provides optional cell phone stipend to all employees, this code covers the maximum exposure for each FY.

#### Administration (Operating)

#### Other Contractual Services

Charges for miscellaneous expenses relating to the repairs of office equipment, Air/conditioning service, Computer support, pest control and Security alarm repairs ECT.

#### Website Maintenance

The District will be looking into upgrading the current website with increased function for the budget year.

#### Water - Irrigation

This covers the expense of using irrigation water on District owned common ground areas and the District Utility and Maintenance site, including the Administration Building.

#### Telephone & Cell Services

These charges include the landline telephone service that is used in the District office as well as cellular phone services. District Staff will continue to look at alternatives in the 2023 budget year to reduce costs of communications.

#### Postage & Freight

This line item includes postages charges for the District.

#### Electricity Services

Includes electricity charges for grounds and signs as well as a split for the administrative building owned by the District.

#### Equipment Leasing

The District has one copier that is leased.

#### Administrative Maintenance

These charges include weekly cleaning of the District's buildings. This also includes extra services such as carpet cleaning and furniture upholstery.

#### Contingencies Hurricane

This account is allocated to fund any extraordinary expenses the District incurs relating to hurricane preparation and/or damages to District property for budget year 2023.

#### Office Supplies

Includes general supply charges for the operations of the Districts offices.

#### Fuel & Lubricants-Vehicles

Fuel purchased for all vehicles used in the General Fund. The FY2023 shows an increase of 20%.

#### Operating Supplies and Expenses

Supplies bought for products used by district employees such as soap, air fresheners, towels, etc. This would include any item not provided for by the Administrative Maintenance service provider.

#### Computer Software/Licensing

Charges for yearly software and/or licensing obligations for computer equipment and software used by the District.

#### Computer Hardware/Supplies

Charges that are expended for the purchase of new computer hardware and a new administration server.

#### Fuel & Lubricants-Equipment

Fuel purchased for all equipment used in the General Fund. Such equipment includes tractors, mowers, boats, and pumps. The FY-2023 Budget assumes a 20% increase.

#### Minor Construction Expenses

This includes miscellaneous repairs that are associated with the District Administration Building and Operations Center.

#### General Fund Administration Division - Capital Outlay

#### Equipment

This code is for equipment purchases such as vehicles and tractors over \$1,000. No other expenditures planned for this fiscal year

This code is for buildings or land purchases over \$1,000. No expenditures planned for this fiscal year.

#### Other

This code is for any other Capital purchases over \$1,000. No expenditures planned for this fiscal year.

#### **AQUATICS DIVISION**

#### **Aquatics Personnel**

Regular Salaries; Overtime; FICA; Retirement Contributions; Uniforms; Training & Education Expenses; Annual PTO and Cell Stipend

The above categories are the same as described in the Administration Budget

#### Aquatics Division (Operating)

#### Operations & Maintenance Services

Includes expenses for general maintenance contracts for services. Such services are provided for special studies and operating maintenance by outside contractors.

#### Disposal Fees

Charges incurred for the disposal of certain aquatic plant material.

#### Operating Supplies

General supplies for the day-to-day operations of the District. Includes supplies for the shop, exotic plant removal, aquatics division, and the storm water division.

#### Vehicle Maintenance, Equipment Maintenance, and Miscellaneous Expenses

The above categories are the same as described in the Administration Budget.

#### Chemicals

This includes all chemicals used for aquatic weed control herbicides, algaecides, Sonar.

#### Machinery & Equipment

The District staff is requesting some new machinery that is not considered a capital expense according to the Districts capital expenditure threshold. This includes new sprayers and backpack sprayers for use in aquatic weed control.

#### General Fund Aquatics Division - Capital Outlay

#### Equipment; Building; Other

One item for the year will be a replacement of the District Spray boat. 16 foot Carolina Skiff and trailer for the amount of \$15,000 in FY2023. No other expenditures planned for this fiscal year.

#### STORM WATER MAINTENANCE DIVISION

#### Storm Water Maintenance Personnel

Regular Salaries; Overtime; FICA; Retirement Contributions; Uniforms; Training & Education Expenses; Annual PTO and Cell Stipend
The above categories are the same as described in the Administration Budget

#### Storm Water Maintenance Division (Operating)

Operations & Maintenance Services, Disposal Fees, Operating Supplies, Chemicals, and Machinery & Equipment
The above categories are the same as described in the Aquatics Division Budget.

#### Laboratory Services

This line item includes laboratory services for test related to the stormwater ponds.

#### Storm Ditch Maintenance

This line item includes heavy mechanical cleaning of ditches, Lake bank repairs, and major storm water pipe conveyance repairs.

#### Landscape Materials

This line item includes plant material for stormwater banks and preserves and improved landscaped areas owned by the District.

#### Vehicle Maintenance, Equipment Maintenance, Miscellaneous Expenses, and Electricity Services

The above categories are the same as described in the Administration Budget.

#### General Fund Storm Water Division - Capital Outlay

#### Equipment; Building; Other

The replacement of a zero turn mower for \$14,000 and a replacement of a Woods 17 foot pull behind finish mower for \$24,000 for 2023 No other expenditures planned for this fiscal year.

#### EXOTIC PLANT REMOVAL DIVISION

#### **Exotic Plant Removal Personnel**

Regular Salaries; Overtime; FICA; Retirement Contributions; Uniforms; Training & Education Expenses; Annual PTO and Cell Stipend

The above categories are the same as described in the Administration Budget

#### Exotic Plant Removal Division (Operating)

#### Operations & Maintenance Services, Disposal Fees, Operating Supplies, Chemicals, and Vehicle Maintenance,

The above categories are the same as described in the Stormwater Division Budget.

