

## **SLWSD Manhole Infrastructure Inspections Mar. 3 - May 9, 2025**

The St. Lucie West Services District (SLWSD) would like to inform residents that the contractor *InfoSense* will be conducting inspections of manholes and their associated piping/infrastructure throughout all residential areas of the district.

### **Inspection Dates:**

The inspections will begin on March 3 and are expected to continue until approximately May 9.

### **Purpose of Inspections:**

These inspections are a necessary part of maintaining the district's infrastructure and are required by the Florida Department of Environmental Protection. According to the Collection/Transmission Systems rule 62-600.705, regular inspections help ensure the integrity and safety of the collection and transmission systems.

SLWSD appreciates your understanding and cooperation as these inspections take place. Please exercise caution when approaching work areas, and feel free to contact the district with any questions.