#### Maintenance Contract

The Line item is for the contracting of an outside contractor or Department of Corrections to support District staff in the removal of exotic plant material from District owned Wetlands & Buffers. Will enhance the frequency of maintenance to the Wetlands Buffers REMOVE

#### General Fund Exotic Plant Removal Division - Capital Outlay

#### Equipment; Building; Other

The single piece of equipment required for replacement for the EPR Division will be a Kawasaki Mule in FY2023 and no other expenditures planned for this fiscal year.

#### SHOP OPERATION DIVISION

#### **Shop Operational Personnel**

Regular Salaries; Overtime; FICA; Retirement Contributions; Uniforms; Training & Education Expenses; Annual PTO and Cell Stipend
The above categories are the same as described in the Administration Budget

#### **Shop Operations Division (Operating)**

#### Operations & Maintenance Services, Disposal Fees, Operating Supplies, and Vehicle Maintenance

The above categories are the same as described in the Stormwater Division Budget.

#### General Fund Shop Operations Division - Capital Outlay

#### Equipment; Building; Other

The Shop division will require a new Tire Balancing machine at the cost of \$10,000 which will be a 50/50 split with utilities. No other expenditures planned for this fiscal year.

#### General Fund Renewal & Replacement Fund

The line item is for Storm Water Renewal and Replacement Fund recommending 5% of the Maintenance Special Assessments Revenue for emergency repairs related to the storm water infrastructure and planned Capital Improvement Projects which were not captured in the Water Management Bond.

Emergency Stormwater Repairs: \$ 254,825

### ST. LUCIE WEST SERVICES DISTRICT

#### WATER AND SEWER FUND BUDGET OVERVIEW

#### **Budget Discussion**

The budget is an annual process that involves the Board of Supervisors, District Manager and staff, operations and billing personnel, engineers, rate consultant and others. This process must first consider anticipated revenues we will receive from operations so as to determine the resources available to be budgeted. First claim on the resources will be the essential costs necessary for the proper operation and maintenance of the utility operations. The next priority must be to fund those areas necessary to satisfy the requirements of the revenue bonds issued to build and improve the water and sewer systems. Any remaining funds may then be utilized for the capital improvement program and remaining needs.

We have divided the budget into two parts: the operating budget, which includes the Debt Service Requirements and the capital improvement budget. The operating budget includes routine operating expenditures. The capital budget is for infrastructure improvements, system expansion to handle customer growth, renewal and replacements, service extensions and additions or extraordinary repairs.

Certain decisions, especially in the capital improvement program, made during the budget process have an impact that extends to multiple fiscal years and not only the year in which the Board approves the budget. In order to demonstrate this impact, we have developed five (5) year forecasts for both the operating and capital budgets.

We anticipate finishing FY 2022 with a deficit due in part to the elevated costs with inflation and increased costs due to availability. The Proposed Budget for FY 2023 reflects a 5.0% Rate Increase. The Proposed Budget for FY 2023 anticipates a deficit due to several major projects.

#### Assumptions Used in Preparing the Budget

Inflation – The following inflationary rates are utilized; for the regular salaries line item the rate increased to 7.5% for FY 2023 and was based upon the change in the U.S. Bureau of Labor Statistics Consumer Price Index - All Urban Customers, U.S. City Average, Services, for most other line items, where applicable, a general inflationary rate of 2% is utilized. There are some exceptions such as health insurance 10% this year, and liability insurance 9.45% this year for which national projections call for continuing increases. Energy costs are expected to grow at an inflation rate of 15.0% as well.

<u>Rate Adjustment</u> – There is a 5.0 % rate increase planned for FY 2023 in this budget based on the current factors. The Rate Stabilization Fund balance is expected to exceed \$646,405 for FY2023.

#### **Operating Improvements**

This budget includes a few small dollar cost improvements. We are continuing the funding of the water conservation effort with customers by providing rebate on items such as low flow toilets and low flow shower heads. This program will be funded at an annual amount of \$12,000 and is designed to encourage water conservation.

We are also taking efforts to improve customer service and billing for the utility, an item in the District's Strategic Plan. The District will continue to conduct training sessions for customer service.

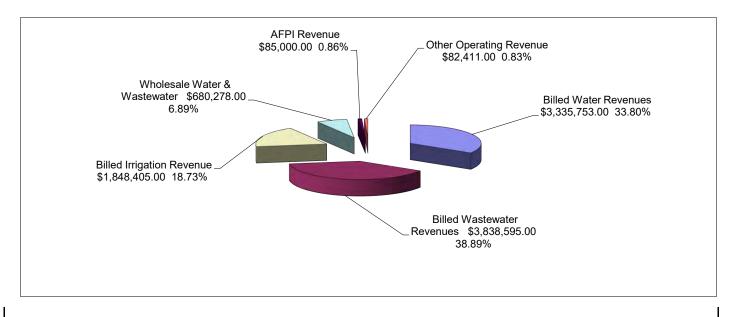

#### **Capital Improvement Program**

The capital improvement program has several items for your review, a total cost in FY 2023 of \$1,358,062. In a continuation of a change started in FY 2006, we are proposing to continue to pay for the capital items directly rather than financing the purchase over several years. The typical interest rates charged for lease financing are significant, and therefore the District can save a significant amount by purchasing these items rather than leasing them. The Renewal and Replacement Fund Budget is \$1,116,633; the Water Connection Fee Budget is \$700,000; the Wastewater Connection Fee Budget is \$0 and the Capital Outlay Budget is \$137,500 for FY 2023.

Major capital projects contained in the capital budget for FY 2023 include the continuation of the Lift Station Renewal and Replacement project at \$215,833, Emergency Renewal and Replacement Projects at \$224,400, The Water Connection Fee Fund has one project planned for FY2023 the water treatment plant clear well/transfer pumps expansion project estimated at \$700,000. The Capital Outlay Budget for the Utility Fund is proposing the replacement of vehicles and equipment all totaling for \$137.500.

#### REVENUE SOURCES

St Lucie West Services District receives approximately 73.52% of their operating Revenues from the sale of water and wastewater service. Another 18.73% of the operating revenue is received from irrigation services. The FY 2023 Budget assumes a 5.0 % rate increase to all utility rates.

#### Water & Sewer Revenue

#### Billed Water Revenue

Revenue billed for potable water services. The water revenue budget assumes a 0.0% increase in total customers (ERU's) and no rate increase.

#### Billed Wastewater Revenue

Revenue billed for the wastewater services. The wastewater revenue budget assumes a 0.0 increase in total customers (ERU's) and no rate increase.

#### Irrigation Revenue

Revenue billed for the irrigation services. The irrigation revenue budget assumes a minor increase in total customers and no rate increase.

#### Late Fee Revenue

Late fees are charges assessed on customer accounts due to late payment of the customer's utility bills. The budget for FY 2023 is based on historical revenues, however using a conservative assumption for the budget year.

#### Miscellaneous Fees

Miscellaneous revenues that the Utility receives. The budget for FY 2023 is based on historical revenues, however using a conservative assumption for the budget year.

#### Wholesale Water/Wastewater Revenue

Revenue received from the sale of wholesale water and wastewater services. At times the District may choose to enter into an agreement with an organization to sell wholesale water at wholesale prices. Currently the District has an agreement with the Reserve CDD for the purchase of wholesale water and wastewater. The gallonage (commodity) charge is equal to eighty percent (80%) of the retail water and sewer service rate (per 1,000 gallons) in effect at the time of payment.

#### Meter Set Fees

Revenue received for the setting of new meters.

#### Interest Revenue - Operating Revenues

This account reflects all interest earnings in all non-restricted cash accounts that belong to the Water & Sewer Fund.

#### Rate Stabilization Fund - Operating Revenues

This revenue is funded from available unrestricted operating reserves from previous FY's.

#### Backflow Prevention Program - Operating Revenues

This revenue is for water backflow prevention testing performed by contractors who have been preapproved for this program.

#### Tanker Truck Water Service - Operating Revenues

This revenue is for water provided to water tanker trucks such-as pest control, fertilizer companies and contractors.

#### Water & Wastewater Connection Fees (AFPI Portion)

The Allowance for Funds Prudently Invested (AFPI) charge is the unrestricted portion of the Water & Wastewater Connection Fees that is used to recover the fixed operating, maintenance, and replacement costs and associated financing charges for those customers requiring service subsequent to the construction of the Water and Wastewater facilities by the District.

#### Capital Fund Revenues

#### Water & Wastewater Connection Fees

Fees collected from the district to acquire, construct, equip or expand the capacity of the Water & Wastewater facilities of the Utility System for the purpose of paying or reimbursing the equitable share of the capital costs relating to such acquisition, construction, expansion, or equipping of unused capacity of the Water and Wastewater facilities of the utility system and new developments within the service area of the utility system. Such fees may include interest carrying costs associated with the water and wastewater facilities of the utility system.

#### **OPERATING EXPENSE'S**

Operating expenses include the cost for personnel, materials, maintenance, service and equipment required for the Water & Sewer Utility to Function. They include expenses directly related to the Utility service activities.

#### **Board of Directors**

#### **Executive Salaries**

Salaries paid to the Board of Directors for their public service. Salaries are paid on a \$200 per board meeting, for a total maximum amount of \$4,800 per seat, per fiscal year. This expense is shared equally with the General Fund.

#### FICA

This line includes the Districts portion of the social security and Medicare expense for Salaries of the Board of Supervisors. The Federal rate for these combined expenses is 7.65% of total salaries.

#### **Board Meeting Expenses**

This includes expenses directly relating to board meetings.

#### District Manager

#### Management Contract

Charges directly relating to the District Manager's service contract. The charge for FY 2023 is based on the Contract for the District Manager which is shared between the Water & Sewer Fund 50% and the General Fund 50%.

#### Travel & Per Diem

Charges billed directly from SDS, Inc. or the District Manager for travel expenses as allowed by the contract for District Business. All charges are billed in accordance with Section 112.061. Florida Statutes.

#### Finance

#### Dissemination Agent

This line includes charges for a dissemination agent who prepares reports regarding the compliance with bond issues.

#### Arbitrage

This line includes charges relating to the annual arbitrage review relating to interest earned versus interest paid.

#### Accounting Services

This includes the contracted services for Financial Services with SDS, Inc. The FY 2023 budget assumes a 1.5% increase from the previous year per the contract with SDS.

#### Auditing

This includes expenses that are incurred from the Districts Annual Financial Audit as required by Florida Statutes. This amount is split between the Water & Sewer Fund and the General Fund, 56% and 44% respectively.

#### **Banking Services**

Charges for banking services such as bank service charges and trust account administration expenses.

#### Property & Casualty Insurance

This expense includes the annual insurance premium that provides protection for the Districts general liability, auto and property coverage. The agent has been asked to provide and estimate of total premiums for FY 2023. Coverage is from October 1 through September 30 each year.

#### **Bad Debt**

This expense is an expense that is assessed upon accounts receivable accounts that are expected to be written off due to nonpayment.

#### **Property Control**

#### Building & Land Rental

Charges for the storage rental space.

#### Computer Software/Licensing

Charges for yearly software and/or licensing obligations for computer equipment used for the utility.

#### Computer Hardware/Supplies

This line item includes new and replacement computer hardware and supplies.

#### **Utility Rate Consultant**

#### Other Contractual Services

Contractual services provided by PRMG for the Revenue Sufficiency Analysis Update.

#### Clerk to the Board

#### Other Contractual Services

Contractual services provided by SDS, Inc for the Board Clerk and records service provided. This expense is shared 60% to 40% with the General Fund.

#### Postage & Freight

This line item includes postages charges that are invoiced from the district management office. These charges include postage charges for sending out regular mail, packages and vendor checks.

#### Printing & Binding

Charges for printing and binding agendas, packages, audit reports and budget materials as well as copy charges for the normal daily work-flow.

#### Legal Ads

Charges for legal ads posted in the local newspapers for notices of Board meetings and Public Hearings.

#### **General Counsel**

#### Legal Services

Legal fees associated with the District's Attorney. These fees include charges for regular legal business matters within the District.

#### Special Counsel

#### Legal Services

Legal fees associated with any special legal matters the District may have. For the FY 2023 budget this line item includes legal matters regarding Human Resources matters.

#### **Engineering Services**

#### **Engineering Services**

Charges billed from the District Engineer office. These charges include any general engineering services or Work Authorization preparation that directly relates to the Utility. The engineer is paid for actual hours for services delivered.

#### **WATER & SEWER FUND ADMINISTRATION DIVISION**

#### Water & Sewer Administration Division - Personnel

#### Regular Salaries

Includes Administration Division employee's basic salaries. The total budget is estimated using a tabulation of all approved positions, applying the appropriate increases and allowing a factor for unfilled vacancies. This year we are proposing to give a 7.5% increase to all employees based on the Bureau of Labor Statics CPI. This also reflects for license or certifications increases.

#### **Overtime**

This description is the same for all Division in the Utilities Department: This line includes departmental overtime expenses.

#### FICA

This description is the same for all Division in the Utilities Department: This line includes the Districts portion of the social security and Medicare expense for Salaries of the District's employees. The Federal rate for these combined expenses is 7.65% of total salaries.

#### Retirement Contributions

This description is the same for all Division in the Utilities Department: After one year of employment the District provides a 9% contribution into a SEP IRA for all full-time employees. This contribution is paid on a monthly basis.

#### Health/Life/Dental Insurance

This includes health, life and dental insurance benefits provided to all employees of the District. The proposed increase is 10% for FY 2023.

#### Workers Compensation

The District provides workers compensation to any employee who is injured while at work. Under the provisions of the Florida Workers Compensation law, a no-fault insurance plan which is supervised by the State of Florida, the District pays for 100% of these benefits.

#### Unemployment Compensation

The District is required to reimburse the Unemployment Compensation Fund for any unemployment claims paid on behalf of the District.

#### Uniforms

This description is the same for all Division in the Utilities Department: The District provides an allotted amount of uniforms and/or safety equipment for all District employees each year depending on their position.

#### Training & Education Expenses

This description is the same for all Division in the Utilities Department: The District pays for employees to obtain and upgrade certifications and licenses. In some cases, the employee may need to travel to attend these classes or training courses. The district pays the employee travel and per diem according to Section 112.061, Florida Statutes.

#### Vehicle Allowance

The District provides for a vehicle allowance for certain positions instead of providing a vehicle and associated costs.

#### Annual PTO

The District provides personal leave and allows a maximum cash-out each year, this code covers the maximum exposure for each FY.

#### Cell Phone Stipend

The District provides optional cell phone stipend to all employees, this code covers the maximum exposure for each FY.

#### Water & Sewer Administration Division - Operating

#### Other Contractual Services

This description is the same for all Division in the Utilities Department: Includes charges associated with service contracts related to the Administration Division such as office equipment repairs, computer support, Air conditioning services, Security alarm repairs, pest control, Utility Billing Program, Credit Card Program for billing, Bill mail-out services, Vehicle GPS monitoring, Trash contract, and janitorial contracts.

#### Website Maintenance

This description is for website maintenance and hosting for the budget year 2023.

#### **Operating Supplies**

This description is the same for all Division in the Utilities Department: Includes general supplies for the use and operation of the Administration Division.

#### Storm Water Fees

Storm water fees the District pays to the City of Port St Lucie and SLWSD General Fund for their share of Storm Water Maintenance Fees for the land owned and operated by the utility.

#### Telephone & Cell Services

These charges include the landline telephone service that is used in the District office as well as cellular phone services for all Utility Divisions.

#### Postage & Freight

This line item includes postage charges that are used primarily for the utility billing cycle as well as notices sent to residents regarding utility matters.

#### Equipment Leasing

Charges for leasing equipment which is used for Utility activities. Currently the District has one leased copier.

#### Administrative Maintenance

This description is the same for all Division in the Utilities Department: This line includes charges for normal maintenance of the District's vehicles used by the Utility. Maintenance is done on a regular basis to provide the longest life possible to the vehicles owned and operated by the district. This provides for decreased total life cycle costs.

#### Contingency - Hurricane

This account is allocated to fund any extraordinary expenses the District incurs relating to hurricane preparation and/or damages to the Utility property.

#### Office Supplies

Includes general supply charges for the operations of the Districts offices and billing functions.

#### Fuel & Lubricants-Vehicles

Fuel purchased for all vehicles used in the Utility Division.

#### Fuel & Lubricants-Equipment

Fuel purchased for all equipment used in the Utility Division.

#### Minor Construction Expenses

This includes miscellaneous minor construction projects that do not meet the Districts threshold to be considered capital items.

#### Project Maintenance Fees

This includes project maintenance fees associated with lawn maintenance for the Utilities Division paid to the General Fund.

#### Contingency

This code was recommended by the Rate Consultant for unexpected expenses. This is 1.5% of the operating expenses minus the Capital Outlay.

#### **Electricity Services**

This description is the same for all Division in the Utilities Department: Includes electricity charges for the administration building which is split with the General Fund.

#### Water & Sewer Administration Division - Capital Outlay

#### Equipment

This description is the same for all Division in the Utilities Department: This code is for equipment purchases such as vehicles and tractors over \$1,000. No expenditures planned for this fiscal year.

#### Building

This description is the same for all Division in the Utilities Department: This code is for buildings or land purchases over \$1,000. Ongoing project FY22 of \$40,000 for the removal of the old concentrate tank and build a storage building which will be shared with the Water Treatment Plant. No other expenditures planned for FY23.

#### Other

This description is the same for all Division in the Utilities Department: This code is for any other Capital purchases over \$1,000. No expenditures planned for this fiscal year.

#### WATER TREATMENT PLANT DIVISION

#### Water Treatment Plant Division - Personnel

Regular Salaries; Overtime; FICA; Retirement Contributions; Uniforms; Training & Education Expenses; Annual PTO and Cell Stipend
The above categories are the same as described in the Administration Budget except for one new operators position amended for this FY to
assist in shift coverage.

#### Water Treatment Plant Division - Operating

#### Other Contractual Services; Operating Supplies; Electricity Services;

The above categories are the same as described in the Administration Budget

#### Operations & Maintenance Services

Charges for repairs on water treatment plant pipes and pump maintenance.

#### Laboratory Services

Includes charges for the water treatment plant laboratory testing, injection well testing, lead & copper testing, and others as required by permits.

#### Plant Maintenance

This line captures charges for normal maintenance for the water treatment plant. By performing normal maintenance inline with maintenance schedules, it provides a longer useful life for the utility plant assets.

#### Chemicals

This line includes any chemical purchases for the water treatment plant.

#### Water Conservation Grant Program

This line includes the allotment of rebate credits on utility bills on items such as low flow toilets and low flow shower heads. This program is designed to encourage water conservation.

#### Backflow Prevention Program

This line is for water backflow prevention testing performed by contractors who have been preapproved for this program and will assist in 100% compliance to the rule.

#### Water Treatment Plant Division - Capital Outlay

#### Equipment; Building; Other

The above categories are the same as described in the Administration Budget. Ongoing project FY22 of \$40,000 for the removal of the old concentrate tank and build a storage building which will be shared with the Administration Building. No other expenditures planned for FY23.

#### **WASTEWATER TREATMENT PLANT DIVISION**

#### Wastewater Treatment Plant Division - Personnel

Regular Salaries; Overtime; FICA; Retirement Contributions; Uniforms; Training & Education Expenses; Annual PTO and Cell Stipend
The above categories are the same as described in the Administration Budget

#### Wastewater Treatment Plant Division - Operating

Other Contractual Services; Operating Supplies; Electricity Services; Operations & Maintenance Services; Laboratory Services; Plant Maintenance; Chemicals

The above categories are the same as described in the Administration Budget and Water Treatment Plant Division.

#### Sludge Disposal

Charges for the dewatering, hauling and disposal of the sludge from the wastewater plant.

#### Wastewater Treatment Plant Division - Capital Outlay

#### Equipment; Building; Other

The above categories are the same as described in the Administration Budget. No other expenditures planned for this fiscal year.

#### UNDERGROUND UTILITIES DIVISION

#### **Underground Utilities Division - Personnel**

Regular Salaries; Overtime; FICA; Retirement Contributions; Uniforms; Training & Education Expenses; Annual PTO and Cell Stipend The above categories are the same as described in the Administration Budget. Open UGU Services Worker Trainee Position to be replaced with New Position, Field Operations Foreman.

#### **Underground Utilities Division - Operating**

Other Contractual Services; Operating Supplies; Electricity Services; Vehicle Maintenance; Operations & Maintenance Services; The above categories are the same as described in the Administration Budget and Water Treatment Plant Division.

#### Lift Station Maintenance

This line captures charges for normal maintenance for the Underground Utilities Division. By performing normal maintenance inline with maintenance schedules, it provides a longer useful life for underground utilities assets.

#### Water & Sewer Underground Utilities Division - Capital Outlay

#### Equipment; Building; Other

The above categories are the same as described in the Administration Budget. No other expenditures planned for this FY.

#### New Meters

This code was recommended by the rate consultant to track the purchase of new meters for new construction.

#### IRRIGATION DIVISION

#### Irrigation Division - Personnel

Regular Salaries; Overtime; FICA; Retirement Contributions; Uniforms; Training & Education Expenses; Annual PTO and Cell Stipend
The above categories are the same as described in the Administration Budget

#### Irrigation Division - Operating

Other Contractual Services; Operating Supplies; Electricity Services; Vehicle Maintenance; Operations & Maintenance Services; Laboratory Services; Plant Maintenance; Chemicals

The above categories are the same as described in the Administration Budget and Water Treatment Plant Division.

#### Maintenance Irrigation

Includes charges for maintenance to irrigation pump stations as well as irrigation breaks on District property.

#### Water & Sewer Irrigation Division - Capital Outlay

#### Equipment; Building; Other

The above categories are the same as described in the Administration Budget. No other expenditures planned for this fiscal year.

#### SHOP & MAINTENANCE DIVISION

Shop & Maintenance Division - Personnel

Regular Salaries; Overtime; FICA; Retirement Contributions; Uniforms; Training & Education Expenses; Annual PTO and Cell Stipend
The above categories are the same as described in the Administration Budget

#### Shop & Maintenance Division - Operating

Operations & Maintenance Services, Disposal Fees, Operating Supplies, and Vehicle Maintenance
The above categories are the same as described in the Stormwater Division Budget.

#### Water & Sewer Shop & Maintenance - Capital Outlay

#### Equipment; Building; Other

The above categories are the same as described in the Administration Budget. Plan \$20,000 for the Workshop Equipment and Building Materials for Utility Shop Division. No other expenditures planned for this fiscal year.

The Total Operating Expenses are projected to be \$6,801,599 for FY 2023.

#### Non-Operating Expenses

#### Principal 2013 Bond Issue

According to the Bond Documents the district is required to make an annual Principal payment on the 2013 bonds outstanding.

#### Interest 2013 Band issue

This line includes the semiannual interest fees the district is required to pay on the 2013 utility bonds outstanding. The increase is due to a condition of the bond that if the corporate tax decreased it would trigger an automatic increase to the bond interest rate which is still lower than when the bonds were refinanced.

#### Principal 2011 Bond Issue

According to the Bond Documents the district is required to make an annual Principal payment on the 2011 bonds outstanding.

#### Interest 2011 Band issue

This line includes the semiannual interest fees the district is required to pay on the 2011 utility bonds outstanding. The increase is due to a condition of the bond that if the corporate tax decreased it would trigger an automatic increase to the bond interest rate which is still lower than when the bonds were refinanced.

#### Principal 2004 Bond Issue Refunded for the 2014 Bond

According to the Bond Documents the district is required to make an annual Principal payment on the 2004 bonds outstanding.

#### Interest 2004 Band issue Refunded for the 2014 Band

This line includes the semiannual interest fees the district is required to pay on the 2004 utility bonds outstanding. The decrease is due to restructuring of the bond in November of 2018 which lowered the rate for the duration of the bond saving close to \$90,000 per year.

#### Rate Stabilization

This expense code transfers funds from available unrestricted operating reserves to the Rate Stabilization Fund and the balance is up to \$646,405. There is no transfer scheduled for 2023 FY.

#### Renewal & Replacement Transfer to Capital

This allocation captures the 5% minimum funding requirement to the Renewal & Replacement fund which is \$481,267 for 2023FY and an additional \$200,000 to fund the proposed capital expenditure items for future projects.

#### NOTICE OF PUBLIC HEARING TO CONSIDER THE ADOPTION OF THE PROPOSED FISCAL YEAR 2023 BUDGET FOR THE ST. LUCIE WEST SERVICES DISTRICT

The Board of Supervisors of the St. Lucie West Services District ("District") will hold a Public Hearing on Tuesday, August 30, 2022 at 9:00 a.m., at the offices of the District located at 450 SW Utility Drive, Port St. Lucie, Florida 34986, for the purpose of hearing public comment and objections to the adoption pursuant to Section 190.008(2)(a), Florida Statutes, of the proposed Fiscal Year 2023 Budget for the District. If adopted, the proposed Budget shall become effective October 1, 2022.

A copy of the proposed Budget may be obtained from the District's website (<a href="www.slwsd.org">www.slwsd.org</a>) or at the District Office, 450 SW Utility Drive, Port St. Lucie, Florida. There may be occasions when one or more members of the Board of Supervisors will participate by telephone. In such event, there will be present a speaker telephone so that any interested person can attend the meeting and be fully informed of discussions by all Board Members.

Each person who decides to appeal any decision made by the Board with respect to any matter considered at the meeting is advised that the person will need a record of the proceedings and that accordingly, the person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which such appeal is to be based.

In accordance with the provisions of the Americans with Disabilities Act, any person requiring special accommodations or an interpreter to participate at the meeting should contact the District management at (561) 630-4922 and/or toll-free at 1-877-737-4922 at least seven (7) days prior to the date of the meeting.

William Hayden, District Manager ST LUCIE WEST SERVICES DISTRICT

### State of Florida Department of Environmental Protection

#### Notice of Draft Permit

The Department of Environmental Protection hereby provides notice of a draft Underground Injection Control (UIC) permit for the proposed project as detailed in the application. The applicant, St. Lucie West Services District, Joshua C. Miller, Utilities Director, 452 SW Utility Drive, Port St. Lucie, Florida 34986 applied on March 5, 2021, for a permit to operate a Class I injection well. The project is located at the St. Lucie West Services District Water Treatment Plant (WTP), 450 SW Utility Drive, Port St. Lucie, Florida 34986, in St. Lucie County (File No. 206302-005-UO/1X, WACS ID No. 94184).

The facility will operate one, non-hazardous Class I injection well (IW-1) for the disposal of demineralized water concentrate generated by the St. Lucie West Services District Water Treatment Plant (WTP) reverse osmosis treatment process. The source water for the WTP reverse osmosis operation is the Floridan aquifer. The concentrate waste stream has a total dissolved solids concentration of approximately 18,000 milligrams per liter. IW-1 is constructed with a 12¾-inch casing set to 2,695 feet below land surface (bls), a 7½-inch tubing set to 2,689 feet bls with a fluid-filled annulus, and total drilled depth of 3,295 feet bls. The maximum permitted injection rate for IW-1 shall be 903 gallons per minute and the maximum permitted injection volume for IW-1 shall be 1.3 million gallons per day. This injection well is monitored by dual-zone monitor well (DZMW-1); which, is completed with an upper monitor zone from 1,614 to 1,664 feet bls and a lower monitor zone from 1,900 to 1,950 feet bls.

The Department has permitting jurisdiction under Chapter 403 of the Florida Statutes (F.S.) and the rules adopted thereunder. The project is not exempt from permitting procedures. The Department has determined that an Underground Injection Control permit is required for the proposed work.

Any interested person may submit written comments on the draft permit and may request a public meeting within 30 days after publication of this public notice. A request for a public meeting shall be submitted in writing and shall state the nature of the issues proposed to be raised in the meeting. If a public meeting is later scheduled, there will be another 30-day notice period for that meeting. Written comments or a public meeting request shall be submitted to the Department of Environmental Protection, Aquifer Protection Program, 2600 Blair Stone Road, MS 3530, Tallahassee, Florida 32399-2400, which is the office processing this permit application. All comments received within the 30-day period will be considered in formulation of the Department's final decision regarding permit issuance.

The files associated with this order are available for public inspection during normal business hours, 8 a.m. to 5 p.m., Monday through Friday (except state holidays) at the Department of Environmental Protection, Aquifer Protection Program, and at the Department of Environmental Protection, Southeast District, 3301 Gun Club Road, MSC 7210-1 West Palm Beach, Florida 33406. Any additional information concerning this project may be obtained by contacting Annette G. Roberts, Engineering Specialist III, at 850-245-8576.

## St. Lucie West Services District Newsletter Volume 18 ◆ July 2022

#### TO OUR VALUED CUSTOMERS,

St. Lucie West Services District (District) provides this newsletter to keep our customers aware of any upcoming projects, ongoing project updates, district accomplishments, and any important messages.

The District's Board of Supervisors and Staff are committed to providing quality service!

#### THE CURRENT OFFICERS FOR THE BOARD OF SUPERVISORS

Chairman: Vincent D'Amico
 Vice Chairman: Gregg Ney
 Secretary: Jack Doughney, III
 Alternate Secretary: Dominick Graci
 Alternate Secretary: Viorel Mocuta

#### Rates:

• There has not been a utility rate increase since fiscal year 2010 (FY10). The proposed budget for FY23 will reflect a 5.0% rate increase.

#### Non-Ad Valorem (Special) Assessment for FY23:

- The Benefit Special Assessment for the Water Management System (Bond) remains at \$194.00 per Equivalent Residential Unit (ERU).
- The Maintenance Special Assessment to maintain and preserve the facilities and projects will increase to \$126.00 per (ERU).

#### **District Projects:**

- To be completed FY2022:
  - Post Office ditch project
  - ➤ 24" Water Main Bypass Project
  - WWTF Sand Filter Replacement Project
- To be completed FY2023:
  - Lake Charles Pump Station Improvements

#### **Hurricane Season:**

- Be safe and plan during this hurricane season (June November)
- For valuable information, please visit the City of Port St. Lucie's website at:

https://www.cityofpsl.com/government/departments/emergency-management/hurricanes-and-storms

### St. Lucie West Services District

### **Board Agenda Item** Tuesday June 7, 2022

### **Item**

### CA 4 Monthly Reports on Billing and Customer Service

### **Summary**

This report is provided for your review and information as an update on the monthly Billing and Customer Service Operations.

The following are the totals from the accounts receivable reports.

1. Actual Consumption

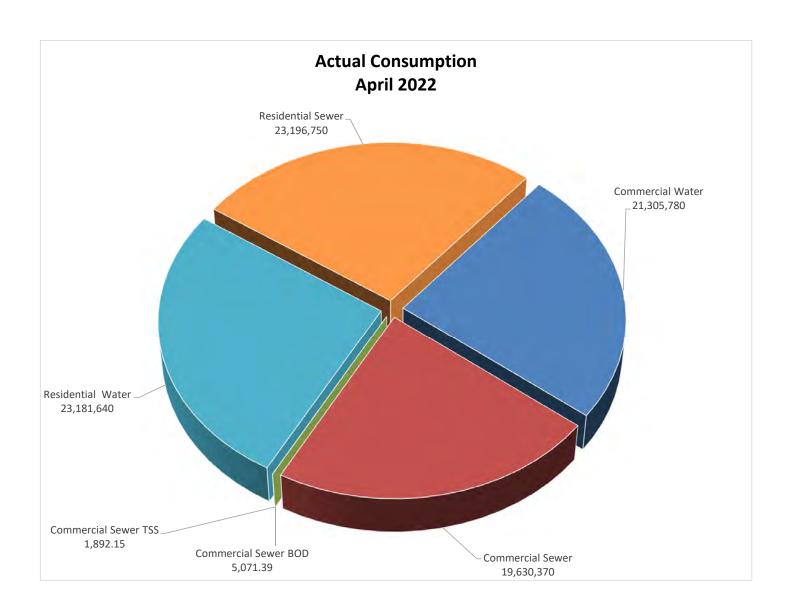

Water	44,487,420	Gallons
Sewer	42,827,120	Gallons
Sewer BOD	5,071.39	Gallons
Sewer TSS	1,892.15	Gallons

2. Amount Billed

Total Water	\$288,958.78
Total Sewer	\$333,706.72
Total Irrigation	\$151,449.15

3. Billing

Total Water	6,811
Total Sewer	6,753
Total Irrigation	6.443

### Actual Consumption April

Commercial Water	Commercial Sewer	Commercial Sewer BOD	Commercial Sewer TSS
21,305,780	19,630,370	5,071.39	1,892.15

Residential Water	Residential Sewer
23,181,640	23,196,750

### St. Lucie West Services District

### **Board Agenda Item** Tuesday, June 7, 2022

Tuesday, June 7, 2022	
Item	
CA 6 Consider Approval to Transfer Funds for the R&R Account, WCF Account and WMB Account	
Summary	
Attached for your review and approval is a request to transfer funds from the Rene Replacement Account (R&R), the Water Connection Fee Account (WCF) and WM expenses that are previously budgeted project-related expenses for FY 2022 and hav previously approved by the Board to be funded from one of the afore mentioned accounts.	/IB fo
All of the expenditures are appropriate for payment from the R&R Account Fund a WCF Account Fund. All expenditures are in compliance with the District's policy the cost exceeds the capitalization threshold for Fixed Assets.	
• \$2,838.00 – Renewal & Replacement Account	
• \$992.93 – Water Connection Fee Account	
• \$2,484.00 – WMB	
All Invoices for this requisition are attached for your review.	
Recommendation	
Staff recommends Board approval to transfer funds from the R&R Account for \$2, WCF Account for \$992.93 and the WMB Account for \$2,484.00 to the Public Fund Cl account for reimbursement for payments made that have been budgeted to be funded account.	necking
Budget Impact	
None.

### ST. LUCIE WEST SERVICES DISTRICT REQUISITION FOR PAYMENT RENEWAL & REPLACEMENT TRUST ACCOUNT

The undersigned, an Authorized Officer of St. Lucie West Services District (the "District") hereby submits the following requisition for disbursement under and pursuant to the terms of the Indenture of Trust from the District to US Bank, as trustee (the "Trustee"), dated as of February 1, 2000 (the "Indenture") (all capitalized terms used herein shall have the meaning as such term in the Indenture):

(A) Requisition Number:

2022-14

(B) Name of Payee:

St. Lucie West Services District, Water & Sewer Checking Account Truist Account # 1000144367918

(C) Amount Payable:

\$2,838.00

(D) Purpose for which paid or incurred (refer also to specific contract if amount is due and payable pursuant to a contract involving progress payments, or, state Costs of issuance, if applicable):

Per attached letter and invoices; all of these expenditures are for renewal and replacement projects where the costs exceeds the capitalization threshold for fixed assets held by the St. Lucie West Services District.

(E) Fund or Account and subaccount, if any, from which disbursement to be made:

Renewal/Replacement, Account Number 4076011209

The undersigned hereby certifies that obligations in the stated amount set forth above have been incurred by the District, that each disbursement set forth above is a proper charge against the  $\lceil \sqrt{\rceil}$  Renewal/Replacement Fund that each disbursement set forth above was incurred in connection with the cost of extensions, improvements or

additions to, or the replacement or renewal of capital assets of the Utility System, or extraordinary repairs of the Utility System.

The undersigned hereby further certifies that there has not been filed with or served upon the District notice of lien, right to lien, or attachment upon, or claim affecting the right to receive payment of, any of the moneys payable to the Payee set forth above, which has not been released or will not be released simultaneously with the payment hereof.

The undersigned hereby further certifies that such requisition contains no item representing payment on account of any retained percentage which the District is at the date of such certificate entitled to retain.

If this requisition is for a disbursement from other than the Transaction Cost Account or for payment of capitalized interest, there shall be attached a resolution of the Governing Body of the District approving the specific contract with respect to which disbursements pursuant to this requisition are due and payable.

Attached hereto are originals of the invoice(s) from the vendor of the property acquired or services rendered with respect to which disbursement is hereby requested.

Ву:	
	Chairman

### CONSULTING ENGINEER'S APPROVAL FOR NON-COST OF ISSUANCE AND CAPITALIZED INTEREST REQUESTS ONLY

If this requisition is for a disbursement from other than Capitalized Interest or Costs of Issuance, the undersigned Consulting Engineer hereby certifies that this disbursement is for a Cost of the Renewal & Replacement Project and is consistent with: (i) the applicable acquisition or construction contract; (ii) the plans and specifications for the portion of the Renewal & Replacement Project with respect to which such disbursement is being made; and (iii) the report of the Consulting Engineer shall have been amended or modified on the date hereof.

### ST. LUCIE WEST SERVICES DISTRICT REQUISITION FOR PAYMENT WATER CAPACITY TRUST ACCOUNT

The undersigned, an Authorized Officer of St. Lucie West Services District (the "District") hereby submits the following requisition for disbursement under and pursuant to the terms of the Indenture of Trust from the District to US Bank, as trustee (the "Trustee"), dated as of February 1, 2000 (the "Indenture") (all capitalized terms used herein shall have the meaning as such term in the Indenture):

(A) Requisition Number:

2022-15

(B) Name of Payee:

St. Lucie West Services District, Water & Sewer Checking Account Truist Account # 1000144367918

(C) Amount Payable:

\$992.93

(D) Purpose for which paid or incurred (refer also to specific contract if amount is due and payable pursuant to a contract involving progress payments, or, state Costs of issuance, if applicable):

Per the attached invoices relate to projects in which were budgeted to be funded by the Water Connection fee account and therefore are appropriate for payment out of the Water Connection Fee Fund.

(E) Fund or Account and subaccount, if any, from which disbursement to be made:

### Water Connection Fund, Account Number 4076011227

The undersigned hereby certifies that [obligations in the stated amount set forth above have been incurred by the District, that each disbursement set forth above is a proper charge against the  $\lceil \sqrt{\rceil}$  Water Connection Fees Fund and that each disbursement set for the above was incurred in connection with the cost of acquiring and/or constructing

improvements or additions to the water facilities of the Utility System for which the Water Connection Fees were imposed in accordance with the requisitions for disbursement for moneys provided to the Trustee by the District.

The undersigned hereby further certifies that there has not been filed with or served upon the District notice of lien, right to lien, or attachment upon, or claim affecting the right to receive payment of, any of the moneys payable to the Payee set forth above, which has not been released or will not be released simultaneously with the payment hereof.

The undersigned hereby further certifies that such requisition contains no item representing payment on account of any retained percentage which the District is at the date of such certificate entitled to retain.

If this requisition is for a disbursement from other than the Transaction Cost Account or for payment of capitalized interest, there shall be attached a resolution of the Governing Body of the District approving the specific contract with respect to which disbursements pursuant to this requisition are due and payable.

Attached hereto are originals of the invoice(s) from the vendor of the property acquired or services rendered with respect to which disbursement is hereby requested.
